Mike McGill, Pirate Howard Hecker, 2000-09-01 **Mike McGill Wizard Coloring Book/Mike McGill Pirate Coloring Book** Howard Hecker, 2002-10 *Mike McGill, Wizard* Howard Hecker, 2000-06-02 *Children's Books in Print* R R Bowker Publishing, Bowker, 1999-12 *Congressional Record* United States. Congress, 2000 *Prosecuting Maritime Piracy* Michael P. Scharf, Michael A. Newton, Milena Sterio, 2015-05-28 This book addresses maritime piracy by focusing on the unique and fascinating issues arising in the course of domestic piracy prosecutions from the pursuit and apprehension of pirates to their trial and imprisonment It examines novel matters not addressed in other published works such as the challenges in preserving and presenting evidence in piracy trials the rights of pirate defendants and contending with alleged pirates who are juveniles A more thorough understanding of modern piracy trials and the precedent they have established is critical to scholars practitioners and the broader community interested in counter piracy efforts as these prosecutions are likely to be the primary judicial mechanism to contend with pirate activity going forward *Canada's Bastions of Empire* Bryan Elson, 2014-10-16 This book offers a fresh perspective on North American history and the key role played by Halifax and Victoria in ensuring that Canada emerged as an independent country in the 20th century Brian Elson focuses on the significance of the bases for the all powerful British navy at Halifax and Victoria through the 19th century and the First World War As he explains Halifax gave the Royal Navy the land base they needed to project British power along the whole east Atlantic coast of North America Victorias Esquimault did the same thing for the Pacific coast During the 1800s the United States grew dramatically adding huge swaths of lands west south and north that had belonged to France Spain Mexico and Russia while pushing aside native peoples More than once the American government came into conflict with Britain over British territory in North America There were threats of war and annexation and American popular support for absorbing Canada was strong In this book Bryan Elson shows how the British presence in Halifax and later in Victoria stood in the way of US designs on Canada American leaders knew that the British Navy with its bases on both coasts had the power to cut them off from the rest of the world with a naval blockade The American threat to Canada was effectively countered by the British presence in these two cities The two bastions played their most important role in the early years of the First World War As Bryan Elson explains in 1914 the United States stood aside while the British Empire including Canada took on Germany In this situation the British navy including the Canadian navys first east coast warship mounted a show of force by stopping all incoming and outgoing traffic from the port of New York This lasted until the US finally opted into the war on the side of Britain in 1917 Meanwhile on the west coast the Equimaunt naval base was buttressed by the extraordinary action of the B C provincial government which at the start of the war bought two new submarines from a shipyard in Seattle for the fledgling Canadian navy *Mike's World* Asa McKercher, Galen Roger Perras, 2017-10-06 Although fifty years have passed since Lester Pearson stepped down as prime minister he still influences debates about Canada s role in the world Known as

Mike to his friends he has been credited with charting a Pearsonian course in which Canada took on a global role as a helpful fixer seeking to mediate disputes and promote international cooperation Mike's *World* explores the myths surrounding Pearsonianism to explain why he remains such a touchstone for understanding Canadian foreign policy Leading and emerging scholars dig deeply into Pearson's diplomatic and political career especially during the 1960s and his time as prime minister Topics range from peacekeeping and Arctic sovereignty to environmental diplomacy and human rights policy They show that competing forces of idealism and pragmatism were key drivers of Pearsonian foreign policy and how global events often influenced politics and society within Canada itself Situating Pearson within his times and as a lens through which to analyze Canadians' views of global affairs this nuanced collection wrestles with the contradictions of Pearson and Pearsonianism and ultimately with the resulting myths surrounding Canada's role in the world

Law and the "Sharing Economy" Derek McKee, Finn Makela, Teresa Scassa, 2018-11-27 Controversy shrouds sharing economy platforms It stems partially from the platforms economic impact which is felt most acutely in certain sectors Uber drivers compete with taxi drivers Airbnb hosts compete with hotels Other consequences lie elsewhere Uber is associated with a trend toward low paying precarious work whereas Airbnb is accused of exacerbating real estate speculation and raising the cost of long term rental housing While governments in some jurisdictions have attempted to rein in the platforms technology has enabled such companies to bypass conventional regulatory categories generating accusations of unfair competition as well as debates about the merits of existing regulatory regimes Indeed the platforms blur a number of familiar distinctions including personal versus commercial activity infrastructure versus content contractual autonomy versus hierarchical control These ambiguities can stymie legal regimes that rely on these distinctions as organizing principles including those relating to labour competition tax insurance information the prohibition of discrimination as well as specialized sectoral regulation This book is organized around five themes technologies of regulation regulating technology the sites of regulation local to global regulating markets and regulating labour Together the chapters offer a rich variety of insights on the regulation of the sharing economy both in terms of the traditional areas of law they bring to bear and the theoretical perspectives that inform their analysis Published in English

As British as the King Gerald Hallowell, 2025-09-19 In August 1914 the long established Germans of Lunenburg County found themselves facing a dilemma Canada was at war with Germany They met suspicions of disloyalty with the claim that their roots were deep in the German

states of mid eighteenth century central Europe long before unification They were then as British as King George V himself As British as the King explores life in Lunenburg County at a time when blackouts were enforced when there were rumours of spies and when schooners were sunk offshore by U boats Intricately and thoroughly researched this fascinating historical account brings an exquisite level of detail to the history of the war effort on the home front Historians and Nova Scotians with Lunenburg roots will appreciate author Gerald Hallowell s passion for his subject a passion that echoes that of his previous work *The August Gales* for which he received the 2014 Democracy 250 Atlantic Book Award for Historical Writing Features a historical map and 30 black and white images *The Seabound Coast* William Johnston, William G.P.

Rawling, Richard H. Gimblett, John MacFarlane, 2011-01-14 Commended for the 2011 Keith Matthews Award From its creation in 1910 the Royal Canadian Navy was marked by political debate over the countrys need for a naval service *The Seabound Coast* Volume I of a three volume official history of the RCN traces the story of the navys first three decades from its beginnings as Prime Minister Sir Wilfrid Lauriers tinpot navy of two obsolescent British cruisers to the force of six modern destroyers and four minesweepers with which it began the Second World War The previously published Volume II of this history Part 1 No Higher Purpose and Part 2 A Blue Water Navy has already told the story of the RCN during the 1939-1945 conflict Based on extensive archival research *The Seabound Coast* recounts the acrimonious debates that eventually led to the RCNs establishment in 1910 its tenuous existence following the Laurier governments sudden replacement by that of Robert Borden one year later and the navys struggles during the First World War when it was forced to defend Canadian waters with only a handful of resources From the effects of the devastating Halifax explosion in December 1917 to the U boat campaign off Canadas East Coast in 1918 the volume examines how the RCNs task was made more difficult by the often inconsistent advice Ottawa received from the British Admiralty in London In its final section this important and well illustrated history relates the RCNs experience during the interwar years when anti war sentiment and an economic depression threatened the services very survival *Mercenaries, Pirates, and Sovereigns* Janice E. Thomson, 1996-07-22 The contemporary organization of global violence is neither timeless nor natural argues Janice Thomson It is distinctively modern In this book she examines how the present arrangement of the world into violence monopolizing sovereign states evolved over the six preceding centuries **Spindrift** Anita Hadley, Michael L. Hadley, 2017-08-05 an excellent anthology a lovely project Silver Donald Cameron Given that Canada has the longest coastline in the world and its motto is From Sea unto Sea it is not surprising that virtually every Canadian writer has been inspired to write about some aspect of the sea at some point in their work As this book shows those watery passages are some of the very best writing the nation has produced Journeying coast to coast to coast from the picturesque and isolated Vancouver Island village of Ucluelet through the desolate Northwest Passage to historic Signal Hill at the tip of Newfoundland s Avalon Peninsula *Spindrift A Canadian Book of the Sea* invites the reader on an evocative voyage Reflecting on a myriad of sea related themes including the earliest Indigenous presence the

first nautical exploration of Canada the arrival of immigrants on the nation's shores the realities of making a living on the water tragic marine events warfare and celebrated vessels and people Spindrift paints a compelling portrait of Canada Editors Michael and Anita Hadley have distilled the essence from a vast collection of maritime reflection by some of Canada's greatest fiction and non-fiction writers including Milton Acorn Pierre Berton Earle Birney M. Wylie Blanchet Emily Carr Donald Creighton Michael Crummey Barry Gough Lawrence Hill Edith Iglauer Joy Kogawa Malcolm Lowry Linden MacIntyre Yann Martel L. M. The Halifax Explosion and the Royal Canadian Navy John Griffith Armstrong, 2011-11-01 The Halifax Explosion of 1917 is a defining event in the Canadian consciousness yet it has never been the subject of a sustained analytical history Astonishingly until now no one has consulted the large federal government archives that contain first-hand accounts of the disaster and the response of national authorities Canada's recently established navy was at the epicentre of the crisis Armstrong reveals the navy's compelling and little-known story by carefully retracing the events preceding the disaster and the role of the military in its aftermath He catches the pulse of disaster response in official Ottawa and provides a compelling analysis of the legal manoeuvres rhetoric blunders public controversy and crisis management that ensued His disturbing conclusion is that federal officials knew of potential dangers in the harbour before the explosion took no corrective action and kept the information from the public As a result a Halifax naval officer was made a scapegoat and the navy received lasting and mostly undeserved vilification This is a provocative read not only for military and naval devotees but for anyone who wants to understand one of the events that shaped Canada in the twentieth century

Transnational Play Anne-Marie Schleiner, 2025-10-01 Transnational Play approaches gameplay as a set of practices and a global industry that includes diverse participation from players and developers located within the global South in nations outside of the First World Players experience play in game cafes through casual games for regional and global causes like environmentalism through piracy and cheats via cultural localization on their mobile phones and through urban playful art in Latin America This book offers a reorientation of

perspective on the global developers who make games as well as the players who consume games while still acknowledging geographically distributed socioeconomic racial gender and other inequities Over the course of the inquiry which includes a chapter dedicated to the cartography of the mobile augmented reality game Pok mon Go the author develops a theoretical line of argument critically informed by gender studies and intersectionality postcolonialism geopolitics and game studies problematizing play as a diverse and contested transnational domain
