Sacred Writings, 1987 *Sacred Writings Volume 6: Buddhism* Jaroslav Pelikan (eds), 1987 **The Sacred Books of China Pt. 1 (SBE Vol. 3)** F. Max Muller, 2008-01-01 **Believers All - a Book of Six World Religions** David Simmonds, 2014-11 NO description available [An Abecedarian of Sacred Trees](#) Mark G. Boyer, 2016-12-09 Every person has seen a tree and maybe planted or climbed one In all world religions various trees are considered sacred Trees have the ability to help us reach wholeness if we learn their wisdom and integrate it into our lives This abecedarian a book whose contents are in alphabetical order explores the spiritual growth that is possible by reflecting on the wisdom of woody plants which help humans experience the divine In these pages you can explore trees from Acacia to Zaqum For each of the forty entries the author presents a text identifying the tree a reflective study a question for journaling or personal meditation and a concluding prayer Some trees you may have heard about and some may be new to you The spiritual life is enhanced by the trees that surround and share the earth with us while also disclosing the divine to us [The Crucible of Religion](#) Wojciech Maria Zalewski, 2012-02-13 Religion is commonly viewed through the lens of the world s religious traditions stressing the differences and often the conflicts among them The author of this book instead presents religion as a common and universal human phenomenon based deeply in a human nature shared by all In this view the underlining and unifying principle of religion is a particular affirmative attitude toward life which he presents as the Ultimate Value and as such the key cultural constituent and defining factor of all religion This Ultimate Value finds its expressions in various civilizations and results in a variety of forms these are what we know as the world s religious traditions By analyzing the roles of both culture and civilization in their attitudes toward life the author places religion beyond religious traditions and shows how the latter regardless of whether they are theistic or atheistic draw their principles from the former mainly by promoting the Golden Rule in its applications *Sacred Traces* Janice Leoshko, 2017-07-05 In his novel Kim in which a Tibetan pilgrim seeks to visit important Buddhist sites in India Rudyard Kipling reveals the nineteenth century fascination with the discovery of the importance of Buddhism in India s past Janice Leoshko a scholar of South Asian Buddhist art uses Kipling s account and those of other western writers to offer new insight into the priorities underlying nineteenth century studies of Buddhist art in India In the absence of written records the first explorations of Buddhist sites were often guided by accounts of Chinese pilgrims They had journeyed to India more than a thousand years earlier in search of sacred traces of the Buddha the places where he lived obtained enlightenment taught and finally passed into nirvana The British explorers however had other interests besides the religion itself They were motivated by concerns tied to the growing British control of the subcontinent Building on earlier interventions Janice Leoshko examines this history of nineteenth century exploration in order to illuminate how early concerns shaped the way Buddhist art has been studied in the West and presented in its museums *Asiatica*, 1928 **Buddhism: The early Buddhist schools and doctrinal history ; Theravāda doctrine** Paul Williams, 2005 This
