Making An Eightday Longcase Clock

Richard Simmonds

Making An Eightday Longcase Clock:

Making an Eight Day Longcase Clock Alan Timmins,1981-07-01 **Maintaining Longcase Clocks** Nigel Barnes,Austin Jordan,2013-08-31 Longcase clocks were invidually hand made during the golden age of change that took place between the late seventeenth and mid nineteenth centuries Longcase clocks with their seventeenth century clock making technology were innovative and incorporated an accurate pendulum clock within an attractive piece of domestic furnishing This invaluable book is essential reading for all those who own and collect longcase clocks as well as clock repairers horologists and conservationists The authors provide detailed information about how longcase clocks work and how they are made They also cover the theory and the best practice practical steps that are required in longcase clock maintenance restoration and conservation The book outlines the history and horological development of longcase clocks describes how longcase clocks can be dated considers materials tools and equipment examines the movement and the associated simple and more difficult workshop procedures covers maintenance and effective repairs explains the more difficult woodwork procedures Superbly illustrated with 300 colour photographs Nigel Barnes and Austin Jordan provide advice and guidance in the field of antique horology and regularly run weekend courses How to Make a Weight-Driven Clock Richard Simmonds,2025-05-15 For

many centuries a falling weight has been used as an energy source to drive mechanical clocks It is a versatile and constant force that has been used to power clocks from the great cathedral clocks of the world to precision timekeepers astronomical regulators the longcase clock and many designs of wall clock This comprehensive and detailed book describes the function of the parts of a weight driven clock before accompanying you on the journey to making your own There are many components that need to be made and skills to be mastered to make a weight driven clock movement This book will enable you make all the parts required including the plates and pillars and show you how to cut the wheels and pinions From there you will make the barrel assembly pallet and hour wheel bridges pallet pallet arbor and the crutch Finally the pendulum and the pulley are made before the clock movement is ready to be assembled and operated With over 400 photographs showing every stage of the build and over 100 technical drawings covering the construction of the movement this book is a practical step by step guide to making your own weight driven clock movement **Wheel & Pinion Cutting in Horology** Malcolm

Wild,2001-07-23 Many clock repairers carry out excellent work but avoid cutting their own wheels and pinions fearing it is too complicated and involved This book written by an experienced clock and tool maker dispels those fears and gives a step by step guide to an extremely satisfying aspect of horology This book is written for both the amateur and professional involved in the making and restoring of clocks and for anyone who intends to start building up a workshop and requires a guide to the equipment and how to use it **The Horological Journal** ,1883 *English Clocks* John Cronin,2025-06-04

Clockmaking in England has a long and illustrious history from the first clocks in medieval monasteries through the Renaissance to the Golden Age of the 17th and 18th centuries and into the modern world of mass production This book is an

introduction to the innovations pioneered by English horologists and scientists who led a revolution in clock design transforming astronomy and navigation that was essential to the making of the modern world Alongside these developments English craftsmen produced timepieces of unrivalled beauty and quality many of which are now treasured antiques **Old Scottish Clockmakers from 1453 to 1850** John Smith,1921 Escaping Suburbia David J Eveleigh,2019-10-28 Born into the gap between the eras of austerity and boom David grew up in Merseyside amid an inexorable tide of progress developing a fascination with the past With a vivid eye for detail and boundless childhood curiosity for everything from steam trains to My Old Man s a Dustman his account documents the uneasy relationship between worlds old and new Featuring unique photographs and authoritative observations on architecture social and local history based on forty years work in museums and heritage conservation Escaping Suburbia offers a different view of the swinging sixties Colour and Language Siegfried Wyler,1992 *Restoring Grandfather Clocks* Eric Smith,Brian Smith,1995-03-01 The grandfather clock an entirely new kind of furniture first appeared in the late seventeenth century From then on with its long case to protect pendulum and weights its rugged movement and large clear indication of time it has been a success story right up to the present day Virtually none of these clocks is beyond repair and often the work required is within the scope of inexperienced owners This is the first full length book to cover repair and restoration of these attractive and often valuable antiques including their casework The first part outlines how to clean and service the clock works and also how to refurbish the dial while in the second part restoration or casework both structural repairs and finishing is considered The illustrations are of two actual clocks one eight day and one thirty hour and work proceeding on them The last part of the book sketches common variations from these particular examples Armed with this book and appropriate tools for work on both movement and case the owner of a dilapidated grandfather clock will be encouraged and given the know how to restore it to life as a useful and attractive clock and a prized possession Brass Dial Clocks Brian Loomes,1998 This important new title discusses the origins style and development of domestic brass dial clocks made between the early seventeenth and the end of the eighteenth centuries The book provides a detailed examination of eight day and thirty hour clocks with hundreds of illustrated examples of longcase bracket lantern derivatives hook and spike and hooded clocks It examines the development and distribution of each with a complete re examination of prototype thirty hour clockwork and the work of clocksmiths with a detailed discussion on the recognition of styles of the various regions countries Some of these aspects are discussed here for the first time This new title will have a wide appeal as the author assumes no prior knowledge of the subject from his reader and concerns himself exclusively with a discussion of accessible clocks not the rare museum pieces so often featured in other horological publications He concentrates mainly on regional types but also includes a very small number of London clocks in order that comparisons may be made and uses examples from all over Britain including Scotland and Ireland and many from America

R. AUSTIN FREEMAN Ultimate Collection R. Austin Freeman,2023-12-08 The R AUSTIN FREEMAN Ultimate Collection
