Russian Lawyers The Soviet State:

Russian Lawyers and the Soviet State Eugene Huskey, 2014-07-14 This study traces the development of the Soviet Bar through periods of legal nihilism and legal revival to its final integration into the Soviet order at the end of the 1930s a story of uncertainty and conflict in the Bolshevik ranks over the role of the lawyer under socialism and one of resistance to Soviet power by a profession jealous of its own autonomy Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Russian Lawyers and the Soviet State Eugene Huskey, Law and the Russian State William E. Pomeranz, 2018-12-27 Russia is often portrayed as a regressive even lawless country and yet the Russian state has played a major role in shaping and experimenting with law as an instrument of power In Law and the Russian State William E. Pomeranz examines Russia's legal evolution from Peter the Great to Vladimir Putin addressing the continuities and disruptions of Russian law during the imperial Soviet and post Soviet The book covers key themes including Law and empire Law and modernization The politicization of law The role of intellectuals and dissidents in mobilizing the law The evolution of Russian legal institutions The struggle for human rights The rule of law The quest to establish the law based state It also analyzes legal culture and how Russians understand and use the law With a detailed bibliography this is an important text for anyone seeking a sophisticated understanding of how Russian society and the Russian state have developed in the last 350 years Bolshevik Visions William G. Rosenberg, 1990 The first volume of a collection of writings by early Soviet critics and theorists Soviet State and Society Between Revolutions, 1918-1929 Lewis H. Siegelbaum, 1992-08-20 The evolution of the ruling Communist Party and its New Economic Policy is explored in the first book to analyze the relationship between the Soviet state and society from 1917 through the early 1930s through the changing fortunes of its peoples **Counsel in the Caucasus: Professionalization and Law in Georgia** Christopher P. M. Waters, 2013-12-14 This book traces the development of the rule of law in Georgia since its independence and speculates on its future direction It does so by focusing on changes in the legal profession after 1991 Intriguingly the book which is based on extensive field work concludes that culture and informal regulation are key to understanding how Georgian lawyers are governed or rather govern themselves Indeed for several years after independence from the Soviet Union there was no functioning law on attorneys informal regulation based on the importance of reputation and networks was the only sort of regulation Other topics addressed in the book include Georgia's legal history its current human rights situation theories of professionalization and the link between law and development The book also compares the Georgian experience to that country's South Caucasian neighbors Armenia

and Azerbaijan thus rounding the book out as a regional study **Lawyers in 21st-Century Societies** Richard L Abel, Ole Hammerslev, Hilary Sommerlad, Ulrike Schultz, 2020-04-02 The world's legal professions have undergone dramatic changes in the 30 years since publication of the landmark three volume *Lawyers in Society* which launched comparative sociological studies of lawyers This is the first of two volumes in which scholars from a wide range of disciplines countries and cultures document and analyse those changes The present volume presents reports on 46 countries with broad coverage of North America Western Europe Latin America Asia Australia North Africa and the Middle East sub Saharan Africa and former communist countries These national reports address the impact of globalisation and neoliberalism on national legal professions the relationship of lawyers and their professional associations to the state and tensions between state and citizenship changes in lawyer demography rapidly growing numbers and the profession's efforts to retain control the entry of women and obstacles to full gender equality ethnic diversity legal education the proliferation of institutions and pedagogic innovation the regulation of lawyers structures of production especially the growth of large firms and the impact of technology and paraprofessionals the distribution of lawyers across roles and access to justice state funded legal aid and pro bono services The juxtaposition of the reports reveals the dramatic transformations of professional rationales labour markets and working practices and the multiple contingencies of the role of lawyers in societies experiencing increasing juridification within a new geopolitical order *Russia's Missing Middle Class: The Professions in Russian History* Harley D. Balzer, 2016-09-16 This work describes the emergence of the professions in late tsarist Russia and their struggle for autonomy from the aristocratic state It also examines the ways in which the Russian professions both resembled and differed from their Western counterparts **Legal Resistance to Autocracy** Octávio Luiz Motta Ferraz, Natasha Lindstaedt, David M. Trubek, Oscar Vilhena Vieira, 2025-11-10 This book focuses on resistance to autocratization a less well researched and understood topic than the rise of authoritarianism As the editors and authors of this book have experienced both through their academic research and personal lives in autocratizing countries autocratization does not march on unopposed Moreover resistance to autocratization has yielded results if not managing to prevent attempted coups like in Brazil and the United States at least in disturbing the path of autocratizers and leaving doors open for future reversal as in India Israel and South Africa This collection offers a contribution to this important yet neglected field from scholars of eight countries in different stages of autocratization Brazil India China Russia Israel Hungary South Africa and the United States as well as cross cutting themes on international human rights institutions sanctions the political economy of autocratization and the role of lawyers from a comparative perspective The authors include senior and rising scholars not only with academic interest and experience of the topic but also deep knowledge and intense involvement in the autocratization processes and resistance in their own countries The volume will be of interest to researchers academics and policy makers working in the areas of law political science and international relations *The Foundations of Russian Law* Marianna Muravyeva, 2023-04-06 This
