Russian Aeroplanes 1914-1918:

Russian Aeroplanes 1914-1918 Mikhail Maslov, 2002-11-01 **Aircraft of the 1914-1918 War** Owen Gordon Thetford, E. J. Riding, 1946 **Reconnaissance & Bomber Aircraft of the 1914-1918 War** William Melville Lamberton, 1962 The Central Powers on the Russian Front 1914-1918 David Bilton, 2014-02-11 Arranged in five sections one for each year of the War this superbly illustrated book covers the fluid fighting that took place on the Russian Front from August 1914 The author describes how each year saw dramatic developments notably actions in Poland Tannenberg the Carpathian passes in 1914 the 1915 operations in Galicia and the Baltic and the 1916 Brusilov offensive 1917 saw the collapse of the German army leading to the 1918 Treaty of Brest Litovsk and continued fighting along the Baltic and in the Ukraine The informative text is complemented by over 200 mainly previously unpublished photographs The Central Powers on the Russian Front 1914-1918 with its emphasis on the German Army's actions against Russia but covering operations on many fronts makes it especially valuable to those who seek greater insight into the wider conduct of The Great War away from the Western Front Heroes & Aeroplanes of the Great War, 1914-1918 Joseph A. Phelan, 1966 Story tracing the development of aeroplanes from the early 1900s to the deadly instrument it became during the great conflict and the great men who flew them **Foundations of Russian Military Flight, 1885-1925** James K Libbey, 2019-05-15 Foundations of Russian Military Flight focuses on the early use of balloons and aircraft by the Russian military The best early Russian aircraft included flying boats designed by Dimitrii Grigorovich and large reconnaissance bombers created by Igor Sikorsky As World War I began the Imperial Russian Navy made use of aircraft more quickly than the army Indeed the navy established a precursor to the aircraft carrier The Imperial Russian Army came to respect over time the work of aircraft that evolved from reconnaissance and bomber to fighter planes Over 250 army pilots during the war received awards of high distinction for their wartime flights After the 1917 revolution both the new Bolshevik government and the reactionary White forces created air arms to combat each other In the 1920s the Soviet Union and Germany negotiated agreements that allowed Germany to violate the Treaty of Versailles by building military aircraft and training German military pilots in the USSR This provided the Soviet Union access to the latest aviation technology and prevented them from falling too far behind the West in this crucial sphere **The Russian Baltic Fleet in the Time of War and Revolution, 1914-1918** Stephen C Ellis, 2020-04-30 The translation of these memoirs brings an important and authoritative historical source to those interested in Russian or naval history who are unable to access them in the original Russian Their author Rear Admiral S N Timiryov was well placed to make observations on the character of many of the significant commanding officers and also many of the operations of the Baltic Fleet from the beginning of the war in 1914 up to exit from it in 1918 He trained with many of the key figures and shared battle experience with them in the Russo Japanese War of 1904-05 and the siege of Port Arthur and he spent a year in Japan as a prisoner of war with a number of them In his subsequent career in the Navy he had roles which brought him into

contact with new recruits as well as with many serving officers and as the Executive Officer on the imperial yacht Shtandart for some years he came into contact with senior members of the navy establishment and of the government including the imperial household His memoirs also exhibit an unusual degree of self awareness Written in Shanghai in 1922 these memoirs remained unknown to scholars for several decades Since their publication in New York in 1961 in the absence of access to authoritative archives many historians in the West used them as a source for the study of the role of the Navy in the Russian revolution particularly as it unfolded in the north They have also been used as a source in numerous studies of the naval war in the Baltic and following the fall of the Soviet Union they were re published in Russia and are regarded there as an authoritative source on the history both of the revolution and of the Russian Navy in the First World War This first English language edition complemented by extensive notes and commentary on issues which may not be familiar to many will fascinate scholars and naval historians alike
