Major Powers In Northeast Asia Seeking Peace And Security:

The Major Powers in Northeast Asia Tae-Hwan Kwak, Edward A. Olsen, 1996 **The Major Powers of Northeast Asia** Tae-Hwan Kwak, Edward A. Olsen, 1996 The remnants of Cold War politics stand in the way of Northeast Asia's adjustment to the post Cold War era This book examines the security policies of Japan China Russia the US and Australia in the Northeast Asia region with reference to attempts to reunify the two Koreas *The Major Powers in Northeast Asia* Tae-Hwan Kwak, Edward A. Olsen, 1996 *Peace Regime Building on the Korean Peninsula and Northeast Asian Security Cooperation* Seung-Ho Joo, 2016-05-13 A permanent peace regime on the Korean peninsula has yet to be achieved even though the Korean War came to a halt more than half a century ago Without a peace treaty formally ending the Korean War the two Korean states are technically still at war The current situation on the Korean peninsula is extremely tense and precarious and tensions and distrust between the two Koreas and between the US and North Korea escalated in the wake of North Korea's second underground nuclear weapons testing in 2009 The editors of this volume conceptually present a two track inter Korean and international approach to Korean peninsula peace regime building They argue that an inter Korean and international approach should be pursued simultaneously for the construction of a permanent peace regime on the Korean peninsula The contributing authors are established specialists and experts on Korean foreign relations and Northeast Asian international relations As natives of the US Korea China and Japan they provide objective scholarly and diverse perspectives on the Korean peace regime building **Russia as an Aspiring Great Power in East Asia** P. Rangsimaporn, 2009-08-27 Rangsimaporn argues that Russia aspires to become a great power and tries to achieve this through utilizing its position as a Eurasian country with vast territories in East Asia its economic assets primarily arms and energy and careful management of its role in a multipolar East Asia with a complex balance of power **North Korea's Second Nuclear Crisis and Northeast Asian Security** Tae-Hwan Kwak, 2016-05-23 North Korea's testing of a nuclear bomb sent out a shock wave throughout the world and totally changed the strategic equation in the Korean peninsula and Northeast Asia This testing has far reaching implications for Korean peace and unification Northeast Asian security and America's global war on terrorism This key volume provides an in depth analysis of the inter Korean and international dynamics of North Korea's nuclear crisis It offers new insights into the six party talks designed to resolve the crisis suggests creative formulas to resolve the ongoing crisis through peaceful diplomatic means and delves into the interests and policies of the major powers the US China Japan and Russia at the six party negotiating table The contributing authors are distinguished specialists and experts in the field and as such offer valuable expertise into the dynamics of this nuclear crisis for students and academics **Security Policy Dynamics** Byung-ok Kil, 2017-10-05 This title was first published in 2001 Byung-ok Kil's thorough analysis deals with both the broad area of public policy and the specific topic of national security policy change in Korea Using an historical comparative approach he tests the relative importance of international and domestic developments as determinants of

security policy change Drawing extensively on carefully selected sources of quantitative and qualitative data including original documents and interviews this engaging text is of theoretical methodological and applied policy relevance to the academic community and of substantive interest to a broader audience of governmental officials in national security and related policy areas The East Asian Peace M. Weissmann, 2012-06-12 Using a case study based approach Weissmann analyses the post Cold War East Asian security setting to demonstrate why there is a paradoxical inter state peace He points out processes that have been important for the creation of a continuing relative peace in East Asia as well as conflict prevention and peacebuilding mechanisms Mongolia and Northeast Asian Security Alicia J. Campi, Jagannath Panda, 2021-08-26 This book assesses Mongolia's position in the security calculus of Northeast Asia and presents the policy outlooks of major powers vis a vis the region including the United States Japan China Russia and India Ground breaking and modernistic in its approach the book treats the often marginalised and landlocked small power state of Mongolia as a critical regional actor particularly with regards to managing ties with encircling major powers Russia and China and assist in engaging the nuclear state of North Korea through dialogue mechanisms This compilation of chapters by distinguished scholars explores Mongolia in the Northeast Asian geographical space within the context of three major themes nuclear proliferation environmental security and socio economic and civilisational conflicts The book provides a multidisciplinary and multinational approach to Mongolia's role in the region's strategic landscape It moves the regional security discussion beyond major power politics North Korea's denuclearisation and the impasse on the Korean Peninsula to discuss and analyse other underappreciated challenges facing the region Considering Mongolia's role in achieving peace and stability in the neighbourhood the book will be a valuable resource for researchers and readers in International Relations Political Science and Asian Studies **Security, Arms Control and Defence Restructuring in East Asia** Bjørn Møller, 2019-01-22 First published in 1998 this volume examines East Asia especially Northeast Asia which has been a region of considerable political security of importance for several key reasons It features several great and medium powers China Japan and Russia as well as North and South Korea Even though no arms race is yet discernible among these states with the partial exception of the two Koreas it is conceivable that one might commence If it did the level of militarization could become quite alarming if only because of the tremendous and rapidly growing economic potential of the regional states Even though relations among regional states except the two Koreas are currently peaceful the region features several unresolved issues e.g. concerning territory and a historical legacy of enmity between several states To prevent such conflicts of interest from erupting into armed conflict is of the utmost importance A stabilizing factor is that the military potentials in the region are still predominantly defensively oriented i.e. most states lack the requisite power projection or invasion capabilities to inflict serious harm on each other However this might change in the not so distant future Hence the importance of confidence building measures of an institutionalization of regional relations and of a strengthening of commitments to defensive military
