Christoph Neidhart

Russias Economy Of Favours Blat Networking And Informal Exchange:

Russia's Economy of Favours Alena V. Ledeneva, 1998-08-06 The word blat refers to the system of informal contacts and personal networks which was used to obtain goods and services under the rationing which characterised Soviet Russia Alena Ledeneva's book is the first to analyse blat in all its historical socio economic and cultural aspects and to explore its implications for post Soviet society In a socialist distribution system which resulted in constant shortages blat developed into an economy of favours which shadowed an overcontrolling centre and represented the reaction of ordinary people to the social constraints they faced In social and economic terms blat exchanges became vital to the population and to the functioning of the Soviet system The book shows that the nature of the economic and political changes in contemporary Russia cannot be properly understood without attention to the powerful legacy of the blat economy *Economies of Favour After Socialism* David Henig, Nicolette Makovicky, 2017 A volume on the economics of favours and how they function as socially efficacious actions in post socialist regions including central eastern and south eastern Europe the former Soviet Union Mongolia and post Maoist China Yves Montand in the USSR Mila Oiva, Hannu Salmi, Bruce Johnson, 2021-04-29 This volume is the first book length account of Yves Montand's controversial tour of the Soviet Union at the turn of the years 1956-57 It traces the mixed messages of this internationally visible act of cultural diplomacy in the middle of the turbulent Cold War It also provides an account of the celebrated French singer actor's controversial career his dedication to music and to peace activism as well as his widespread fandom in the USSR The book describes the political background for the events of the year 1956 including the changing Soviet atmosphere after Stalin's death portrays the rising transnational stardom of Montand in the 1940s and 1950s and explores the controversies aroused by his plan to visit Moscow after the Hungarian Uprising The book pays particular attention to Montand's reception in the USSR and his concert performances drawing on unique archival material and oral history interviews and analyses the documentary *Yves Montand Sings 1957* released immediately after his visit **Bourgeoisie, State and Democracy** Graeme Gill, 2008-05-15 One of the key questions in social science is the role of the bourgeoisie in creating a democracy An important issue in contemporary international politics is the trajectory of the current Russian political system This book brings these questions together by exploring the role played by the bourgeoisie in shaping political outcomes in five countries contemporary Russia and industrial revolution Britain France Germany and the USA Its main focus is the way the different new business classes have been integrated into the political system and the implications this had for the political trajectories of the respective countries The contemporary Russian experience is thrown into relief by comparison with the national experiences of the other four countries enabling conclusions to be drawn about both the general question of the historic role of this class in democratisation and the more specific question of its role in Russia today **Being Muslim in Central Asia**, 2018-01-03 This volume explores the changing place of Islam in contemporary Central Asia understanding religion as a societal shaper a roadmap for navigating

quickly evolving social and cultural values Islam can take on multiple colors and identities from a purely transcendental faith in God to a cauldron of ideological ferment for political ideology via diverse culture community and history based phenomena The volumes discusses what it means to be a Muslim in today s Central Asia by looking at both historical and sociological features investigates the relationship between Islam politics and the state the changing role of Islam in terms of societal values and the issue of female attire as a public debate Contributors include Aur lie Biard Tim Epkenhans Nurgul Esenamanova Azamat Junisbai Barbara Junisbai Marlene Laruelle Marintha Miles Emil Nasritdinov Shahnoza Nozimova Yaacov Ro i Wendell Schwab Manja Stephan Emmrich Rano Turaeva Alon Wainer Alexander Wolters Galina M Yemelianova Baurzhan Zhussupov

Gibson Burrell, 2022-04-21 This shortform book presents an overview of theoretical and empirical work in the field of organization theory In doing so it both provides a critical analysis of the state of knowledge in the field and offers recommendations for future directions It is about both thinking differently and considering what is already known within Organization Theory With coverage of the foundations of organisation studies the importance of bureaucracy and insights into institutional approaches the book also makes space to consider the key role of alternatives in the development of the field A panoply of modes of organizing the modern economy and civil society have arisen wherein it is often said that the platform has replaced the pyramid Yet in 2022 the pandemic underscores the state's responsibility to maintain public health through centralized and coherent organization rather than outsourcing subcontracting and the gig economy The book offers a new direction for research focusing upon organizational camouflage where the unmasking of the large hierarchical corporation's enduring role in governing our everyday lives would become Organization Theory's revelatory task Organization Theory A Research Overview will be of value to researchers scholars and students in the fields of business and management especially those interested in the intersection of politics and organizations

Russia's Carnival Christoph Neidhart, 2003 This colorfully drawn and acutely observed book explores Russia by engaging all our senses Today's Russia smells different from the Soviet Union The country looks and sounds different its touch is different and its food tastes different Thus Christoph Neidhart argues Russia is truly a changed country from the Soviet Union it was little more than a decade ago Russian society is rapidly urbanizing and modernizing as can be perceived by all senses including the awareness of space and the conception of time After almost a century space can be privately owned and freely traded time too has become commodified New role models and new ways to express social status are emerging Russia has become a monetized economy as the old Soviet practice of provision by networking has grown obsolete Russia thus readies itself gradually to grow into a Western style middle class society with a free market and democratic polity The author assesses these rapid changes using the evocative metaphor of the carnival to understand the chaotic inversion of the Communist structure of society He explores the transition's traps and shortcomings such as the privatization of politics and the looting of the state's assets and compares this process to the modernization Western society underwent a century earlier
