Lost Worlds Romance From Dawn Till Dusk:

The Lost Worlds Romance Allienne R. Becker, 1992-06-17 These romances reflect the developing natural and social sciences of the times in which they were written The themes of evolution teleportation human longevity euthanasia other dimensions reincarnation uses of radium utopian and dystopian societies among many others play a prominent part Darwin Marx and Freud have influenced the authors of these romances Becker demonstrates that at a time when the sexual mores of mainstream fiction were fairly repressed writers of the Lost Worlds Romance were permitted much liberty with the erotic imagination The treatment given to women in these romances is explored **Dark Vanishings** Patrick

Brantlinger, 2014-01-15 Patrick Brantlinger here examines the commonly held nineteenth century view that all primitive or savage races around the world were doomed sooner or later to extinction Warlike propensities and presumed cannibalism were regarded as simultaneously noble and suicidal accelerants of the downfall of other races after contact with white civilization Brantlinger finds at the heart of this belief the stereotype of the self exterminating savage or the view that savagery is a sufficient explanation for the ultimate disappearance of savages from the grand theater of world history Humanitarians according to Brantlinger saw the problem in the same terms of inevitability or doom as did scientists such as Charles Darwin and Thomas Henry Huxley as well as propagandists for empire such as Charles Wentworth Dilke and James Anthony Froude Brantlinger analyzes the Irish Famine in the context of ideas and theories about primitive races in North America Australia New Zealand and elsewhere He shows that by the end of the nineteenth century especially through the influence of the eugenics movement extinction discourse was ironically applied to the great white race in various apocalyptic formulations With the rise of fascism and Nazism and with the gradual renewal of aboriginal populations in some parts of the world by the 1930s the stereotypic idea of fatal impact began to unravel as did also various more general forms of race based thinking and of social Darwinism *Electric Sheep Slouching Towards Bethlehem* Harry Eiss, 2014-03-25

graphic novels to video games **Colonialism and the Emergence of Science Fiction** John Rieder, 2013-01-01 This groundbreaking study explores science fiction's complex relationship with colonialism and imperialism. In the first full-length study of the subject, John Rieder argues that the history and ideology of colonialism are crucial components of science fiction's displaced references to history and its engagement in ideological production. With original scholarship and theoretical sophistication, he offers new and innovative readings of both acknowledged classics and rediscovered gems. Rieder proposes that the basic texture of much science fiction, in particular its vacillation between fantasies of discovery and visions of disaster, is established by the profound ambivalence that pervades colonial accounts of the exotic other. Includes discussion of works by Edwin A. Abbott, Edward Bellamy, Edgar Rice Burroughs, John W. Campbell, George Tompkins, Chesney, Arthur Conan Doyle, H. Rider Haggard, Edmond Hamilton, W. H. Hudson, Richard Jefferies, Henry Kuttner, Alun Llewellyn, Jack London, A. Merritt, Catherine L. Moore, William Morris, Garrett P. Serviss, Mary Shelley, Olaf Stapledon, and H. G. Wells. *A Companion to the Victorian Novel* Patrick Brantlinger, William Thesing, 2008-04-15 The *Companion to the Victorian Novel* provides contextual and critical information about the entire range of British fiction published between 1837 and 1901. Provides contextual and critical information about the entire range of British fiction published during the Victorian period. Explains issues such as Victorian religions, class structure, and Darwinism to those who are unfamiliar with them. Comprises original, accessible chapters written by renowned and emerging scholars in the field of Victorian studies. Ideal for students and researchers seeking up-to-the-minute coverage of contexts and trends or as a starting point for a survey course. **Longing** Tamara S. Wagner, 2004 By revealing the origins of common misunderstandings about nostalgia, this book aims, moreover, to show that it creatively fosters a personal and imaginative memory. Jacket. **Spanish and Latin American Women's Crime Fiction in the New Millennium** Nancy Vosburg, 2017-11-06 Crime fiction written by women in Spain and Latin America since the late 1980s has been successful in shifting attention to crimes often overlooked by their male counterparts, such as rape and sexual battery, domestic violence, child pornography, pederasty, and incest. In the twenty-first century, social, economic, and political issues, including institutional corruption, class inequality, criminalized oppression of immigrant women, crass capitalist market forces, and mediatized political and religious bodies, have at their core a gendered dimension. The conventions of the original noir or *novela negra* genre have evolved such that some women authors challenge the noir formulas by foregrounding gender concerns, while others imagine new models of crime fiction that depart drastically from the old paradigms. This volume, highlighting such evolution in the crime fiction genre, will be of interest to students, teachers, and scholars of crime fiction in Latin America and Spain, to those interested in crime fiction by women, and to readers familiar with the subgenres of crime fiction, which include noir, the thriller, the police procedural, and the cozy novel. **The Divine and Human Comedy of Andrew M. Greeley** Allienne R. Becker, 2000-08-30 The volume approaches Greeley's novels by comparing him to the 19th-century French writer Honoré de Balzac. A prolific and popular author, Balzac recorded his milieu in

tremendous detail created a fictional universe peopled by hundreds of characters and explored the role of Catholicism in his world. Because of his training as a sociologist, Greeley brings to his novels a thorough knowledge of popular culture and social theory. And because of his experience as a Roman Catholic priest, he has gained special knowledge of vice, virtue, and the workings of the Church. Like Balzac, now a major canonical author, Greeley has created a world of numerous fictional persons, mapped the details of his culture, and explored the place of Catholicism in contemporary life. Reinterpreting Exploration Dane Keith Kennedy, 2014. Exploration was a central and perhaps defining aspect of the West's encounters with other peoples and lands. Rather than reproduce celebratory narratives of individual heroism and national glory, this volume focuses on exploration's instrumental role in shaping a European sense of exceptionalism and its iconic importance in defining the terms of cultural engagement with other peoples. In chapters offering a broad geographic range, the contributors address many of the key themes of recent research on exploration, including exploration's contribution to European imperial expansion, Western scientific knowledge, Enlightenment ideas and practices, and metropolitan print culture. They reassess indigenous peoples' responses upon first contacts with European explorers, their involvement as intermediaries in the operations of expeditions, and the complications that their prior knowledge posed for European claims of discovery. Underscoring that exploration must be seen as a process of mediation between representation and reality, this book provides a fresh and accessible introduction to the ongoing reinterpretation of exploration's role in the making of the modern world. **Hollywood and Africa** Opio Dokotum, 2020-02-05. Hollywood and Africa: recycling the Dark Continent myth from 1908. 2020 is a study of over a century of stereotypical Hollywood film productions about Africa. It argues that the myth of the Dark Continent continues to influence Western cultural productions about Africa as a cognitive-based system of knowledge, especially in history, literature, and film. Hollywood and Africa identifies the colonial mastertext of the Dark Continent mythos by providing a historiographic genealogy and context for the terms' development and consolidation. An array of literary and paraliterary film adaptation theories are employed to analyse the deep genetic strands of Hollywood-Africa film adaptations. The mutations of the Dark Continent mythos across time and space are then tracked through the classical, neoclassical, and new wave Hollywood-Africa phases in order to illustrate how Hollywood productions about Africa recycle, revise, reframe, reinforce, transpose, interrogate, and even critique these tropes of Darkest Africa while sustaining the colonial mastertext and rising cyberactivism against Hollywood's whitewashing of African history. *Anticipations* David Seed, 1995-05-01. The essays in this book focus particularly on how early SF engages with such contemporary issues as exploration, the development of science, and social planning. Although written by academics, this book is cast in an accessible style, avoiding the use of theoretical jargon. *U.S. Democracy in Danger* Adebowale Akande, 2023-10-19. Historically, Donald Trump will be remembered as the first American president to be impeached twice and indicted. He fed the grotesque myth that the election was stolen and summoned his supporters to storm Congress on 6 January 2021 in a bid to thwart the certification of Joe Biden's U.S. presidential election.

Subterranean Worlds Peter Fitting,2004-12-15 Exploring the hollow earth from the 17th century to the present The bizarre idea that the earth s interior is hollow and perhaps even populated has been put to effective literary use by writers ranging from Edgar Allen Poe and Jules Verne to Rudy Rucker and Edgar Rice Burroughs This notion had respectability as a scientific hypothesis until the early 1800s and the theory that the earth is hollow and inhabitable within continues to find believers as an alternative description of the earth to this day The hollow earth is one of the most important settings in the literature of the imagination that fed into early science fiction Subterranean Worlds presents a fascinating look at the theme of the hollow earth and its history as well as the geological theories which produced many of these stories It excerpts key passages from the major subterranean world fictions some translated into English for the first time With helpful introductions to each selection and a comprehensive bibliography this book is the definitive treatment of this entertaining topic
