Russian National Security And Foreign Policy In Transition:

Russian National Security and Foreign Policy in Transition Eugene B. Rumer, 1995 This study is an examination and assessment of critical trends in the evolution of Russian thinking on foreign and national security policy in recent years. The consensus of the Gorbachev and Yeltsin eras that promised rapprochement with the West has been replaced by a new consensus that is pushing Russia toward a more aloof position vis a vis the Western alliance as leaders grapple with problems along Russia's immediate periphery and seek to rebuild Russia's sphere of influence. A key issue is the contradiction between U.S. recognition of the newly independent states around Russia's periphery and Russia's special role of oversight throughout the former Soviet Union and pursuit of national interests that might impinge on its neighbor's sovereignty. U.S. policymakers face the task of balancing the newly independent states' right to sovereignty against the need to restore order in a given region and the desire to sustain continuity in U.S.-Russian relations. Although there are no easy solutions, the Western community can play a constructive role while remaining on the periphery.

The Treaty on Conventional Armed Forces in Europe Mark Wilcox, 2024-03-04 This work examines the CFE Treaty as a factor in Russia's foreign and security policy. Moscow showed amazing persistence in their relationship with the cornerstone of European security. Their approach to the treaty was a genuine attempt to shape the security environment in Europe and the former USSR. The treaty also enabled the dismantling of large conventional forces as they returned from Eastern Europe and transitioned into the armies of the newly independent states of the former USSR. The CFE Treaty though proved ineffective at constraining the enlargement of NATO. Simultaneously, Moscow's foreign and security policy evolved from one that focused on the domestic development of the country to that of a more confident state reasserting itself as a great power. Drawing extensively on primary sources and analyses by Russian authors, this book employs two historical narratives, case studies, and a conceptual framework to show that while Moscow remained engaged with the CFE Treaty, undesired effects on Russia's national interests gradually accrued at the expense of desired ones, leading Vladimir Putin to withdraw Russia from the treaty as an act of decoupling from the collective West. This book is relevant to scholars and policymakers who want to understand Russia's approach to arms control as an element of military security.

Russian Exceptionalism between East and West Kevork Oskanian, 2021-06-22 This monograph provides a novel long-term approach to the role of Russia's imperial legacies in its interactions with the former Soviet space. It develops Hybrid Exceptionalism as a critical conceptual tool aimed at uncovering the great power's self-positioning between East and West and its hierarchical claims over subalterns situated in

both civilizational imaginaries It explores how in the Tsarist Soviet and contemporary eras distinct civilizational spaces were created and maintained through narratives and practices emanating from Russia's ambiguous relationship with Western modernity and its part identification with a subordinated Orient The Romanov Empire's struggles with Russianness the USSR's Marxism Leninism and contemporary Russia's combination of feigned liberal and civilizational discourses are explored as the basis of a series of successive civilising missions through an interdisciplinary engagement with official discourses scholarship and the arts The book concludes with an exploration of contemporary policy implications for the West and the former Soviet states themselves

Russian Foreign Policy Debates and the Conflicts in Georgia (1991-2008) Cécile Druey, 2024-04-15 Russian Foreign Policy Debates and the Conflicts in Georgia 1991 2008 Between Multilateralism and Unilateralism discusses the conflicts and crises in the former Soviet space from a historical perspective and reconstructs the often contradictory approaches of public actors in Russia on how to deal with them Notably it inquires whether the actions suggested follow a multilateral approach one based on pluralist decisions and international law or on the opposite a unilateral one concentrating exclusively on Russia's own national interests to the detriment of commonly agreed on international rules The case of Georgia from the disintegration of the Soviet Union in 1991 to the Five Day War in August 2008 serves as an example illustrating Russian approaches to conflict management Richly illustrated with empirical data the three parts of this book show how foreign and security policy debates in Moscow and their outcomes on the ground evolved from a chaotic policy of ad hoc interventions in the 1990s to a coherent geopolitically informed strategy of coercion and persuasion in the 2000s About a decade and a half before the large scale invasion of Ukraine Moscow had already shown its willingness to go quite far in defending its interests in the former Soviet space
