Make Your Business Grow Take A Strategic Approach:

Cut Costs, Grow Stronger : A Strategic Approach to What to Cut and What to Keep Paul Leinwand, Cesare R.

Mainardi, 2009-07-15 For most companies cost cutting in a down economy means across the board slashing that spreads the pain of budget reductions across many departments While that may sound like the best approach for getting critical results fast and for limiting political infighting it is a mistake one that will leave your company weaker not just smaller Instead companies that need to reduce costs should treat the challenge as an opportunity to identify and reinforce their key capabilities while divesting from those activities that do not truly reflect the business's strengths or long term goals This more strategic approach will make your company more resilient as tough times continue and more robust as recovery begins In Cut Costs Grow Stronger an e book published as part of the Harvard Business Press Memo to the CEO series Booz Company's Shumeet Banerji Paul Leinwand and Cesare Mainardi provide executives with the tools they need to rapidly implement capabilities driven cost reduction First they demonstrate how to identify and clearly articulate your company's key capabilities not just core competencies or skill sets but those very few strengths that in combination define how your organization competes You can then use this information to create your company's unique blueprint for effective and efficient cost reduction The authors detailed step by step framework walks you through the process which can be completed in as little as two or three months it's something that you can do now This practical guide to capabilities driven cost cutting is the tool executives need to confront the challenge of today's economy while strengthening the foundation for what will set their company apart in the future
