conduct of its foreign policies at the various crossroads in that independent nation's journey towards the future. The combined sagacity and burning will of the American founding fathers triggered off a political big bang that not only caused a great upheaval in the geopolitical foundations of European monarchic powers but also made American thoughts and ideals so powerful a religion as to pervade the entire landmass of our planet for quite sometime to come. With the abrupt termination of the bipolar world order in the early 1990s, the scepter of the dark and the chaotic Middle Age loomed. Instead of deciding to rule the rest of the world by the power of sword that had characterized the Middle Age or instead of cornering the gains of modern scientific technological inventions through colonial ploys that had possessed several erstwhile European powers, ever dynamic United States rather set on a post modern neo liberal course. As a result, non imperial United States now faces a dilemma in shaping the rest of the world in its own image. This book is unique in that it goes to the heart of that riddle.
