

THE RUSSIAN WAR MACHINE 1917-1945

EDITED BY S. L. MAYER

Arms and Armour Press

Russian War Machine 1917 1945

L. Samuelson

Russian War Machine 1917 1945:

The Russian War Machine, 1917-1945 Sydney Louis Mayer, 1977 **Hitler's War in the East, 1941-1945** Rolf-Dieter Müller, Gerd R. Ueberschär, 2002 Provides a guide to the extensive literature on the war in the East including largely unknown Soviet writing on the subject Sections on policy and strategy the military campaign the ideologically motivated war of annihilation in the East the occupation and coming to terms with the results of the war offer a wealth of bibliographic citations and include introductions detailing history of the period and related issues For military historians and for scholars who approach this period in history from a socio economic or cultural perspective No index Annotation copyrighted by Book News Inc Portland OR Occupation and Insurgency Colin D. Heaton, 2008 *World War II in Europe* David T. Zabecki, 2015-05-01 World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall This encyclopedia offers a focused overview of this complex and volatile era the circumstances that led up to war the underlying causes its unfolding and consequences Organized for quick and precise access More than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation All the key ideas events actions weapons individuals and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League from the OSS to the Africa Korps from the Chetniks to the Jedburghs from the battle of Kursk to Operation Mincemeat from Bill Donovan to Otto Skorzeny from Gestapo to SMERSH from Georgi Zhukov to Jean Leclerc from the 88 gun to the Norden Bombsight Covers important neglected subjects The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia A key section inspects and rates all the major weapons with handy tables for easy comparison And in recognition of the first large scale participation of women in the war the volume thoroughly documents their individual and unit contributions to the Allied effort Finally the encyclopedia discusses battlefield realities that explain for example why the airborne drops at Normandy succeeded and the ones at Arnheim failed A bibliography glossary maps photographs and weapons and data tables enhance the coverage Also includes 16 maps **The Western Allies and Soviet Potential in World War II** Martin Kahn, 2017-03-27 World War II was the largest and most devastating war in modern history with far reaching consequences The single most important campaign was the Soviet German war which consumed the lion share of Germany's military resources In contrast to the tone in German and Anglo American precampaign assessments the USSR was able to repulse the invasion after huge losses and turn the table on Germany and her minor Axis allies This book examines how the two most important Western Allies in World War II the United States and the United Kingdom assessed the economic and military potential of the Soviet Union in 1939 1945 Since the USSR was the single most important military contributor to the Allied victory in Europe and the main target of Germany's military strength these assessments are of paramount importance in order to understand how the Anglo Americans perceived the overall war situation and adjusted their own war effort in accordance with it Utilising a wide range of documents produced by the Anglo Americans during and

shortly before World War II this book explores why Soviet strength was underestimated and how the Soviet economic system Soviet society and military capabilities were viewed by Western Government observers The Western Allies and Soviet Potential in World War II is a fascinating read for those in academia studying economic history international economics and security studies especially areas on military and strategic *Of Arms and Men* Robert L. O'Connell, 1990-04-19 The appearance of the crossbow on the European battle field in A D 1100 as the weapon of choice for shooting down knights threatened the status quo of medieval chivalric fighting techniques By 1139 the Church had intervened outlawing the use of the crossbow among Christians With this edict arms control was born As Robert L O Connell reveals in this vividly written history of weapons in Western culture that first attempt at an arms control measure characterizes the complex and often paradoxical relationship between men and arms throughout the centuries In a sweeping narrative that ranges from prehistoric times to the nuclear age O Connell demonstrates how social and economic conditions determine the types of weapons and the tactics used in warfare and how in turn innovations in weapons technology often undercut social values He describes for instance how the invention of the gun required a redefinition of courage from aggressive ferocity to calmness under fire and how the machine gun in World War I so overthrew traditional notions of combat that Lord Kitchener exclaimed This isn't war The technology unleashed during the Great War radically altered our perceptions of ourselves as these new weapons made human qualities almost irrelevant in combat With the invention of the atomic bomb humanity itself became subservient to the weapons it had produced *Of Arms and Men* brilliantly integrates the evolution of politics weapons strategy and tactics into a coherent narrative one spiced with striking portraits of men in combat and penetrating insights into why men go to war *Motherland* David R. Marples, 2014-10-13 *Motherland* tells the dramatic story of the rise and fall of the Soviet Union From Lenin's virtual coup in November 1917 to Boris Yeltsin's ruthless takeover of power in 1991 the book culminates with a new view of the Yeltsin years David Marples focuses on the evolution of Russia during the Soviet period and the attempt to harness Russian nationalism to the avowed Soviet mission of promoting World Communism Along the way he analyses some of the more intensive historical debates and uncovers some of the myths perpetuated by state propaganda especially those associated with the Great Patriotic War ***All the Fine Young Eagles*** David L. Bashow, 2016-10-15 During the six years of the Second World War Canadian fighter pilots flew and fought with great distinction in every theatre of war to which Commonwealth fighter forces were deployed *All the Fine Young Eagles* captures the spirit and magnitude of the Canadian contribution which began in Europe's Low Countries in 1940 and ended among the Japanese Home Islands in 1945 In keeping with the country's developing autonomy Canadians served in both RAF and RCAF units fighting with great courage in their Spitfires Hurricanes Kittyhawks and Typhoons *All the Fine Young Eagles* collects the wartime diaries and postwar reminiscences from a great variety of the Canadian fighter pilots who served in World War II Their vivid first hand accounts take the reader into the cockpit to experience dogfights tactical manoeuvres forced landings and injuries as well as

the often tedious periods between engagements They also illuminate the day to day living conditions on base and include humorous accounts of the vivid personalities and lighter moments of wartime To provide context for their stories Bashow s authoritative voice offers both a large scale historical framework and detailed information about tactics equipment and people including such famous flying aces as Buzz Beurling and Moose Fumerton This updated second edition contains a substantial amount of new material that veterans have contributed since the publication of the first edition

Plans for Stalin's War-Machine L. Samuelson,2016-01-13 In the interwar period Red Army commanders headed by Tukhachevskii developed a new doctrine of mobile warfare and deep operations The military requirements of armaments and industrial production in the event of war was a central parameter in Stalinist industrialization Based on recently opened Russian archives the book analyzes military dimensions of Soviet long term economic and military reconstruction plans from the mid 1920s until 1941 It presents a new framework for estimating the Soviet war economic preparations drastically underestimated by contemporaries

Red Army into the Reich Simon Forty,Patrick Hook,Nik Cornish,2021-11-30 An illustrated history of how the Red Army pushed west and into Berlin in 1945 during World War II The last year of the war saw Russian offensives that cleared the Germans out of their final strongholds in Finland and the Baltic states before advancing into Finnmark in Norway and the east European states that bordered Germany Poland Czechoslovakia and Hungary By spring 1945 the Red Army had reached to Vienna and the Balkans and had thrust deep into Germany where they met American French and British troops advancing from the west The final days of the Third Reich were at hand Berlin was first surrounded then attacked and taken Hitler s suicide and his successors unconditional surrender ended the war For writers and historians who concentrate on the Western Allies and the battles in France and the Low Countries the Eastern Front comes as a shock The sheer size of both the territories and the forces involved the savagery of both weather and the fighting the appalling suffering of the civilian populations of all countries and the wreckage of towns and cities it s no wonder that words like Armageddon are used to describe the annihilation Red Army into the Reich combines a narrative history contemporary photographs and maps with images of memorials battlefield survivors and then now views It may come as a surprise to the western reader to see how many memorials there are to Russia s Great Patriotic War and those to the losses suffered by the countries who spent so long under the murderous Nazi regime Praise for Red Army into the Reich If you have any interest in understanding the final cataclysm that overtook the Third Reich and delineated the hows and whys of the Cold War and Eastern Europe after the collapse of the Soviet Union Red Army into the Reich will give you a glimpse into a generally underreported past a small slice of heaven for the East Front fan ARMOR Magazine Carries the reader into the Eastern Front with clear writing good maps and lavish illustration Many of the photographs are accompanied by images of how the scene they depict appears today WWII History Magazine A better illustrated recent volume would be hard to find especially one that covers the breadth of Red Army combat operations in the third period of the war Journal of Slavic Military

Studies **A History Of Russia Volume 2** Walter G. Moss,2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world The Soviet Army, 1939-1980 Myron J. Smith,1982 *Library of Congress Subject Headings* Library of Congress. Subject Cataloging Division,1980 **Library of Congress Subject Headings** Library of Congress,2003 **The Rise and Fall of the Soviet Navy in the Baltic 1921-1941** Gunnar Åselius,2005-01-10 This book based on extensive work in Russian archives investigates how strategy organisational rivalry and cultural factors came to shape naval developments in the Soviet Union up to the invasion of 1941

War on Land Britannica Educational Publishing,2011-11-01 Long before they took to the sea and air warring factions engaged in land based conflicts that involved close range combat with rudimentary defenses and weapons As civilizations have advanced so too have their military strategies tactics and weaponry Eventually this led to the development of sophisticated land fortifications arms artillery and missile systems in use today by ground troops This insightful volume examines the evolution of warfare on land around the world as well as the impact of new technologies on the nature of war

Russian-Turkish Relations from the First World War to the Present Vefa Kurban,2017-01-06 This book addresses the treaties crises and other issues that seem to be turning points in Russian Turkish relations reflecting on Russian and Turkish archival documents and resources Over six chapters it analyses Russian Turkish relations from the First World War up to the present time presenting information on issues that include the causes of the First World War and Turkey s entrance into the War internal power struggles establishment of I V Stalin s rule Turkey Soviet relations from 1960 to 1980 and also Glasnost and Perestroika and Vladimir Vladimirovich Putin s rise to power **The Routledge Handbook of Soviet and Russian Military Studies** Alexander Hill,2025-02-24 This handbook brings together historical and contemporary essays about Soviet and Russian military studies to offer a comprehensive volume on the topic Comprising essays written by acknowledged specialists the handbook examines the development of the Russian and Soviet armed forces from the Napoleonic Wars all the way through to the course and conduct of the Special Military Operation in Ukraine Divided into thematic and chronological sections the volume looks at wars fought by the Tsarist regime through to the First World War the Soviet Union s Great Patriotic War from 1941 to 1945 the Cold War including the Soviet war in Afghanistan and Russia s post Soviet wars and military development In addition the volume also includes a section that analyses a number of overarching themes including the development of Russian and Soviet airpower partisan warfare counterinsurgency and the role of women in Russian and Soviet armed forces The volume concludes with an essay looking at whether using the historical material and material on the conduct of the war in Ukraine we can reasonably talk of a Russian way of war This

volume will be of considerable interest to students of the Soviet Union and Russia strategic studies and military history
