Brockmann, 2006 Nuremberg The Imaginary Capital is a broad study of German cultural and intellectual history since 1500
with a particular emphasis on the period from 1800 to the present The book explores the ways in which Germans over the
past two centuries have imagined Nuremberg as a cultural and spiritual capital focusing feelings of national identity and
belonging on the city or on their Images of it Nuremberg The Imaginary Capital analyzes the way in which a particular city
came to be seen in Germany and elsewhere as representative of the national whole The book goes beyond the analysis of
particular historical periods by showing how successive epochs images of Nuremberg built on those preceding them thus
German cultural and intellectual history is shown as an intelligible unity centered around fascination with and veneration for
a particular city **Geschichte der Stadt Nürnberg** Georg Schrötter, 1909 **Das alte Nürnberg in Anlage und

Nuremberg* Anne Simon, 2016-03-16 Katherine of Alexandria was a major object of devotion within medieval Europe ranking
second only to the Virgin Mary in the canon of female saints Yet despite her undoubted importance relatively little is known
about the significance and function of her cult within the German speaking territories that stood at the heart of Europe Anne

Simon's study adds a welcome new interdisciplinary perspective to the study of Saint Katherine and the wider ecclesiastical landscape of a medieval Europe poised on the edge of religious change. Taking as a case study the wealthy and politically influential merchant city of Nuremberg, this book draws on a wide variety of textual and visual sources to explore interrelated themes: the shaping of urban space through the cult of Saint Katherine; her role in the moulding and advertising patrician identity and alliances through cultural patronage and patrician use of the saint to showcase the city's political, economic, cultural and religious importance at the heart of the Holy Roman Empire. Further, the book reveals the construction of exemplarity in Saint Katherine's legend and miracles and their resonance within the context of the city and the Dominican Convent of Saint Katherine, whose nuns came from the same status-aware, confident patrician elite that so loyally supported successive Emperors. Filling a significant gap in current research, the work has much to offer scholars of medieval history, hagiography, art history, German studies, cultural and urban studies. Hence, it not only expands our understanding of Saint Katherine's importance in German-speaking territories but also adds to the picture of her cult in its European perspective.
