What Do You Think about It? Warren O. Monroe,2012-03 A Collection of Daily Thoughts The word thought generally refers to any mental or intellectual activity involving an individual s subjective consciousness It can refer either to the act of thinking or the resulting ideas or arrangements of ideas Over the past few years I ve put my thoughts down on paper and shared them with family and friends Some said to me it s too long some said to me I ve heard that before and some said nothing as if my thoughts were delivered and had fallen into a black hole On the other hand there were those who cheered me on and encouraged me to keep distributing my thoughts and consider some day writing a book What Do You Think about It is a labor of love collection of my best thirty one weekly thoughts plus two bonus thoughts because I couldn t decide on just 31 for your daily preview In addition you can take an active part in my literary endeavor by writing down your thoughts at the end of each chapter One difference between humans and other animals is our ability to think process our thoughts and make life changing decisions on the results As you read and hopefully enjoy this book of daily thoughts do your best to retain the messages intended in each thought It s not really our efforts that define us it s our ability to open our minds and hearts to the depths of our true thoughts and honest feelings Paracelsus renaissance period physician chemist and surgeon wrote Thoughts are free and subject to no rule On them rest the freedom of a man and they tower above the light of nature create a new heaven a new firmament a new source of energy from which new art flows This book represents a small piece of my heaven my new firmament my new source of energy from which my new art will flow I hope you enjoy all my thoughts but I don t expect you will just sail away on a literary cruise navigated by everything I ve written So I ve provided space at the end of each chapter for your thoughts on each topic Hence the title What Do You Think about It Bon voyage

Alien Contact and Diplomacy: Get it Right or We Suffer Simon Drake,2014-05-12 Would aliens use

Facebook to communicate with us rather than trust our politicians Earth may be regarded as having an oddity a zoo or something of an amusement The universe is a wild place we re part of it but what is it To understand how Aliens sees us we first have to understand our own history of exploration contact and diplomacy like when the Old World powers with the New World tribes Earth history is littered with cruel jokes on unwitting peoples where the collision of East Meets West ends with a party screwed over or just wiped out of existence Why should Earth s destiny among other races of the universe be any different Fortunately we can all agree on the implications of mixing with advanced alien cultures yet technology shifts the means by which alien contact and diplomacy wants to integrate with our digital world The responsibility for contact has moved from military elites and those in the know to the contrary connected public Soon now or a day in the future we want to make real alien contact and our diplomacy either wants to have it subjugated and naively enslaved or equipped with knowledge and technology that enables us to explore the stars *The Historian's Toolbox* Robert C.
