Educational Experiences for Adult Learners John M. Norris, John McE. Davis, Veronika Timpe-Laughlin, 2017-04-21

Second Language Educational Experiences for Adult Learners provides an up to date review of the theory and practice of adult second language education. The primary objective is to introduce core ideas that should inform the design, development and delivery of language learning experiences that take the typical forms of materials, courses, teaching and assessment. Divided into three sections, the book first addresses what we know about adult second language acquisition and how individuals may acquire languages differently from each other. In the second section, key educational design elements from pedagogical methods to curriculum to assessment are then introduced from the perspective of research-based understandings about effective practices. Rounding out the volume is an overview of critical issues for language educational innovation, including supporting teachers, localizing materials and instruction, evaluating and improving education and working with technology. Each chapter concludes with a set of recommended design principles that should guide readers toward high quality, valuable and empirically supported language educational experiences. This volume will be of interest to researchers and students investigating instructed language learning, designers creating useful language learning materials and language teaching innovators seeking to improve outcomes in diverse instructional settings around the world.

Tomasz Róg, 2025-05-28. This book provides a groundbreaking exploration of how task-based language teaching (TBLT) can effectively develop second language (L2) pragmatic competence in young learners. Bridging the gap between TBLT and L2 pragmatics, this volume addresses critical issues in language education, offering insights into teaching key speech acts. Specifically, it compares the outcomes of TBLT with the traditional PPP framework in teaching L2 speech acts to Polish learners of L2 English aged 8 to 9. Chapter 1 deals with pragmatics and pragmatic competence, highlighting its importance in effective communication and language use in social contexts. It addresses L2 pragmatics, the development of L2 pragmatic competence and the challenges in teaching and assessing this competence. Chapter 2 overviews TBLT, its theoretical foundations, practical implementation and related empirical research. It discusses the cognitive interactionist and sociocultural perspectives on L2 acquisition and the effectiveness of tasks. Chapter 3 reviews empirical research on using tasks in teaching L2 pragmatics, especially to young learners. Chapter 4 details the research methodology used in the study, including the context, participants, target speech acts, data elicitation instruments and analysis procedures. Chapter 5 presents the results of the study. Chapter 6 discusses the findings, their pedagogical implications and the limitations of the study. Chapter 7 offers conclusions. Rich with pedagogical implications, the volume is an essential resource for researchers and practitioners interested in task-based and task-supported teaching of L2 pragmatics and innovative approaches to teaching young learners.
