Majesty Of The Law By James D Van Trump:

Ordering Law Clare Graham, 2017-05-15 Over the last thirty years historical studies of building types have become something of a growth area As well as such general surveys as Nikolaus Pevsner's History of Building Types there are growing numbers of studies of individual types of which the most distinguished perhaps remain Mark Girouard's Life in the English Country House and Robin Evan's study of prisons The Fabrication of Virtue This growth is not surprising because the subject lends itself to the New Art History and to our increasing desire to set buildings within their social and cultural contexts as well as their stylistic and cultural ones This book by Dr Graham is a comprehensive study of a type of building the law court which has to date remained largely unexplored Ordering Law establishes when why and how the trial came to be housed in purpose built accommodation in England and what was architecturally distinctive about that accommodation in the period leading up to 1914 The main text concentrates on examining in depth a series of well documented individual buildings and groups of buildings using a wide range of contemporary sources to illuminate the way in which they were designed and used Other information gleaned about court buildings nationwide is placed in an appendix in gazetteer form originally drawn from the 200 or so examples listed in the Buildings of England guides this has expanded to include over 800 entries As a piece of scholarly research this work draws on several disciplines and will be of interest to those studying social and legal history as well as those with a broader interest in architectural history

The American Skyscraper, 1850-1940 Joseph J. Korom, 2008 The skyscraper is an American invention that has captured the public's imagination for over a century The tall building is wholly manmade and borne in the minds of those with both slide rules and computers This is the story of the skyscraper's rise and the recognition of those individuals who contributed to its development This volume is unique its approach information and images are fresh and telling The text examines America's first tall buildings the result of twelve years of in depth research by an accomplished and published architect and architectural historian Over 300 compelling photographs charts and notes make this the ultimate tool of reference for this subject Biographies woven throughout with period norms politics and lifestyles help to place featured skyscrapers in context Quite simply there is no book like this The text carefully and insightfully written is clear concise and easily digestible the text being the product of well documented original research written in an informative tone The American Skyscraper 1850 1940 A Celebration of Height is a richly documented journey of a fascinating topic and it promises to be a superb addition to libraries schools of architecture students of architecture and lovers of art

Living Architecture James F. O'Gorman, 1997 Elegantly written and filled with lush full color photos this is the first in depth portrait of H H Richardson the greatest American architect of the 19th century and a man whose magnetic colorful personality was equal to his genius 150 photos 100 in full color Pennsylvania Heritage, 1989

Architecture After Richardson Margaret Henderson Floyd, 1994-09 Over the years their commissions included scores of city and country residences for the elite of both regions as well as major institutional and business buildings such as

those at Harvard and Radcliffe the Cambridge City Hall and Pittsburgh's Duquesne Club and Carnegie Institute **Beyond
the Surface** Walter C. Kidney, 2006 **Journal of the Society of Architectural Historians** Society of Architectural
Historians, 1989 Includes special issues Pittsburgh History, 1989 Avery Index to Architectural Periodicals. 2d Ed.,
Rev. and Enl Avery Library, 1990 A Court for the People Stanley M. Stein, David L. Meister, 1988
