learning is the critical link to strategic thinking Learning is a conversion tool that can transform thinking strategically into a sustainable competitive advantage **Surviving and Thriving in Waves of Change** Duke Rohe,Dutch Holland,2012-01-20 This book can help you and your organization prosper during these times of change in the healthcare industry This book will show you how to excel at leading change which is an absolute requirement for executive success and the only way that organizations will be able to not only survive but also thrive in the days ahead The healthcare executives who are successful in the worlds of today and tomorrow will be the ones who can look at waves of change and see opportunity who can design a vision and strategy for a more positive future for their organization and who can implement their designs on target on time and on budget by capitalizing on the strengths of their organizations and their bright and dedicated associates who are devoted to perfect healthcare You dont have to be afraid of change any longer Dutchs work offers entertaining and simple solutions that will help you move swiftly and efficiently through the growing pains of organizational change says Ken Blanchard author of The Secret and The One Minute Manager *How Managers Can Thrive in Waves of Change* Dutch Holland,Deborah Salvo,2012-06-20 Thriving in Times of Increasing Change Never before have organizations faced an environment as turbulent and as difficult as this one Businesses must change the way they are doing business now to a new way that will work for them in the future While major organizational change was once the exception it is now the rule and organizations will have to be very good at organizational change to thrive in the new business environment Profound changes are on the way Todays businesses are bracing for change Waves of regulatory requirements are coming in increasing amounts and intensity Competition is more intense and coming from every direction Customers no longer will settle for yesterdays products services or levels of quality Things are challenging out there and businesses can no longer simply hunker down and weather the storm Many predict that todays storm is tomorrows business environment an environment in which we must be able to thrive or die Adding to the assault many business leaders are shocked at how much change is likely to be required in such a short period of time No longer is it a question of if or when huge waves of change will hit its a matter of how well organizations are positioned to effectively navigate and even flourish in the changes Waves of change are already hitting the beach and their strength is almost certain to build Its too late for a bunker mentality Out of the bunkers and into what Companies cannot stay in their bunkers forever Sooner or later they must come out and face the music That means they must come out and change the way they do business in order to fit into the turbulent world Change is no longer an option but change the way they do business to what Companies coming out have two options options that are as different as night and day Surviving The intuitively obvious way The focus of doing business just to survive is logical and intuitively obvious It has companies adopting and or adapting survival tactics as the core of their new way They limit the changes they make to just get over the survival threshold Process changes are most likely very conservative patches glue ons work arounds tweaks fix and repair rather than replace emergency repairs rather than preventive maintenance etc all pursued in an atmosphere of

severe cost cutting and staffing layoffs While risk management may be a goal survival oriented companies try to dodge every risk regardless of the risk rewards taking away almost all of their undeveloped opportunities that might be sources of new life for the company Unfortunately the slogan of this new way of doing business might be out of the frying pan and into the fire Thriving The straight and narrow way The focus of this new way of doing business will be positioning the organization so that it will thrive even in a nasty business environment The first step in moving toward a thriving business will be to set a vision that is designed to separate the company from the middle of the road pack of competitors This way of doing business will require the company to improve all work processes that could translate into a competitive edge Processes must be advanced beyond best practices to an industry leading position This way of doing business calls for investment in the best available technology that enables the companys core processes in equipment upgrades where possible expansion of employee responsibilities provision of aggressive training on key skills that support core work processes and more All of these actions will require energy and resources as the straight and narrow way calls for an investment and opportunity mindset However the largest investment will need to be in innovation not innovation you pay for but innovation from **Accelerating Change with Organizational Project Management** Dutch Holland,Walter Viali,2013-09-13 THE NEW PARADIGM FOR CHANGE ONE ORGANIZATION WITH TWO MANAGEMENT SYSTEMS Todays business organization must Run the Business to hit this years profit targets and simultaneously Change the Business to be able to hit next years profit targets In the new change paradigm an organization must have both a Run the Business Management System and a parallel Change the Business Management System This book focuses on the Change the Business System called Organizational Project Management OPM that continuously performs Visioning Designing better futures for the organization Portfolio Management Allocating resources to create capabilities for the futures Program Management Leading initiatives to build capabilities Project Management Using best minds to design capabilities Change Engineering Integrating capabilities into operations

IMPLEMENTING A CULTURE of SAFETY DUTCH HOLLAND,PHd & SCOTT SHEMWELL,DBA,2014-02-13

Implementing a Culture of Safety Deepwater production of oil and gas takes place in one of the world s most hazardous and dangerous environments a place where operating in a pervasive Culture of Safety is not an option but an absolute requirement Why A deepwater disaster could be as horrific as a release of a multi megaton nuclear weapon A single deepwater player making a poor decision could cause an accident the size of a multi megaton disaster The number of vitally interested stakeholders has mushroomed and they are mad The number of participants in the development of a billion dollar asset has skyrocketed Energy executives now have everything at stake when responsible for a god like megaton disaster To stay safe and productive energy companies must step up their game with new and improved ways of operating High Reliability Organizations Strong Bond Governance Asset Integrity Management Integrated Operations Authorization e g Two Key Requirements Surrounded by a true Culture of Safety The heart of the matter is to design a valid Culture of Safety and

then implement it on target on time and on budget

Modelling is a tool used by savvy business managers to understand the processes of their business and to estimate the impact of changes. Dynamic Modelling for Business Management applies dynamic modelling to business management using accessible modelling techniques that are demonstrated starting with fundamental processes and advancing to more complex business models. Discussions of modelling emphasize its practical use for decision making and implementing change for measurable results. Readers will learn about both manufacturing and service oriented business processes using hands-on lessons. Then, they will be able to manipulate additional models to try out their knowledge and address issues specific to their own businesses and interests. Some of the topics covered include workflow management, supply chain management, and strategy.
