

The role of M.V. Lomonosov in the literature

His “Russian Grammar” which defined features of Russian literary language, was the first real Russian grammar; “Eloquence compendium” is a course of general theory of literature. The treatise “About benefits of church books in Russian language” is the first experience in Russian stylistics.

Poetry occupied an important place in the life of Lomonosov: “Conversation with Anakreon” and “The Hymn to Beard.” He also wrote the plays “Tamira and Selim” and “Demofont” and numerous odes.
