Australia's China Lachlan Strahan, 1996 First published in 1996 Australia's China explores the multifaceted and dynamic Australian encounter with China from the beginning of the Sino Japanese War in 1937 through the Cold War to the Australian recognition of the PRC in 1972 Going beyond conventional policy studies it traces the patterns in Australian reactions to China from the grass roots to official circles highlighting the centrality of images concerning the exotic disease sexuality the frontier and China as a paradise anti paradise In responding to China Australians revealed something of themselves and this book maps the formation of Australian conceptions of identity in the context of a cross cultural encounter which was variously cooperative enriching baffling and antagonistic But there was no single Australian conception of China Rather competing perceptions jostled in a shifting dialogue

Transnationalism, Nationalism and Australian History Anna Clark, Anne Rees, Alecia Simmonds, 2017-07-04 Using Australian history as a case study this collection explores the ways national identities still resonate in historical scholarship and reexamines key moments in Australian history through a transnational lens raising important questions about the unique context of Australia's national narrative The book examines the tension between national and transnational perspectives attempting to internationalize the often parochial nation based narratives that characterize national history Moving from the local and personal to the global encompassing comparative and international research and drawing on the experiences of researchers working across nations and communities this collection brings together diverging national and transnational approaches and asks several critical research questions What is transnational history How do new transnational readings of the past challenge conventional national narratives and approaches What are implications of transnational and international approaches on Australian history What possibilities do they bring to the discipline What are their limitations And finally how do we understand the nation in this transnational moment

now safely secured Harman explains the rise and fall of societies and civilizations throughout the ages and demonstrates that history moves ever onward in every age A vital corrective to traditional history A People s History of the World is essential reading for anyone interested in how society has changed and developed and the possibilities for further radical progress

The Archaeology of Urban Landscapes Alan James Christian Mayne, Alan Mayne, Tim Murray, 2001-12-13 This exciting 2001 collection on a movement in urban archaeology investigates the historical archaeology of urban slums The material that is dug up broken dinner plates glass grog bottles and innumerable tonnes of building debris nails and plaster samples will not quickly find its way into museum collections But properly interpreted it yields evidence of lives and communities that have left little in the way of written records Including eleven case studies five on cities in the United States and one each on London and Sheffield and futher chapters on Cape Town Sydney Melbourne and Quebec City it maps out a new field which will attract the attention of a range of students and scholars outside archaeology in particular historical sociologists and historians

Legal Institutions and Collective Memories Susanne Karstedt, 2009-08-03 In recent decades the debate among scholars lawyers politicians and others about how societies deal with their past has been constant and intensive Legal Institutions and Collective Memories situates the processes of transitional justice at the intersection between legal procedures and the production of collective and shared meanings of the past Building upon the work of Maurice Halbwachs this collection of essays emphasises the extended role and active involvement of contemporary law and legal institutions in public discourse about the past and explores their impact on the shape that collective memories take in the course of time The authors uncover a complex pattern of searching for truth negotiating the past and cultivating the art of forgetting Their contributions explore the ambiguous and intricate links between the production of justice truth and memory The essays cover a broad range of legal institutions countries and topics These include transitional trials as monumental spectacles as well as constitutional courts and the restitution of property rights in Central and Eastern Europe and Australia The authors explore the biographies of victims and how their voices were repressed as in the case of Korean Comfort Women They explore the role of law and legal institutions in linking individual and collective memories in the transitional period through processes of lustration and they analyse divided memories about the past and their impact on future reconciliation in South Africa The collection offers a genuinely comparative approach allied to cutting edge theory

Flashy, Fun and Functional Sarah Hayes, 2019-02-01 Against the backdrop of embryonic Melbourne John Thomas Smith left behind his currency roots to become an influential member of society A widely recognised figure about town smoking a cutty pipe and wearing a white top hat in 1851 he became Lord Mayor of Melbourne he went on to be re elected seven times His scandalous marriage to the daughter of an Irish Catholic publican however and his awkwardly appropriated gentility made him unpopular with certain sections of society He could never shake the shadow of his background and was dogged by ignominious rumours From 1849 to 1860 Smith and his family occupied 300 Queen Street Melbourne one of the first true residential townhouses in the city

Flashy Fun and Functional How Things Helped to Invent Melbourne's Gold Rush Mayor explores the things they left behind Excavations at the site in 1982 by Judy Birmingham and Associates uncovered a rich and important archaeological record of the Smiths' lives in the form of a cesspit rubbish deposit The recovered artefacts can be used to examine the distinctive way the Smith family used material culture to negotiate their position in colonial society Popular decoration styles and expensive materials suggest the family's efforts to secure their newly obtained social status The artefacts evoke the turmoil volatility and opportunity of life in the first decades of the colony of Port Phillip They provide an example of the possibility of social mobility in the colony but also of the challenges of navigating the customs of a newly forming society

Australian Citizenship Brian Galligan, Winsome Roberts, 2004 Australians have much to celebrate in the hundred years of their citizenship but also a good deal to be ashamed of The authors argue that good citizenship depends on moral citizens able to discern between what is worthy of respect and pride and what is shameful in national life Galligan and Roberts from Uni of Melbourne

Regulation Theory and Australian Capitalism Brett Heino, 2017-11-22 The end of the post World War II long boom in the mid 1970s proved the beginning of a process of political economic change that has fundamentally transformed labour law both in Australia and across the developed world more generally This is a phenomenon with deep ramifications for social justice The dissolution of productive industry the fragmentation of employment categories the rise of profound employment precarity and an increasingly hostile legal environment for trade unionism have been of immense significance for key social justice issues including income inequality the rise of a new working underclass and the marginalization of organised labour By combining the concepts of the Parisian Regulation Approach with an explicitly Marxist jurisprudence this study offers a theoretically rigorous yet empirically sensitive account of legal transition with key case studies in the metal food processing and retail sectors Given the similar development logic of post World War II capitalism in Western societies this theory although operationalised in the Australian context can be used in the effort to explain labour law change more broadly

Attending Madness Lee-Ann Monk, 2015-06-29 He is what we would call a very good attendant who would not run away or flinch from any patient but would try to have his orders carried out if possible Such was the view of William Coady attendant to the insane in the British settler colony of Victoria Australia in the 1870s This book is a history of William Coady's occupation a history asylum work and workers in nineteenth century Australia It considers not only who attendants were and why they worked in the asylum but also how they and others variously defined the very good attendant Colonial asylum advocates imagined the attendant as an archetype drawing on ideas from Britain about the nature of insanity and its treatment In exploring the articulation of these ideas in a specific colonial context and their effect on the colonial asylum workplace Lee Ann Monk makes an important contribution to the international history of the asylum She also opens new dimensions in the history of this occupation on which the fate of patients very much depended by analysing attendants' efforts to construct an occupational identity and give meaning to their work thus providing new insights into their sense of

themselves and their occupation
