Lords Of The Gene Pool:

Lords of the Gene Pool Kenneth Spencer, 2001-01-01 **Goats and tsars** Great Britain: Parliament: House of Commons: Public Administration Select Committee, 2010-03-11 This report from the Public Administration Select Committee PASC concludes that the practice of appointing ministers from outside Parliament via the House of Lords should be exceptional and subject to more checks and balances Introducing a wider range of experience into ministerial teams can sometimes make government more effective but government could also achieve this by making greater use of the range of talent on their own backbenches The Committee argues for more scrutiny of outside appointments when they are made The Prime Minister would be required to explain to the House of Commons why an appointment had been made under what terms and what was expected of the minister during their time in government The prospective appointee could be required to attend a pre appointment select committee hearing PASC identifies a strong argument of principle that ministers in an unelected House of Lords should be accountable to all Members of the House of Commons People who have been appointed to the Lords to be ministers should not automatically receive a title and place in the legislature for life It may be preferable to have a limited number of ministers who are members of neither House but accountable to both The Committee also examined the role of so called tsars There should be much more transparency about such appointments with greater clarity about their roles and responsibilities and a public statement of what they have achieved in their posts **A Journey** Tony Blair, 2010-09-02 In 1997 the biggest Labour victory in history swept England ending eighteen years of Conservative government Prime Minister Tony Blair young charismatic and complex shaped the nation profoundly in the ten years that followed From his work in Northern Ireland to the wars in Iraq and Afghanistan few of his decisions were free from scrutiny and debate Alternately beloved and reviled he was an international figure to a degree matched by few British leaders a role he continues in to this day through the Tony Blair Faith Foundation and his work in the Middle East Now for the first time we see the fascinating journey and difficult choices of the prime minister through his own eyes Grippingly candid and deeply intimate A Journey is a must read political memoir full of startling insights into a host of world leaders including George W Bush and Bill Clinton It is also a book that delves deeply and profoundly into what it means to be in a position of great power today and its emotional and personal toll Manipulating The Last Pure Godly DNA E.A. Women in the Judiciary Ulrike Schultz, Gisela Shaw, 2013-09-13 Does gender matter in judging And if so in what way Why were there so few women judges only two or three decades ago and why are there so many now in most countries of the Western world How do women judges experience their work in a previously male dominated environment What are their professional careers How do they organise and live their lives And finally and most notably do women judge differently from men or even better These are the questions dealt with in this collection of contributions by seven authors from six countries UK Australia USA Canada Syria and Argentina contrasting views from common law and civil law countries In spite of differences in the two legal systems as well as greater gender diversity on the bench and the overall higher income and prestige enjoyed by judges in common law countries women judges in all these countries Syria included share many problems Diverse and intriguing facets are added to a debate that started thirty years ago but continues to leave ample space for further discussion This book was originally published as a special issue of International Journal of the Legal Profession

How Westminster Works . . . and Why It Doesn't Ian Dunt, 2023-04-13 Why do some prime ministers manage to get things done while others miserably fail What is a special adviser and how did they take over British political life And why is the House of Lords more functional than most people think Most of us have a sense that our political system doesn't seem to work but struggle to articulate exactly why And for good reason our political and financial institutions are cloaked in secrecy archaic terminology ancient custom and impenetrable jargon Now expert political journalist Ian Dunt is lifting the lid on British politics to expose every aspect of the setup in a way that can be understood and challenged From Downing Street to Whitehall the Commons to the Lords this book is an indispensable guide to our political system and how we might begin to fix it
