compiled the Index to Handicraft Books listing more than 900 books and over 12 400 sub ject entries covering books
published from 1974 to 1984 The Index to Handicraft Books is an essential ref erence tool for librarians who want to help

help librarians find the book on their shelves or obtain the book through inter library loan Because this index developed from

 civilization itself New York Times Book Review New discoveries about the textile arts reveal women s unexpectedly
 influential role in ancient societies Twenty thousand years ago women were making and wearing the first clothing created
 from spun fibers In fact right up to the Industrial Revolution the fiber arts were an enormous economic force belonging
 primarily to women Despite the great toil required in making cloth and clothing most books on ancient history and economics
 have no information on them Much of this gap results from the extreme perishability of what women produced but it seems
 clear that until now descriptions of prehistoric and early historic cultures have omitted virtually half the picture Elizabeth
 Wayland Barber has drawn from data gathered by the most sophisticated new archaeological methods methods she herself
 helped to fashion In a brilliantly original book Katha Pollitt Washington Post Book World she argues that women were a
