

BEHAVIORAL CONSIDERATIONS THROUGHOUT TREATMENT: INDIVIDUAL

EVALUATION

- Behavioral factors:
 - Adherence to therapy
 - Tobacco, vaping, alcohol, cannabis, or other substance use disorders
 - Assess for access to firearms or other dangerous objects in the home
 - Sexual behavior/risks/concerns
 - Assessment of nutritional requirements and potential deficits based on age
 - Exercise needs, hobbies, and recreational activities
 - Sleep patterns
- Use of both integrative therapies and complementary and alternative medicine (CAM)
- Existential/spiritual issues

Relationships (AYAO-9)

Socioeconomic issues (AYAO-11)

SUPPORTIVE CARE SERVICES/INTERVENTIONS

- Adherence to therapy and safety plans
 - Educate about the expectations of treatment and explain the patient's responsibility to adhere to therapy.
 - Evaluate for any past history or potential barriers to adherence with medical treatment.
 - Provide education and/or guidance about all medications and their dose, purpose, and adverse effects prior to the start of treatment and every time there is a change in treatment.
 - Simplify and modify dosing schedule, when medically possible, to fit into AYA's lifestyle and normal activities.
 - Consider the use of technology (eg, smartphone applications)
 - Provide access to systematic and standardized symptom management for side effects related to cancer treatment (NCCN Guidelines for Supportive Care¹).
- Refer to smoking cessation program if needed (NCCN Guidelines for Smoking Cessation¹).
- Provide education about the impact of early cannabis use on cognitive development and mental health.
 - If AYA chooses to continue use, provide education on risks and benefits of varying methods of ingestion and dosing.
- Refer patients with signs, symptoms, or a history of a substance use disorder to a risk reduction or substance use counseling program.
- Provide education about the impact of treatment on sexual health, including safe sexual practices in light of risk of infection, risk for bleeding, prevention of pregnancy, and sexually transmitted diseases. See WHO recommendations in the Discussion.
- Provide education about potential diet/nutritional changes associated with cancer treatment and possible interventions. Refer to a registered dietitian-certified specialist in oncology (RD-CSO).
- Provide education on physical conditioning and related health benefits during and following cancer treatment. Refer to a rehabilitation specialist (ie, physiatrist, physical therapist, occupational therapist) to address physical impairments and initiate physical activity interventions. Medical evaluation and clearance by a physician (such as an oncologist or a physiatrist) are recommended prior to initiating exercise in patients in whom exercise modifications or precautions might be needed.
- Consider evidence-based integrative therapies/interventions.
- Refer patients experiencing challenges with their faith or belief in a just or fair world to faith-based resources or activities (eg, church youth groups, mentors). If necessary, refer to a chaplain or pastoral counselor.

Major Topics In Adolescent Oncology

Cameron K. Tebbi

Major Topics In Adolescent Oncology:

Major Topics in Adolescent Oncology Cameron K. Tebbi, 1987 Major Topics in Pediatric and Adolescent Oncology Cameron K. Tebbi, 1982 Cancer in Adolescents and Young Adults Archie Bleyer, Ronald Barr, Lynn Ries, Jeremy Whelan, Andrea Ferrari, 2016-11-17 This is the second edition of the only book to be devoted exclusively to the total cancer picture in adolescents and young adults AYA now expanded from the age range 15-29 to that of 15-39 years For each of the diverse spectrum of cancers encountered in the AYA group the epidemiology natural progression diagnostic approaches and treatment options are described with special emphasis on strategies for early detection and prevention Comparison is made with management of both younger and older patients and model programs are presented that address common diagnostic staging treatment and psychosocial shortcomings in the AYA group Detailed attention is also paid to principles and practices of care with consideration of psychosocial and quality of life issues social support systems rehabilitation late effects insurance and economic aspects of health care among other topics The authors make compelling arguments for integrated strategies that allow young adults to benefit from the combined expertise of pediatric and adult oncologists in systems that identify both the complex disease and the social issues specific to this population The proposed models of care include relationships with other specialties that do not specifically target this age group i.e. infectious disease endocrinology pulmonary medicine nephrology gastroenterology thoracic and abdominal surgery urology otolaryngology and neurosurgery New patterns of communication are advocated and endorsed as essential for productive interaction involving these specialties References are extensive and are oriented toward users in pediatric hematology oncology medical oncology radiation oncology surgical oncology gynecologic oncology oncology nursing psycho-oncology social work epidemiology public health and health services research The contributing authors are from the United States the United Kingdom Canada Italy France Israel Switzerland and Australia Germany Japan and the Netherlands p **Cancer in Adolescents and Young Adults** Archie W. Bleyer, Ronald Duncan Barr, 2007-09-23 This is the first comprehensive book devoted exclusively to cancer in adolescents and young adults It compiles medical epidemiological biological psychological and emotional issues of young adults oncology The emphasis is on the differences of the same cancer in younger and older patients Model programs specially designed to care for patients in the age group and surveillance of long term adverse effects are reviewed

Cancer Care for Adolescents and Young Adults Daniel Kelly, Faith Gibson, 2008-04-30 *Cancer in Adolescents and Young Adults* is a practical guide to cancer care in adolescents and young adults It considers the impact of diagnosis on individuals and their families as well as examining the impact on the health professionals responsible for their care There are sections focussing on the adolescent's experience of cancer and ongoing care needs during treatment and on life after cancer including rehabilitation and palliative care Builds on the forthcoming NICE guidelines on Supportive Cancer Care for Children Young People and recent Department of Health guidelines policy initiatives Adopts an integrated inter professional

approach Contains evidence based contributions from leading professionals in cancer care Cancer in Adolescents and Young Adults is an essential resource for all those involved with the provision of care and support for adolescents and young adults with cancer About the Editors Dr Daniel Kelly is Reader in Cancer Palliative Care Middlesex University London Dr Faith Gibson is Senior Lecturer in Children s Nursing Research Institute of Child Health Great Ormond Street Hospital and King s College London

Supportive Care in Cancer Therapy Donald J. Higby, 2012-12-06 Where do you begin to look for a recent authoritative article on the diagnosis or management of a particular malignancy The few general oncology textbooks are generally out of date Single papers in specialized journals are informative but seldom comprehensive these are more often preliminary reports on a very limited number of patients Certain general journals frequently publish good indepth reviews of cancer topics and published symposium lectures are often the best overviews available Unfortunately these reviews and supplements appear sporadically and the reader can never be sure when a topic of special interest will be covered Cancer Treatment and Research is a series of authoritative volumes which aim to meet this need It is an attempt to establish a critical mass of oncology literature covering virtually all oncology topics revised frequently to keep the coverage up to date easily available on a single library shelf or by a single personal subscription We have approached the problem in the following fashion First by dividing the oncology literature into specific subdivisions such as lung cancer genitourinary cancer pediatric oncology etc Second by asking eminent authorities in each of these areas to edit a volume on the specific topic on an annual or biannual basis Each topic and tumor type is covered in a volume appearing frequently and predictably discussing current diagnosis staging markers all forms of treatment modalities basic biology and more

Radiation Therapy in Pediatric Oncology J. Robert Cassady, 2012-12-06 The diagnosis of cancer in a child is a devastating finding not only to the parents but often to the child Even though the situation is relatively easy to accept among adults it is difficult to accept among children because of their general helpless state The advances that have been made in the management of a child with cancer in the last 20 years have been dramatic in character These have occurred not only by virtue of the contributions from early diagnosis and more precise staging but also from the contributions made by surgery radiation therapy and the more widespread utilization of chemotherapy regimens This volume by J Robert Cassady sets forth the position of radiation oncology in the management of the child with cancer Radiation therapy remains an important and significant part of the treatment of this group of diseases The book presents the basic knowledge with regards to pediatric oncology and how it relates to radiation therapy It gives a timely overview on the topic and is essential for all radiation oncologists involved in the management of children with cancer Hamburg Philadelphia June 1994 H P HEILMANN LUTHER

W BRADY Preface This book provides a thorough review of the role that radiation therapy currently plays in the management of most childhood tumors Extensively augmented with figures and tables where appropriate it also provides a concise review of current diagnostic and therapeutic approaches for major childhood malignancies Extensive and up to date reference lists are an added benefit
