Losing Innocence:

Tragic Humanity and Hope Pius Ojara SJ, 2007-09-01 With insights into the thought of Gabriel Marcel Tragic Humanity and Hope recognizes that in our age scientific knowing is becoming a dominant form of knowledge The leadership influence growth and gravitational center of human existence depend it seems on scientific knowledge As a result we live in an information age that prizes production and immediate satisfaction but devalues the cultivation of wisdom We risk diminishing the significance of sapiential knowing to deal with the immensely complex and intricate domains of human relationality Furthermore inquiry into moral discernment methods expands becoming more diverse yet scholarly conversations that engage the vital exigencies as founding moral sensibility seem noticeably insufficient Tragic Humanity and Hope strives to overcome this lack But Ojara also seeks ethical groundings that exceed the language of pragmatic utility and aesthetic preference Foundations of morality cannot exclude questions of the common good and shared moral obligations that free people to reach out to one another with hopes and memories that endow life with shared meaning Through continuity and cohesion that the interlacing of scientific sapiential and moral knowing bring life becomes a marvelous expression of light joy and fervor

Critical Practice Martin McQuillan, 2019-02-21 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com What is the relationship between theory and practice in the creative arts today In Critical Practice Martin McQuillan offers a critical interrogation of the idea of practice led research He goes beyond the recent vocabulary of research management to consider the more interesting question of the emergence of a cultural space in which philosophy theory history and practice are becoming indistinguishable McQuillan considers the work of a number of writers and thinkers who cross the divide between theoretical and creative practice including Alain Badiou and Terry Eagleton and the longer tradition of theory writing that runs through the work of Hélène Cixous Roland Barthes and Louis Althusser His aim is to elucidate the contemporary ramifications of a relationship that has been contested throughout the long history of philosophy from Plato's dialogues to Derrida's Envois

Reflections on Ethics and Responsibility Zachary J. Goldberg, 2017-02-06 The original essays in this book address the influential writings of Peter A French on the nature of responsibility ethics and moral practices French's contributions to a wide spectrum of philosophical discussions have made him a dominant figure in the fields of normative ethics meta ethics applied ethics as well as legal and political philosophy Many of French's deepest insights come from identifying and exploring the scope and nature of moral responsibility and human agency as they appear in actual events real social and cultural practices as well as in literature and film This immediacy renders French's scholarship vital and accessible to a wide variety of audiences The authors recognized for their own contributions to the understanding of the nature of morality and moral practices offer new and unique positions

while exploring expanding and responding to those of French The final chapter is written by French in which he provides both new philosophical insight as well as some reflection on his own work and its influence This book will appeal to philosophers as well as advanced students and researchers in the humanities social sciences law and political science

Most Succinctly Bred Alex Vernon, 2006 An essayistic memoir on being a soldier Alex Vernon's Most Succinctly Bred explores war by exploring around war by operating in the margins Vernon records his ongoing relationship with war and soldiering from growing up in late Cold War 1980s middle America to attending West Point going to and returning from the first Gulf War and watching as a writer and academic the coming of the second Iraq war Unlike a mere essay collection this book has a trajectory and the chapters appearing in rough chronological order loop in and out of one another It is not a narrow autobiography that attempts to account only for the writer's life it uses that life to illuminate the lives of its readers to tell us all about the time and place in which we find ourselves War has seasoned this reluctant soldier it has wounded him as it wounds all soldiers But war has not stopped Alex Vernon's life A large part of what we read here is a fascinating story of recovery
