Making America The Cultural Work Of Literature:

Making America Susanne Rohr, Peter Schneck, Sabine Sielke, 2000 Making America tackles issues crucial to the formation and continuing re imagination of American identity and accordingly crucial to the field of American Studies from contemporary theoretical positions The essays collected in this volume are based on the premise that literature and other cultural artifacts make culture work and thus make culture Hence they explore from various critical angles the interdependencies of this process whereby American cultural and national identity has been and still is shaped and challenged at the same time Consequently the volume foregrounds the rhetorical strategies which orchestrating various conflicting cultural forces locations and voices produce the multi faceted phenomenon America The central interest which animates the critical work of the collaborative project of Making America is the dialogue between text and theory *The Broadview Anthology of American Literature Volumes A & B: Beginnings to Reconstruction* Derrick R. Astrid Franke, Stefanie Mueller, Katja Sarkowsky, 2022-03-12 Reading the Social in American Studies offers a unique exploration of the advantages and benefits in using sociological terms and concepts in American literary and cultural studies and conversely in using literature understood broadly to uncover a microlevel of the social. Its temporal scope ranges from the early 19th to the 21st century providing a historical dimension that is otherwise often missing from studies on the conjunction of literature and sociology. The contributors' approaches include genre reflections as well as close readings, theoretical discussions of crucial sociological terms and literary observations backed up by empirical sociological studies. The book will familiarize international readers with ideas on the social from both sides of the Atlantic including scholarship of such figures as John Dewey, Georg Simmel, Norbert Elias and Pierre Bourdieu. *Rethinking Postmodernism(s)* Katrin Amian, 2008 Rethinking Postmodernism(s) revisits three historical sites of American literary postmodernism: the early postmodernism of Thomas Pynchon's *V* 1961, the emancipatory postmodernism of Toni Morrison's *Beloved* 1987 and the late or post postmodernism of Jonathan Safran Foer's *Everything Is Illuminated* 2002. For the first time it confronts these texts with the pragmatist philosophy of Charles Sanders Peirce, staging a conceptual dialogue between pragmatism and postmodernism that historicizes and recontextualizes customary readings of postmodern fiction. The book is a must read for all interested in current reassessments of literary postmodernism in new critical dialogues between seminal postmodern texts and in recent attempts to theorize the post postmodern moment. [The Broadview Anthology of American Literature Volume B: 1820 to Reconstruction](#) Derrick R. Spires, Christina Roberts, Joseph Rezek, Justine S. Murison, Laura L. Mielke, Christopher Looby, Rodrigo Lazo, Alisha Knight, Hsuan L. Hsu, Rachel Greenwald Smith, Michael Everton, Christine Bold, 2022-04-13 Covering American literature from its pre-contact Indigenous beginnings through the Reconstruction period, the first two volumes of *The Broadview Anthology of American Literature* represent a substantial reconceiving of the canon of early American literature. Guided by the latest scholarship in American literary studies and deeply committed to inclusiveness, social responsibility and rigorous contextualization, the anthology balances representation of widely agreed-upon major works with an emphasis on American literature's diversity, variety, breadth and connections with the rest of the Americas. Highlights of Volume B: 1820 to Reconstruction include complete texts of *Narrative of the Life of Frederick Douglass: An American Slave* and *Benito Cereno*; in-depth Contexts sections on such topics as Nature and the Environment, Expansion, Native American Expulsion and Manifest Destiny, Gender and Sexuality and Oratory; broader and more extensive coverage of African American oral literature than in competing anthologies. Full author sections in the anthology are devoted to authors such as George Moses Horton, Jane Johnston Schoolcraft, José María Heredia, Black Hawk and many others. *Handbook of the American Novel of the Twentieth and Twenty-First Centuries* Timo Müller, 2017-01-11 Increasing specialization within the discipline of English and American Studies has shifted the focus of scholarly discussion toward theoretical reflection and cultural contexts. These developments have benefitted the discipline in more ways than one, but they have also resulted in a certain neglect of

close reading As a result students and researchers interested in such material are forced to turn to scholarship from the 1960s and 1970s much of which relies on dated methodological and ideological presuppositions The handbook aims to fill this gap by providing new readings of texts that figure prominently in the literature classroom and in scholarly debate from James s The Ambassadors to McCarthy s The Road These readings do not revert naively to a time before theory Instead they distill the insights of literary and cultural theory into concise introductions to the historical background the themes the formal strategies and the reception of influential literary texts and they do so in a jargon free language accessible to readers on all levels of qualification The Broadview Anthology of American Literature Concise Volume 1: Beginnings to Reconstruction

Companion to the Literature of the American Renaissance Christopher N. Phillips,2018-03-07 The American Renaissance has been a foundational concept in American literary history for nearly a century The phrase connotes a period as well as an event an iconic turning point in the growth of a national literature and a canon of texts that would shape American fiction poetry and oratory for generations F O Matthiessen coined the term in 1941 to describe the years 1850 1855 which saw the publications of major writings by Hawthorne Melville Emerson Thoreau and Whitman This Companion takes up the concept of the American Renaissance and explores its origins meaning and longevity Essays by distinguished scholars move chronologically from the formative reading of American Renaissance authors to the careers of major figures ignored by Matthiessen including Stowe Douglass Harper and Longfellow The volume uses the best of current literary studies from digital humanities to psychoanalytic theory to illuminate an era that reaches far beyond the Civil War and continues to shape

A History of American Puritan Literature Kristina Bross,Abram Van Engen,2020-10-15 For generations scholars have imagined American puritans as religious enthusiasts fleeing persecution finding refuge in Massachusetts and founding America The puritans have been read as a product of New England and the origin of American exceptionalism This History challenges the usual understanding of American puritans offering new ways of reading their history and their literary culture Together an international team of authors make clear that puritan America cannot be thought of apart from Native America and that its literature is also grounded in Britain Europe North America the Caribbean and networks that spanned the globe Each chapter focuses on a single place method idea or context to read familiar texts anew and to introduce forgotten or neglected voices and writings A History of American Puritan Literature is a collaborative effort to create not a singular literary history but a series of interlocked new histories of American puritan literature
