embodied experiences of asymmetrical dependencies among humans and spirits and how experiences of inter dependence are negotiated in their interactions Suggesting that more than human entities significantly contribute to agency in social interactions and power negotiations the volume further highlights the ambivalent yet undeniable relationship between spirits and materiality During the processes of materialization and dematerialization in which spirit bodies transform and are transformed more than human entities may share substances and agency with humans Not only having material but also social dimensions these dynamics are influenced by relations of power and dependency Following posthumanist approaches this volume therefore challenges the anthropocentric views that continue to dominate scholarly analysis of power relations dependency and coercion

The Spirit of Vatican II Gerd-Rainer Horn, 2015-06-04 Vatican II profoundly changed the outlook and the message of the Catholic Church After decades if not centuries in which Catholic public opinion appeared to be primarily oriented towards the distant past and bygone societal models suddenly the Catholic Church embraced the world as it was and it joined in the struggle to create a radiant future The Sixties were a time of great socio cultural and political ferment in Europe as a whole Especially the second half of the 1960s and the first half of the 1970s witnessed an astounding range of new and old social movements reaching for the sky Catholic activists provided fuel to the fire in more ways than one Catholics had embarked on the quest for new horizons for some years prior to the sudden growth of secular activism in and around the magic year of 1968 When secular radicals joined up with Catholic activists a seemingly unstoppable dynamic was unleashed This book covers five crucial contributions by Catholic communities to the burgeoning atmosphere of those turbulent years a the theological innovations of Vatican II which made such an unprecedented engagement of Catholics possible in the first place but also post conciliar theological developments b the resurgence of the worker priest experiment and the first ever creation of autonomous organisations of radical parish priests c the simultaneous creation of grassroots organisations base communities by mostly lay activists across the continent d the crucial roles of Catholic students in the multiform student
