Van Teijlingen, 2004 This book provides an introduction to the sociological study of

midwifery The readings have been selected to highlight the interplay between midwifery and medicine reflecting the medicalization of childbirth It highlights the major themes in both a historical and a current context as well as western and non western societies Two major themes underlie the organization of this book that the conception of midwifery must be broadened to encompass a sociological perspective and that the ongoing trend toward the medicalization of midwifery is crucial to an understanding of the historical current and future status of midwifery By medicalization of childbirth and midwifery the author mean the increasing tendency for women to prefer a hospital delivery to a home delivery the increasing trend toward the use of technology and clinical intervention in childbirth and the determination of medical practitioners to confine the role played by midwives in pregnancy and childbirth if any to a purely subordinate one **RCM Midwives**

Journal ,2001 *Health Promotion in Midwifery : Principles and practice* Jan Bowden,Vicky Manning,2017-07-27 An expanded and updated new edition of *Health Promotion in Midwifery* this book explores the principles of health promotion within the practical context of midwifery **Changing Practice in Health and Social Care** Celia Davies,2000-02-11 *New Ways of Working in Health and Social Care* explores the range and depth of recent challenges facing professionals in health and social care The Social Meaning of Midwifery Sheila C. Hunt,Anthea Symonds,1995-11-11 Many books exist illustrating the power structure of the medical professional which is male gendered and its significance for women within this No study has so far tackled the relationship between women as child birth professionals and women as mothers The attitude of the midwife towards the labour ward is examined How the mother is marginalised by the managerial role taken on by the midwife towards the production process childbirth and the object of production child is the main focus of this book The stream of feminist orientation which is said to run through a section of the midwifery profession is examined

Community-based Maternity Care Geoffrey Marsh,Mary Renfrew,1998-10-22 This important book makes the case for placing maternity care in the community It has been written by a multidisciplinary group The first section considers the role and function of the participants in community based maternity care the woman the midwife and the GP The second section discusses four major contemporary issues the radically changing social background the economics of care audit and education of the carers Next the major clinical challenges in maternity care are tackled how to reduce the differences in morbidity and mortality which are associated with differences in age social class and ethnicity the care of disadvantaged groups prematurity and low birth weight and their prevention technology used in childbirth and the fetal origins of adult disease Finally all aspects of the clinical care carried out by Gps and midwives are covered The editors hope that after reading this book midwives Gps and obstetricians should find the theory underpinning their work has been sharply defined and that their work will be more effective and evidence based The editors a GP and a midwife anticipate the resolution of the current tensions between midwife GP and obstetrician and look forward to a responsive effective and sensitive service for mothers and babies in the next millennium *The Law and the Midwife* Shirley R. Jones,Rosemary Jenkins,2008-04-15 The
