

The Making of a PHILOSOPHER

My Journey Through
TWENTIETH-CENTURY PHILOSOPHY

"The Making of a Philosopher is brilliantly written, devastatingly honest, often very funny, and tells a personal story as fascinating as the philosophical one."

—Oliver Sacks, M.D.

Making Of A Philosopher My Journey Through Twentieth Century Philosophy:

The Making of a Philosopher Colin McGinn, 2011-08-09 Part memoir part study The Making of a Philosopher is the self portrait of a deeply intelligent mind as it develops over a life on both sides of the Atlantic The Making of a Philosopher follows Colin McGinn from his early years in England reading Descartes and Anselm to his years in the states first in Los Angeles then New York McGinn presents a contemporary academic take on the great philosophical figures of the twentieth century including Bertrand Russell Jean Paul Sartre and Noam Chomsky alongside stories of the teachers who informed his ideas and often became friends and mentors especially the colorful A J Ayer at Oxford McGinn s prose is always elegant and probing students of contemporary philosophy and the general reader alike will absorb every page **The Philosopher's**

Autobiography Shlomit C. Schuster, 2003-01-30 Throughout the ages philosophers have examined their own lives in an attempt both to find some meaning and to explain the roots of their philosophical perspectives This volume is an introduction to philosophical autobiography a rich but hitherto ignored literary genre that questions the self its social context and existence in general The author analyzes representative narratives from antiquity to postmodernity focusing in particular on three case studies the autobiographies of St Augustine Rousseau and Sartre Through the study of these exemplary texts philosophical reflection on the self emerges as a valid alternative to Freudian psychoanalysis and as a way of promoting self renewal and change **The Cambridge Companion to Philosophical Methodology** Giuseppina D'Oro, Søren

Overgaard, 2017-02-16 The volume provides clear and comprehensive coverage of the main methodological debates and approaches within philosophy The book gives equal weight to analytical and continental approaches and pays attention to approaches that are often overlooked **Memoir Ethics** Mike W. Martin, 2016-02-10 Memoir Ethics Good Lives and the Virtues is a philosophical study of moral themes in memoirs exploring how memoirists present and defend perspectives on good lives It pays particular attention to the interplay of the virtues including their interplay with additional non moral types of values in good lives More generally it explores the relevance of memoir to moral philosophy and in turn how moral philosophy enters into elucidating and critiquing memoirs Memoirs are understood as non fiction narratives written by oneself and significantly about oneself including full life autobiographies Mike W Martin explores perspectives on good lives as they are expressed in memoirs written by both philosophers and non philosophers Most of the chapters focus on one of the generic aspects of good lives moral goodness authenticity meaningfulness happiness health and self fulfillment The book clarifies how memoirists often employ life based arguments in defending value perspectives and it includes a discussion of whether philosophers memoirs are distinctive compared to memoirs by non philosophers and also compared to other forums for doing philosophy Martin highlights some parallels between features of good lives and features of memoirs for example both can be said to be meaningful authentic and having virtues such as wisdom and courage Demonstrating how memoirs are rich resources in exploring the good lives and exploring ways in which philosophical ethics provide tools for interpreting

memoirs Memoir Ethics will be of interest to a broad audience of students scholars and general readers including anyone interested in ethics or the connections between literature and philosophy **More Book Lust** Nancy Pearl,2009-09-29 Whether you re searching for the perfect read for yourself or for a friend More Book Lust offer eclectic recommendations unlike those in any other reading guide available In this followup to the bestselling Book Lust popular librarian Nancy Pearl offers a fresh collection of 1 000 reading recommendations in more than 120 thematic intelligent and wholly entertaining reading lists For the friend wanting to leave her job Living Your Dream offers good armchair dreaming books about people who have left stodgy jobs to do what they love Are you a budding chef Fiction For Foodies includes books that sneak in a recipe or two along with a tantalizing plot For the James Bond wannabe Crime is a Globetrotter features crime novels set in various locations around the world such as Tibet Sweden and Sicily In the book s introduction Pearl jokes If we were at a twelve step meeting together I would have to stand up and say Hi I m Nancy P and I m a readaholic Booklist magazine plays off this obsession while echoing a sentiment of Nancy Pearl s fans everywhere A self confessed readaholic Pearl lets us benefit from her addiction May she never seek recovery Indeed **Philosophy , Reading Sartre** Jonathan Webber,2010-10-04 Reading Sartre is an indispensable resource for students of phenomenology existentialism ethics and aesthetics and anyone interested in the relationship between phenomenology and analytic philosophy Specially commissioned chapters examine Sartre s achievements and consider his importance to contemporary philosophy The Power of Movies Colin McGinn,2008-12-10 How is watching a movie similar to dreaming What goes on in our minds when we become absorbed in a movie How does looking into a movie screen allow us to experience the thoughts and feelings of a movie s characters These and related questions are at the heart of The Power of Movies a thoughtful invigorating and remarkably accessible book about a phenomenon seemingly beyond reach of our understanding Colin McGinn an ingenious philosopher who thinks like a laser and writes like a dream according to Steven Pinker enhances our understanding of both movies and ourselves in this book of rare and refreshing insight *Anatomy of Spirituality: Portrait of the Soul* Chander Behl,2015-04-27 The domain of spirituality separated from its theological overburden believes in the existence of a spiritual self presumed to be distinctly separate from the psychological self The spiritual eternal self also known as the soul or spirit sometimes supported by an overarching Spirit is asserted to be operating behind the ephemeral self This book takes a contrarian stance it argues that the premise of the soul concept is obtained through the magic of language maintained through the marvel of the brain s biochemistry and sustained through the mirage of the psychological juggernauts of the brain The magic the marvel and the mirage together bring about subtle shifts as the linguistic brain suppresses many psychological details habitually applies mental templates such as inversions and dichotomies and enhances its language by coining religious and spiritual metaphors The consequence of these changes is that the usual flickering self begins to be impressed by itself believing it is buttressed by something transcendental and eternal within the soul or the spirit The self

although indoctrinated during its formative years also begins to assimilate and accept the opinion that the overwhelming weight of religious doctrines and dogmas the overburden signifies as the legitimate proof for the eternal soul **Redefining Reason** Bradley W. Patterson, 2018-11-16 Throughout the twentieth century Western thinkers engaged in a politically charged often highly personal and acrimonious debate over the mental and rational capacity of people from traditional nonliterate societies The issue was a question of whether or not humanity was at bottom psychologically and rationally unified and equal as a species Redefining Reason offers the first in depth critical history of that debate and its repercussions in modern Western thought and society Divided into three sections this book first sets the twentieth century primitive mentality debate within its historical context so that it may be better understood It then focuses on some of the highlights of the debate The next section suggests that this debate was in reality a chapter itself in or in an aspect of a much larger story the story of what may be appropriately referred to as the hyperrationalization of human society To conclude this book follows the debate into the twenty first century and offers the clarification and resolutions developed in earlier chapters to contemporary students scholars and educated lay readers
