Sacraments And The Salvation Army Pneumatological Foundations:

Sacraments and the Salvation Army R. David Rightmire, 1990 The emergence of the Salvation Army within the context of Victorian England was theologically a part of the late nineteenth century holiness revival This book examines the historical and theological influences on William Booth's decision to abandon sacramental practice 1883 and investigates the relationship between the Salvation Army's pneumatology and its non sacramental theology By placing the theology of the early Salvation Army in the context of Victorian society the Wesleyan revival and the nineteenth century holiness movement the author interprets Booth's non sacramental position as the subordination of ecclesiological and sacramental concerns to pneumatological priorities

Pneumatological Foundations for Salvation Army Non-sacramental Theology Robert David Rightmire, 1989

Pneumatological Foundations for Salvation Army Non-sacramental Theology Robert David Rightmire, 1987

Historical Dictionary of The Salvation Army John G. Merritt, Allen Satterlee, 2017-10-06 The Salvation Army is an integral part of the Christian Church although distinctive in government and practice The Army's doctrine follows the mainstream of Christian belief and its articles of faith emphasize God's saving purposes Its objects are the advancement of the Christian religion of education the relief of poverty and other charitable objects beneficial to society or the community of mankind as a whole The Salvation Army was founded in London in 1865 by William Booth its first General and has continued growing ever since In 2015 it celebrated its 150th anniversary and today it has a presence in 127 countries This second edition of Historical Dictionary of The Salvation Army contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on its leaders personalities events facts movements and beliefs of The Salvation Army This book is an excellent resource for students researchers and anyone wanting to know more about The Salvation Army

Leadership in The Salvation Army Harold Hill, 2006-10-01 Leadership in The Salvation Army is a review and analysis of Salvation Army history focused on the process of clericalisation The Army provides a case study of the way in which renewal movements in the church institutionalise Their leadership roles initially merely functional and based on the principle of the priesthood of all believers begin to assume greater status the adoption of the term ordination for the commissioning of The Salvation Army's officers in 1978 a hundred years after its founding illustrates this tendency The Salvation Army's ecclesiology has been essentially pragmatic and has developed in comparative isolation from the wider church perhaps with a greater role being played by sociological processes than by theological reflection in its development The Army continues to exhibit a tension between its theology which supports equality of status and its military structure which works against equality and both schools of thought flourish within its ranks

Catherine Booth John Read, 2014-01-30 Catherine Booth's achievements as a revivalist social reformer champion of women's rights and with her husband William Booth co founder of the Salvation Army were widely recognized in her lifetime However Catherine Booth's life and work has since been largely neglected This neglect has extended to her theological ideas even though they

were critical to the formation of Salvationism the spirituality of the movement she cofounded This book examines the implicit theology that undergirds Catherine Booth's Salvationist spirituality and reveals the ethical concerns at the heart of her soteriology and the integral relationship between the social and evangelical aspects of Christian mission in her thought Catherine Booth emerges as a significant figure from the Victorian era a British theologian and church leader with a rare if not unique intellectual and theological perspective that of a woman

Recovering the Evangelical Sacrament Anthony R. Cross, 2012-12-06 The subject of baptism continues to be of considerable interest though it frequently appears within broader studies of sacraments liturgy worship and ecumenical studies and within confessional bounds credobaptist or paedobaptist yet it is rarely discussed by Evangelicals This book however is neither an apologetic for credobaptism nor paedobaptism rather Cross believes that as practiced today both forms are a departure from New Testament baptism which he maintains was an integral part of becoming a Christian and part of the proclaimed gospel He argues that the one baptism of Ephesians 4:5 is conversion baptism and that the baptism referred to in the various New Testament strata refers to this one baptism of Spirit and water The study sets out the case for this interpretation and contends that in key passages baptism is an example of synecdoche The case is then made for a sacramental interpretation of baptism from a thoroughgoing Evangelical perspective Cross concludes with reflections on the necessity of baptismal reform and the relevance of a return to conversion baptism for the contemporary church in a post-Christian post-Christendom mission setting

Lutheran Salvationists? Gudrun Maria Lydholm, 2017-03-13 The idea of a state religion is seldom connected to religious freedom and liberal modern and democratic states However such a situation existed in Norway until 2012 when the Lutheran Church was the state church of Norway A large majority of the population belonged to the church even though the percentage in 2013 had fallen to well over seventy-five The relationship between the church and minority religious movements demanded adaptation and compromises from the minority churches The Salvation Army's enculturation and accommodation during its 128-year history in Norway illustrates such a situation The book examines how The Salvation Army accommodated itself both doctrinally as well as practically to the situation of a dominant state church The study reveals such a close affiliation of Salvationists to the Norwegian Church as a state institution that it raises the question of whether a concept of civil religion was implicitly present in Salvationists' view of the state church and their own adherence to the church This situation also raises the question of what constitutes a real church The book indicates the tension between Lutheran and Salvationist ecclesiology as well as the influence from the Lutheran Church

Christian Internationalism and German Belonging Rebecca Carter-Chand, 2025-10-21 Ever since the Salvation Army a British Protestant social welfare organization arrived in Germany in 1886 it has navigated overlapping national and international identities After existing on the margins of the German religious landscape while solidifying its role as a social service provider the Salvation Army proactively shaped its public profile during the Nazi rise to power Accepted into the Nazi Volksgemeinschaft ethnonational community and made an

auxiliary member of the National Socialist People's Welfare NSV the organization continued limited operations throughout the Nazi period before returning to its international affiliations in the immediate postwar period thereby bypassing denazification and rehabilitating its reputation In this groundbreaking reevaluation Rebecca Carter Chand argues that the Salvation Army was able to emphasize different aspects of its identity to bolster and repair its reputation as needed in varied political contexts highlighting the variability of Nazi practices of inclusion and exclusion In that way the organization was similar to other Christian groups in Germany Counter to common hypotheses that minority religious groups are more likely to show empathy to other minorities dynamics within Nazi Germany reveal that many religious minorities sought acceptance from the state in an effort to secure self preservation *The Essential Handbook of Denominations and Ministries* George Thomas Kurian, Sarah Claudine Day, 2017-03-14 Though the church universal is an ancient institution the contemporary ministry landscape is always changing That's why a new resource with useful information about Christian organizations is needed *The Essential Handbook of Denominations and Ministries* is an easy to use guide to more than 200 of the largest denominations and 300 ministries in the United States The entries for organizations include a brief history and summary a contemporary profile and discussion on doctrinal emphases creeds membership and interdenominational and ecumenical alliances Pastors ministry leaders community leaders and students will find this resource a helpful guide as they seek to understand Christian denominations and ministries
