An insightful look at the University of Michigan s groundbreaking Medical School **A New Moral Vision** Andrea L. Turpin,2016-08-25 In A New Moral Vision Andrea L Turpin explores how the entrance of women into U S colleges and universities shaped changing ideas about the moral and religious purposes of higher education in unexpected ways and in turn profoundly shaped American culture In the decades before the Civil War evangelical Protestantism provided the main impetus for opening the highest levels of American education to women Between the Civil War and World War I however shifting theological beliefs a growing cultural pluralism and a new emphasis on university research led educators to reevaluate how colleges should inculcate an ethical outlook in students just as the proportion of female collegians swelled In this environment Turpin argues educational leaders articulated a new moral vision for their institutions by positioning them within the new landscape of competing men s women s and coeducational colleges and universities In place of fostering evangelical conversion religiously liberal educators sought to foster in students a surprisingly more gendered ideal of character and service than had earlier evangelical educators Because of this moral reorientation the widespread entrance of women into higher education did not shift the social order in as egalitarian a direction as we might expect Instead college graduates who formed a disproportionate number of the leaders and reformers of the Progressive Era contributed to the creation of separate male and female cultures within Progressive Era public life and beyond Drawing on extensive archival research at ten trend setting men s women s and coeducational colleges and

universities A New Moral Vision illuminates the historical intersection of gender ideals religious beliefs educational theories and social change in ways that offer insight into the nature and cultural consequences of the moral messages communicated by institutions of higher education today *The University of Michigan Library Newsletter* ,1981 Rochester - The Making Of A University Jesse Leonard Rosenberger,2011-11-30 This history of the University of Rochester at Rochester New York has been prepared by Jesse Leonard Rosenberger primarily for those who are in one way or another interested in the university and who wish to know somewhat in detail concerning its peculiar origin the sound liberal principles on which it was founded and has been conducted and its development physically and educationally through the first seventy seven years of its existence Other persons for whom the volume may have a value are historians and students of higher educational history in America The index will make the contents readily available for reference purposes University of Michigan Official Publication , The Making of Black Detroit in the Age of Henry Ford Beth Tompkins Bates,2012 In the 1920s Henry Ford hired thousands of African American men for his open shop system of auto manufacturing This move was a rejection of the notion that better jobs were for white men only In The Making of Black Detroit in the Age of Henry Ford **The Oxford Handbook of the American Presidency** George C.
