Omega Project Near Death Experiences Ufo Encounters And Mind At Large:

The Omega Project Kenneth Ring,1992 An examination of the similarities of near death experiences and those who claim alien abduction Also includes a discussion of childhood alien encounters and of personalities that are apparently more sensitive to spiritual and visionary encounters

Omega Project Kenneth Ring,1993 Reveals that UFO abductees bear strong psychological resemblances to Near Death Experience survivors and concludes that these experiences may represent a new stage in the evolution of the human mind

The Gods Have Landed James R. Lewis,1995-03-09 This is a comprehensive account of the religious dimensions of the UFO flying saucer experience

Near Death Experiences Anthony Peake,2024-11-01 As the bestselling author of *Is There Life After Death* and *Cheating the Ferryman* Anthony Peake has studied the phenomena surrounding what happens when we die In *Near Death Experiences* he takes a look at a phenomenon that has garnered great attention from both academics and scientists who study the workings of the brain and the physiological events that are associated with this seemingly inexplicable state By marrying up anecdotal evidence with empirical scientific evidence Peake proffers the latest theories behind what we call near death experiences and how those investigating them are trying to reconcile an apparent state of awareness on the part of the person concerned with the fact that clinically they are considered by physicians to be in a state of clinical death with no signs of bodily functions It makes for a fascinating read that takes us into an area of neuroscientific research that is continually evolving

Wisdom of Near-Death Experiences Dr. Penny Sartori,2014-03-25 Drawing on a 5 year clinical study of near death experiences a doctor presents riveting patient stories to explore how NDEs can empower us and society as a whole By trying to pathologize NDEs are we missing out on what they can tell us about life Dr Penny Sartori is a registered nurse who began researching Near Death Experiences NDEs in 1995 after one of her long term intensive care patients begged her to let him die in peace Inspired by this encounter she went on to research NDEs in a PhD program where she learned profound spiritual lessons and made startling discoveries that she now shares in *The Wisdom of Near Death Experiences* During her academic work Dr Sartori studied three samples of ICU patients during a five year period Here she recounts the eye opening stories of those patients who experienced NDEs and out of body experiences OBEs In one group as many as 18% of patients experienced an NDE though Patient 10 stood out among the others After being unresponsive he awoke to report he had experienced an OBE He was able to describe what happened in the hospital room while he was unconscious and claimed he met not only his deceased father but a Jesus like figure Most shocking of all he had regained the use of his hand which had been paralyzed since birth When talking about the biggest takeaways from her research Dr Sartori shares how her findings have made her question the common belief that the brain gives rise to consciousness Most importantly she has gained a deeper appreciation for death an experience she now views with less fear and anxiety In addition to detailing dozens of case studies *The Wisdom of Near Death Experiences* also discusses childhood NDEs the differences in NDEs among different cultures and the after

effects of NDEs **Abduction: Human Encounters with Aliens** Mack,2009-12-15 A Harvard psychiatrist the author of *A Prince of Our Disorder* presents accounts of alien abduction taken from the more than sixty cases he has investigated and examines the implications for our identity as a species These mesmerizing and thought provoking stories of alien encounters from a Harvard professor take you through actual case studies of people from all walks of life and ages who have had challenging sometimes disturbing and in every case life changing experiences of alien abduction John Mack explores evidence of nonhuman intelligence like an attorney preparing for the trial of the century interviewing witnesses examining physical evidence consulting with experts in related fields constantly questioning his own assumptions As a story of one man's determination to bear witness to cosmic mysteries with extraordinary implications for the human future Abduction is bound to become a modern classic Keith Thompson author of *Angels and Aliens* *The Handbook of Near-Death Experiences* Bruce Greyson,Janice Miner Holden,Debbie James,2009-06-22 A team of international experts presents the history recent developments and controversies in the intriguing study of near death experience Experts from around the world share the history and current state of near death experience NDE knowledge They explore controversies in the field offer stories from their research and express their hopes for the future of investigation into this fascinating phenomenon As modern medical techniques for resuscitation advance NDEs are more frequently reported These include more than the popular notions of moving through a tunnel or seeing a light They also include people once revived knowing things their knowledge of which can't currently be explained As *The Handbook of Near Death Experiences Thirty Years of Investigation* makes clear great controversy exists in the medical and psychological fields concerning NDEs Are they caused by physiological changes in the brain or are they biological reactions to oxygen loss or impending death Are they a product of changing states of consciousness Or are they caused by something else altogether All of these ideas and more are discussed in this unique and comprehensive volume *Making Sense of Near-death Experiences* Mahendra Perera,Karuppiah Jagadheesan,Anthony Peake,2012 A near death experience NDE is a phenomenon whereby powerful physical and emotional sensations and visions are experienced by someone who is either close to death or has been declared clinically dead This is a guide to the theory and evidence underlying the phenomenon of NDEs **The Myth and Mystery of UFOs** Thomas E. Bullard,2016-10-17 When United Airlines workers reported a UFO at O'Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune's website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don't such persistent sightings command more urgent attention from scientists scholars and mainstream journalists The answer in part lies in Bullard's wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility

of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos Bullard s book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books movies and television series blurred the boundaries between science science fiction and religion and crowded the Internet with websites and discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and endlessly engaging Bullard s study is a sky watcher s guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth

Touched by the Light Yvonne Kason,2019-08-03 Using fascinating case stories Dr Yvonne Kason shares the results of her research and experience counselling hundreds of STE experiencers

Physics of the Soul Amit Goswami,2013-12-01 Dr Amit Goswami is one of the most brilliant minds in the world of science His insights into the relationship between physics and consciousness have deeply influenced by understanding and I am deeply grateful to him Physics of the Soul is both challenging and brilliant Deepak Chopra Quantum Physics and Spirituality Made Simple At last science and the soul shake hands Writing in a style that is both lucid and charming mischievous and profound Dr Amit Goswami uses the language and concepts of quantum physics to explore and scientifically prove metaphysical theories of reincarnation and immortality In Physics of the Soul Goswami helps readers understand the perplexities of the quantum physics model of reality and the perennial beliefs of spiritual and religious traditions He shows how they are not only compatible but also provide essential support for each other The result is a deeply broadened exciting and enriched worldview that integrates mind and spirit into science

Daimonic Imagination Patrick Curry,William Rowlandson,2013-07-16 From the artistic genius to the tarot reader a sense of communication with another order of reality is commonly affirmed this other may be termed god angel spirit muse daimon or alien or it may be seen as an aspect of the human imagination or the unconscious in a psychological sense This volume of essays celebrates the daimonic presence in a diversity of manifestations presenting new insights into inspired creativity and human beings relationship with mysterious and numinous dimensions of reality In art and literature many visual and poetic forms have been given to the daimonic intelligence and in the realm of new age practices encounters with spirit beings are facilitated through an increasing variety of methods including shamanism hypnotherapy mediumship and psychedelics The contributors to this book are not

concerned with proving or disproving the existence of such beings Rather they paint a broad canvas with many colours evoking the daimon through the perspectives of history literature encounter and performance and showing how it informs and has always informed human experience **Intimate Alien** David J. Halperin, 2020-03-24 A voyage of exploration to the outer reaches of our inner lives UFOs are a myth says David J Halperin but myths are real The power and fascination of the UFO has nothing to do with space travel or life on other planets It s about us our longings and terrors and especially the greatest terror of all the end of our existence This is a book about UFOs that goes beyond believing in them or debunking them and to a fresh understanding of what they tell us about ourselves as individuals as a culture and as a species In the 1960s Halperin was a teenage UFOlogist convinced that flying saucers were real and that it was his life s mission to solve their mystery He would become a professor of religious studies with traditions of heavenly journeys his specialty With *Intimate Alien* he looks back to explore what UFOs once meant to him as a boy growing up in a home haunted by death and what they still mean for millions believers and deniers alike From the prehistoric Balkans to the deserts of New Mexico from the biblical visions of Ezekiel to modern abduction encounters *Intimate Alien* traces the hidden story of the UFO It s a human story from beginning to end no less mysterious and fantastic for its earthliness A collective cultural dream UFOs transport us to the outer limits of that most alien yet intimate frontier our own inner space *The New Road: and the Paradigm*. Peter Dodd Cooper, DSc, PhD, 2022-08-01 Peter Dodd Cooper s book *The New Road and the Paradigm* is both a spiritual memoir and a series of scientific articles on his own exploration of the nature of consciousness and of reality itself As a scientist he brings credibility to this book with his credentials from a long and productive scientific career From this vantage point he then explores topics that don t fit into our current materialist paradigm looking deeper to see if he can find more satisfying answers After exploring the mysteries of quantum physics the he concludes his exploration by saying Experiencers tell us that reality is that realm outside Plato s cave where colours are brighter and Oneness with everything is self evident *The Afterlife in Early Christian Carthage* Stephen E. Potthoff, 2016-12-01 *The Afterlife in Early Christian Carthage* explores how the visionary experiences of early Christian martyrs shaped and informed early Christian ancestor cult and the construction of the cemetery as paradise Taking the early Christian cemeteries in Carthage as a case study the volume broadens our understanding of the historical and cultural origins of the early Christian cult of the saints and highlights the often divergent views about the dead and post mortem realms expressed by the church fathers and in graveside ritual and the material culture of the cemetery This fascinating study is a key resource for students of late antique and early Christian culture *Transpersonal Psychotherapy* Seymour Boorstein, 1996-02-15 Since its original publication in 1980 this book has become a classic in transpersonal psychotherapy This new edition contains articles by the major figures in the field including new contributions by Stanislav Grof John Nelson Donald Evans Charles Tart Edward Hoffman Seymour Boorstein W Michael Keane and Stephen Cope Sylvia Boorstein and Roger J Woolger The articles present a spectrum of widely diverse

perspectives from precise behavioristic work with attention training through creative clinical pharmacology and theory development to innovative use of chakra energies The result is a rich and provocative summary of the state of the art in transpersonal psychotherapy The editor s focus is on the scientific healing mysticism alliance which dates back to the earliest shamans and in modern times has engaged William James Carl Jung Roberto Assagioli and Abraham Maslow In the book some of the most respected pioneers in the field give their vision of the synergistic potential of these two powerful traditions Transpersonal Psychotherapy describes a wide variety of uses of traditional and spiritual approaches for the alleviation of mental suffering and for spiritual development

Medicine - Religion - Spirituality Dorothea Lüddeckens, Monika Schrimpf, 2018-11-08 In modern societies the functional differentiation of medicine and religion is the predominant paradigm Contemporary therapeutic practices and concepts in healing systems such as Transpersonal Psychology Ayurveda as well as Buddhist and Anthroposophic medicine however are shaped by medical as well as religious or spiritual elements This book investigates configurations of the entanglement between medicine religion and spirituality in Europe Asia North America and Africa How do political and legal conditions affect these healing systems How do they relate to religious and scientific discourses How do therapeutic practitioners position themselves between medicine and religion and what is their appeal for patients

UFOs Over Colorado Preston Dennett, 2017-11-28 Colorado has been a UFO hotspot for more than 100 years This is the first book to present a comprehensive history of extraterrestrial encounters in the Centennial State Arranged by decade read a dazzling array of sightings landings face to face encounters onboard experiences and UFO crash retrievals Colorado UFO cases have had a profound effect on UFO research The 1967 mutilation of Lady the horse in Alamosa introduced the world to the animal mutilation phenomenon The 1995 videotape footage by Tim Edwards of a UFO over Salida remains some of the best evidence ever recorded The extraterrestrial experiences of Denver businessman Stan Romanek are among the best verified in UFO history The San Luis Valley in southern Colorado has produced hundreds of cases and is one of the most active areas on the planet This book will explore these famous cases and many others never before published

The World of Shamanism Roger N. Walsh, 2007 This objective exploration of shamanism and its place in contemporary life leaves no stone unturned as Dr Walsh examines shamanistic traditions throughout history and how they intersect with modern psychology and metaphysical studies

Other Worlds John R. Heapes, MA, MSW, 2014-02 Who hasn t asked What happens to me after I die and or Are we alone in the universe Other Worlds UFOs Aliens and the Afterlife takes readers on a journey into other galaxies and into a different time a time after all of their tomorrows How are the societies organized on other planets and in the afterlife This book answers this question with a new approach in the UFO and the Near Death Experience fields As readers take this trip they will wonder if there are universal laws governing the societies of intelligent beings regardless of where they reside in existence Are humans projecting into foreign forms their own beliefs about how societies should be arranged on Earth Why study such ethereal and controversial material We always learn about ourselves

when we study those who are different from us whether those beings are real or not Anyone who has read a good book of fiction knows the validity of this point Consider how many teenagers identify with the characters in the Hunger Games books What follows is the sociological perspective We will explore institutions such as marriage and the family social classes and culture We will determine the sex of alien travelers as well as the occupations of their human witnesses We will learn what the afterlife looks like and discover what messages deceased beings deliver to humans
