Losing Ground: American Social Policy, 1950-1980 , ***Losing Ground*** Charles A. Simms,2017-09-29 The problems and special needs of black women are still given inadequate attention in social science analysis Too often black women are subsumed under the category of blacks or women with little consideration for their unique needs This volume focuses on black women as a special group It includes chapters on employment educational attainment and job training programs which originated as papers given at a symposium on the economic status of black women co sponsored by the Congressional Black Caucus Foundation and The Review of Black Political Economy

activity Through a historical approach Eisner situates the study of American political economy within a larger evolutionary institutional framework that integrates perspectives in American political development and economic sociology This volume provides a rich understanding of the complexity of U S economic policy explaining how public policies become embedded in bureaucracy and reinforced by organized beneficiaries and public expectations This path dependent layering process helps students better understand the underlying historical dynamics which provide a clearer sense of the constraints faced by policymakers now and in the future Thorough coverage of the entitlement crisis globalization s impact on the U S political economy and the recent financial crisis in the final chapters demonstrate the importance of this historical institutionalist framework

The Origins of the Urban Crisis Thomas J. Sugrue, 2014-04-27 The reasons behind Detroit s persistent racialized poverty after World War II Once America s arsenal of democracy Detroit is now the symbol of the American urban crisis In this reappraisal of America s racial and economic inequalities Thomas Sugrue asks why Detroit and other industrial cities have become the sites of persistent racialized poverty He challenges the conventional wisdom that urban decline is the product of the social programs and racial fissures of the 1960s Weaving together the history of workplaces unions civil rights groups political organizations and real estate agencies Sugrue finds the roots of today s urban

poverty in a hidden history of racial violence discrimination and deindustrialization that reshaped the American urban landscape after World War II This Princeton Classics edition includes a new preface by Sugrue discussing the lasting impact of the postwar transformation on urban America and the chronic issues leading to Detroit's bankruptcy *Making Democracy Work Better* Richard A. Couto, 2003-07-11 The decade of the 1980s marked a triumph for market capitalism As politicians of all stripes sought to reinvent government in the image of private enterprise they looked to the voluntary sector for allies to assuage the human costs of reductions in public policies of social welfare This book details the savage side of market capitalism in Appalachia and explains the social political and economic roles that mediating structures play in mitigating it Profiling the work of twenty three such mediating structures community based organizations that battled to provide social safety nets fight environmental assaults and upgrade the education and job skills of Appalachian residents Richard Couto distills the practical lessons to be found in their successes and shortcomings Couto argues that a broader set of democratic dimensions be used in taking the measure of civil society and public policy in the twenty first century He shows that mediating structures promote the democratic prospect of reduced inequality and increased communal bonds when they provide and advocate for new forms and increased amounts of social capital the public goods and moral resources that we invest in one another as members of a community *An Analysis of Richard J. Herrnstein and Charles Murray's The Bell Curve* Christine Ma, Michael Schapira, 2017-07-05 Herrnstein Murray's *The Bell Curve* is a deeply controversial text that raises serious issues about the stakes involved in reasoning and interpretation The authors central contention is that intelligence is the primary factor determining social outcomes for individuals and that it is a better predictor of achievement than income background or socioeconomic status One of the major issues raised by the book was its discussion of racial differences in intelligence and its contention that there is a link between the low observed test scores and social outcomes for African Americans and their lack of social attainment While the authors produce and interpret a great deal of data to back up their contentions they ultimately fail to tackle the problem that neither intelligence nor race have widely accepted definitions in biology anthropology or sociology In consequence the book it has been termed both racist and pseudoscientific thanks to what its critics see as both its faulty reasoning and its uncautious interpretation of evidence The debate continues to this day with academics on both sides engaged in fierce arguments over what can be argued from the data that Herrnstein and Murray used ***A Companion to American Legal History*** Sally E. Hadden, Alfred L. Brophy, 2013-02-22 *A Companion to American Legal History* presents a compilation of the most recent writings from leading scholars on American legal history from the colonial era through the late twentieth century Presents up to date research describing the key debates in American legal history Reflects the current state of American legal history research and points readers in the direction of future research Represents an ideal companion for graduate and law students seeking an introduction to the field the key questions and future research ideas *Gender and Families* Scott Coltrane, Michele Adams, 2008-05-21 When we talk about family

values like whether children need two parents we are also talking about gender values because a yes answer to this question might imply that only women with husbands should have children In the same way when we talk about gender issues such as whether men should be paid higher wages than women we are also talking about family issues because a yes answer suggests that husbands should be the family breadwinner In this updated second edition of *Gender and Families* Coltrane and Adams continue to demystify the complexities and connections between gender and family in contemporary culture with discussions of race ethnicity and social class
