Russian Refuge Religion Migration And Settlement On The North American Pacific Rim:

Russian Refuge Susan Wiley Hardwick, 1993-12-15 In 1987 when victims of religious persecution were finally allowed to leave Russia a flood of immigrants landed on the Pacific shores of North America By the end of 1992 over 200 000 Jews and Christians had left their homeland to resettle in a land where they had only recently been considered the enemy Russian Refuge is a comprehensive account of the Russian immigrant experience in California Oregon Washington Alaska and British Columbia since the first settlements over two hundred years ago Susan Hardwick focuses on six little studied Christian groups Baptists Pentecostals Molokans Doukhobors Old Believers and Orthodox believers to study the role of religion in their decisions to emigrate and in their adjustment to American culture Hardwick deftly combines ethnography and cultural geography presenting narratives and other data collected in over 260 personal interviews with recent immigrants and their family members still in Russia The result is an illuminating blend of geographic analysis with vivid portrayals of the individual experience of persecution migration and adjustment Russian Refuge will interest cultural geographers historians demographers immigration specialists and anyone concerned with this virtually untold chapter in the story of North American ethnic diversity , Religions and Missionaries around the Pacific, 1500-1900 Tanya Storch, 2017-05-15 This volume takes an interdisciplinary approach to the study of religious cultural exchanges around the Pacific in the period 1500 1900 relating these to economic and political developments and to the expansion of communication across the area It brings together twenty two pieces from diaries of religious exiles and missionary field observations to studies from a variety of academic disciplines so enabling a multitude of voices to be heard The articles are grouped in sections dealing with the Islamic period the Iberian Catholic period the Jewish diaspora the Russian Orthodox church the epoch of Protestant culture and finally Asian immigrant religions in the West a substantial introduction contextualizes these chapters in terms of both historical and contemporary approaches *Migration Theory* Caroline B. Brettell, James F. Hollifield, 2013-05-13 During the last decade the issue of migration has increased in global prominence and has caused controversy among the host countries around the world Continuing their interdisciplinary approach editors Catherine Brettell and James Hollifield have included revised essays from the first edition in such fields as anthropology political science and history This edition also features new essays by a demographer geographer and sociologist The Geography of Religion Roger W. Stump, 2008-04-04 The only book of its kind this balanced and accessibly written text explores the geographical study of religion Roger W Stump presents a clear and meticulous examination of the intersection of religious belief and practice with the concepts of place and space He begins by analyzing the factors that have shaped the spatial distributions of religious groups including the seminal events that have fostered the organization of religions in diverse hearths and the subsequent processes of migration and conversion that have spread religious beliefs The author then assesses how major religions have diversified as they have become established in disparate places producing a variety of religious systems from a common tradition Stump explores the efforts

of religious groups to control secular space at various scales relating their own uses of particular spaces and the meanings they attribute to space beyond the boundaries of their own communities Examining sacred space as a diverse but recurring theme in religious belief the book considers its role in religious forms of spatial behavior and as a source of conflict within and between religious groups Refreshingly jargon free and impartial this text provides a broad comparative view of religion as a focus of geographical inquiry
