Leonard Schapiro

Russian Revolutions Of 1917 The Origins Of Modern Communism:

Russian Revolutions Of 1917 Leonard Schapiro,1984-06-12 A leading authority on the Soviet Union examines the two revolutions of February and October 1917 which serve as a symbol to socialists and established communism in Russia

1917 Leonard Schapiro,1984 *The Russian Revolution, 1905-1921* Mark D. Steinberg,2016-11-17 The Russian Revolution 1905 1921 is a new history of Russia s revolutionary era as a story of experience of people making sense of history as it unfolded in their own lives and as they took part in making history themselves The major events trends and explanations reaching from Bloody Sunday in 1905 to the final shots of the civil war in 1921 are viewed through the doubled perspective of the professional historian looking backward and the contemporary journalist reporting and interpreting history as it happened The volume then turns toward particular places and people city streets peasant villages the margins of empire Central Asia Ukraine the Jewish Pale women and men workers and intellectuals artists and activists utopian visionaries and discontents of all kinds We spend time with the famous Vladimir Lenin Lev Trotsky Alexandra Kollontai Vladimir Mayakovsky Isaac Babel and with those whose names we don t even know Key themes include difference and inequality social economic gendered ethnic power and resistance violence and ideas about justice and freedom Written especially for students and general readers this history relies extensively on contemporary texts and voices in order to bring the past and its meanings to life This is a history about dramatic and uncertain times and especially about the interpretations values emotions desires and disappointments that made history matter to those who lived it **1917** Leonard Schapiro,1984 Barbarism and Civilization Bernard Wasserstein,2009-02-12 The twentieth century in Europe witnessed some of the most brutish episodes in history Yet it also saw incontestable improvements in the conditions of existence for most inhabitants of the continent from rising living standards and dramatically increased life expectancy to the virtual elimination of illiteracy and the advance of women ethnic minorities and homosexuals to greater equality of respect and opportunity It was a century of barbarism and civilization of cruelty and tenderness of technological achievement and environmental spoliation of imperial expansion and withdrawal of authoritarian repression and of individualism resurgent Covering everything from war and politics to social cultural and economic change *Barbarism and Civilization* is by turns grim humorous surprising and enlightening a window on the century we have left behind and the earliest years of its troubled successor **To Overthrow the World** Sean McMeekin,2024-09-10 From an award winning historian a new global history of Communism When the USSR collapsed in 1991 the world was certain that Communism was dead Today three decades later it is clear that it was not While Russia may no longer be Communist Communism and sympathy for Communist ideas have proliferated across the globe In *To Overthrow the World* Sean McMeekin investigates the evolution of Communism from a seductive ideal of a classless society into the ruling doctrine of tyrannical regimes Tracing Communism s ascent from theory to practice McMeekin ranges from Karl Marx s writings to the rise and fall of the USSR under Stalin to Mao s rise to power in China to the acceleration of Communist or

Communist inspired policies around the world in the twenty first century McMeekin argues however that despite the endurance of Communism it remains deeply unpopular as a political form Where it has arisen it has always arisen by force Blending historical narrative with cutting edge scholarship To Overthrow the World revolutionizes our understanding of the evolution of Communism an idea that seemingly cannot die

A Brief History of Russia Michael Kort,2008 Serves as a guide to the history and culture of Russia This book details the social economic and political changes and crises that the people of Russia have had to endure It includes a chronology bibliography and suggested readings It also covers the conquest and rule of Russia by the Mongol Golden Horde as well as the reign of terror

Vladimir Nabokov Brian Boyd,1990 Cited as one of the best books of 1990 by The New York Times and Time magazine this major biography describes Nabokov s escape from Russia his education at Cambridge and his impoverished years in Germany and France until the coming of Hitler forced him to flee to the United States with his wife and son 56 halftones

The Soviet Colossus Michael G. Kort,2019-04-17 The Soviet Colossus revisits the turning points in Russia s modern history from the fall of the tsarist regime to the establishment of the Bolshevik dictatorship and Stalinist totalitarianism the reforms and counter reforms of Khrushchev and Brezhnev to the reform program of Mikhail Gorbachev and the resultant collapse of the Soviet Union and from the effort to build a democratic and free market Russia under Boris Yeltsin to the political authoritarianism and the establishment of a state capitalist economy under Vladimir Putin This eighth edition has been revised and updated to cover the latest developments from the Putin administration These revisions include added emphasis on the increasing authoritarian nature of Russia s political system the serious challenges posed by the country s unsolved economic and social problems and the growing tensions between Russia on the one hand and the United States and the European Union on the other as a result of Moscow s aggression against Ukraine Kort combines this updated account with a broad exploration of Russia s political history examining how the Soviet past has been woven into the fabric of the modern Russian state a state which plays such a major assertive role in global affairs but which simultaneously remains an allusive secretive entity With Russia s increasing influence on the global stage and the controversies that often accompany this The Soviet Colossus is an invaluable resource for students of history politics and international relations

The Geopolitics Of Super Power Colin S. Gray,2021-10-21 What is Soviet American competition all about Is the Soviet Union a security problem that the United States must solve Or is it an insecurity condition with which the U S must learn to live and if so on what terms What kind of a player is the United States in the great game of power politics In The Geopolitics of Super Power one of our most respected strategic theorists answers these and other questions In geopolitical terms Colin Gray sees the Soviet American antagonism as an enduring contest between a continental empire and a maritime coalition each with its distinctive character and purposes Gray explores the roots of the American style in foreign policy and strategy and how that style relates to defense options He identifies four broad alternatives for U S national security policy passive and active means of containment

disengagement from foreign security commitments and the rollback of the Soviet empire Gray argues vigorously for active containment for the systematic deemphasis of nuclear weapons and for the intelligent use for deterrence and defense purposes of the West's great competitive strengths in the political economic and technological spheres

If you ally habit such a referred **Russian Revolutions Of 1917 The Origins Of Modern Communism** books that will offer you worth, get the totally best seller from us currently from several preferred authors.
