Menahem of Israel's Weizmann Institute of Science *Seeking Truth* Elgin L. Hushbeck, Jr, 2022-04-26 We live in a world that is not governed by Truth Disagreements surround us Recent Presidential elections are hotly contested and won by the narrowest of margins Charges of misinformation fake news and bias abound Everyone claims they are correct they have the Truth Seeking Truth looks at both the philosophical and practical issues of Truth to understand how we come to know what we know and why we disagree so much More importantly it lays out how we can disagree in ways that avoid division and polarization and instead move to build a consensus on the Truth Seeking Truth addresses things like how to think about what you believe how to handle disagreement and errors positively how do you know if you are open minded and how to make better decisions Seeking Truth uses a lot of examples to make this case To avoid current disputes most are drawn from history as people in various times and settings sought to understand how nature works what happened in a particular event or what is the best way to proceed or govern ourselves Science history politics business all of these areas involve Truth in one way or another Seeking Truth will help you become a better thinker a more critical thinker and one who moves closer to the Truth
