Making Of A

Nereo Peñalver García, Julian Priestley

Making Of A:

The Making of a Bestseller Arthur T. Vanderbilt, 1999-01-01 Writer F Scott Fitzgerald's career itself is a metaphor for the vagaries of book publishing. If Fitzgerald would have had his way we would today refer to *The Great Gatsby* as either *Gold Hatted Gatsby* or *Trimalchio in West Egg* or *The High Bouncing Lover*. A few years before *Gatsby* Fitzgerald had become a literary sensation at the age of 23. Helen Hooven Santmyer, a contemporary of Fitzgerald's, would not have a successful novel published until she was 88 and living in a nursing home. In this book the author explores that mysterious place in publishing where art and commerce can either clash, mesh, or both. Along the way a wide range of authors from the literary greats to today's commercial superstars, editors, agents, and publishers share their thoughts, insights, and experiences. What inspires writers? John Steinbeck, for example, wrote every novel as if it were his last, as if death were imminent. Why are some books successful and appreciated while others fall into oblivion? The answers are often elusive, never absolute, but the stories and anecdotes are always fascinating.

The Making of a Yoga Master Suhas Tambe, 2012-07-23 When Suhas Tambe was initiated into the study and life of a yogi through his Indian spiritual master, the Yoga Sutras of Patanjali, an age-old system of guidance, were integral to his training. Tambe is now a scholar and long-term practitioner of this esoteric wisdom. He is also the first Westerner to reveal the hidden sequence of these sutras, which he received from his teacher. From the time of Patanjali onward, 300 BCE, the scrambling of the sequence of sutras was a respected tradition. Such deliberate confusion was done with a view to preserving the sanctity of these precious teachings. Since interpretation of any sutra must bear reference to and consistency with the previous and the following sutra, proper sequence becomes a critical factor fundamental to the use of this time-honored scripture. The key to the real sequence of Yoga Sutra was handed down verbally by the guru only to the eligible disciple. *The Making of a Yoga Master* reveals this original sequence, which has been hidden for so long. Far more than an instruction manual, this book is also about one seeker's progression. The author, who began his search entrenched in materialism, he was an accountant with an MBA working in IT, was transformed into a devoted Yoga practitioner. This path thoroughly changed his life's priorities, evolved his purpose, and dissolved old habits in a way that will be inspiring to many. Yoga not just entered my life, he writes, but now it is my life. The clear and sequential stages of transformation through yoga are documented here, as perhaps nowhere else in contemporary literature. This new sequence unfolds a practical road map for knowing and practicing the elevation of the seeker's awareness from the physical to more

subtle and refined levels and designates observable milestones to determine one's progress on the path. *The Making of a Yoga Master* marries the philosophy of Yoga with clear how-to instructions. *The Making of a European President* Nereo Peñalver García, Julian Priestley, 2015-04-30 This book tells the inside story of Europe's first presidential campaign: the candidates, how they were chosen, the campaign trail, the TV debates, and the tense negotiations which followed. It explains what led to this new way of choosing the Commission president and what it means for the future of the EU. **The Making of a Terrorist** Jeffrey Champlin, 2014-12-31 In *The Making of a Terrorist* Jeffrey Champlin examines key figures from three canonical texts from the German language literature of the late eighteenth and early nineteenth centuries: Goethe's *Gotz von Berlichingen*, Schiller's *Die Rauber*, and Kleist's *Michael Kohlhaas*. Champlin situates these readings within a larger theoretical and historical context, exploring the mechanics, aesthetics, and poetics of terror while explicating the emergence of the terrorist personality in modernity. In engaging and accessible prose, Champlin explores the ethical dimensions of violence and interrogates an ethics of textual violence. *The Making of New World Slavery* Robin Blackburn, 2010-08-02 *The Making of New World Slavery* argues that independent commerce geared to burgeoning consumer markets was the driving force behind the rise of plantation slavery. The baroque state sought successfully to feed upon this commerce and with markedly less success to regulate slavery and racial relations. To illustrate this thesis, Blackburn examines the deployment of slaves in the colonial possessions of the Portuguese, the Spanish, the Dutch, the English, and the French. Plantation slavery is shown to have emerged from the impulses of civil society, not from the strategies of individual states. Robin Blackburn argues that the organization of slave plantations placed the West on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected. Finally, he shows that the surge of Atlantic trade predicated on the murderous toil of the plantations made a decisive contribution to both the Industrial Revolution and the rise of the West. *Making of the Postmodern Presidency* John F. Freie, 2015-11-17 Throughout American history, presidents have been accused of being liars, of deceiving others for political gain, of being corrupt, or of violating the Constitution. Such criticism is to some extent a facet of our political culture. Yet in recent years, the intensity and depth of hostility coming from news reporters, political pundits, and even academics seems unprecedented. It is the argument of *The Making of the Postmodern Presidency* that something more fundamental is occurring, other than personal mendacity, character failures, or political errors: that in fact, the model we have used to explain presidential behavior no longer works. The dominant paradigm used to assess presidential behavior, the modern presidency, is no longer an adequate explanatory model. Nonetheless, those who study the presidency continue to use it to explain behavior. This book claims that the more relevant paradigm that should be used today is the postmodern presidency model. This book traces the origins and development of the postmodern presidency. The heart of the book is composed of an examination of the presidencies of Ronald Reagan, George H. W. Bush, Bill Clinton, and George W. Bush, to show how each has contributed to the evolution and formation of the postmodern presidency. A penultimate chapter analyzes the

2008 presidential election through the lens of postmodernism The book concludes with speculation on the challenges that face the Obama presidency in light of the postmodern presidency and American democracy **The Making of Americans in Paris** Noel Sloboda, 2008 While living in Paris at the beginning of the twentieth century expatriate American writers Edith Wharton 1862 1937 and Gertrude Stein 1874 1946 never crossed paths Even so they did rub shoulders in print in autobiographical essays published by The Atlantic Monthly in 1933 Noel Sloboda shows that the authors pursued many of the same professional goals in these essays and in the book length life writings that grew out of them A Backward Glance 1934 and The Autobiography of Alice B Toklas 1933 By analyzing the personal and cultural contexts in which these works were produced as well as subjects common to both of them Sloboda illuminates a previously unrecognized solidarity between Wharton and Stein The relationship between the authors is built upon careful analysis of A Backward Glance and The Autobiography of Alice B Toklas and it is framed by a consideration of the markets into which their life writings were first released The alignment of Wharton and Stein as life writers will be of interest to those studying autobiography modern literature and American women writers The Making of Russian Absolutism 1613-1801 Paul Dukes, 2014-01-14 Revised and expanded the second edition of this fascinating study surveys the first two centuries of Romanov rule from the foundation of the dynasty by Michael Romanov in 1613 to the accession of Alexander I in 1801 The central theme of the book is the growth of absolutism in Russia throughout these years and it traces in detail how the Russian variety of what was a contemporary European phenomenon came fully into being *The Making of Modern Nevada* Hal Rothman, 2010-09-28 Nevada has always been different from other states Almost from its beginning Nevada sanctioned behaviors considered immoral elsewhere gambling prize fighting brothels easy divorce and embraced a culture of individualism and disdain for the constraints of more conventional society In The Making of Modern Nevada author Hal Rothman focuses on the factors that shaped the state s original maverick colonial status and those that later allowed it to emerge as the new standard of American consumerism and postmodern liberalism Rothman introduces the masters who sought to own Nevada from bonanza kings to Mafia mobsters as well as the politicians miners gamblers civic and civil rights leaders union organizers and casino corporate moguls who guided the state into prosperity and national importance He also analyzes the role of mob and labor union money in the development of Las Vegas the Sagebrush Rebellion the rise of megaresorts and of Las Vegas as a world icon of leisure and pleasure and the political and social impact of the proposed Yucca Mountain nuclear waste repository The Making of Modern Nevada is essential reading for anyone who wonders how the Silver State got this way and where it may be going in the twenty first century
