Sexuality in Premodern Europe Franz X. Eder, 2023-10-19 How did sexual relationships work before in and outside of marriage in the pre modern era What problems did contraception and sexually transmitted diseases pose How did people deal with prostitution and pornography back then What were the possibilities for same sex and queer desire and practice Using numerous examples and sources from across the continent Sexuality in Premodern Europe shows that even in earlier centuries sexual life had an elementary significance for the coexistence of couples and communities It was just as decisive for how individuals saw themselves and others as it was for maintaining the social economic and political order Franz X Eder interestingly emphasises the socio historical view of sexuality offering an apt foil for the cultural perspective which is so prevalent in the field In this book sexual behaviour is understood and thought about as social practice From this vantage point Eder deals with the function of the sexual in upbringing and socialization its significance for the image of men and women its role in marriage initiation and the importance of sexual life for marital relationships and concubinage Deviant and discriminated sexual forms such as prostitution pornography and same sex acts are also addressed throughout The book explores the ways in which many people gained sexual experiences before besides or beyond marriage even if these experiences were forbidden in former societies While research into the history of sexuality has so far dealt with such forms of the sexual primarily from the point of view of regulation and sanctioning here they are understood as positive practices that allowed people to understand and take ownership of their sexual desire

Burial and Social Change in First Millennium BC Italy Elisa Perego, Rafael Scopacasa, 2016-11-30 In the first

millennium BC communities in Italy underwent crucial transformations which scholars have often subsumed under the heading of state formation namely increased social stratification the centralization of political power and in some cases urbanization Most research has tended to approach the phenomenon of state formation and social change in relation to specific territorial dynamics of growth and expansion changing modes of exploitation of food and other resources over time and the adoption of selected socio ritual practices by the ruling elites in order to construct and negotiate authority In contrast comparatively little attention has been paid to the question of how these key developments resonated across the broader social transect and how social groups other than ruling elites both promoted these changes and experienced their effects The chief aim of this collection of 14 papers is to harness innovative approaches to the exceptionally rich mortuary evidence of first millennium BC Italy in order to investigate the roles and identities of social actors who either struggled for power and social recognition or were manipulated and exploited by superior authorities in a phase of tumultuous sociopolitical change throughout the entire Mediterranean basin Contributors provide a diverse range of approaches in order to examine how power operated in society how it was exercised and resisted and how this can be studied through mortuary evidence Section 1 addresses the construction of identity by focusing mainly on the manipulation of age ethnic and gender categories in society in regions and sites that reached notable power and splendor in first millennium BC Italy These include Etruria Latium Campania and the rich settlement of Verucchio in Emilia Romagna Each paper in Section 2 offers a counterpoint to a contribution in Section 1 with an overall emphasis on scholarly multivocality and the multiplicity of the theoretical approaches that can be used to read the archaeological evidence

Public Feminism in Times of Crisis Leila

Easa, Jennifer Stager, 2022-07-26 Public Feminism in Times of Crisis examines the public practice of feminism in the age of social media While their concept of public feminism emerges from a moment of acute crisis the Trump years and the Covid 19 pandemic Leila Easa and Jennifer Stager locate its foundations in history journeying through broad swatches of time looking for connections between the centuries through art and literature and culture Each chapter focuses on what public feminists do in the world Public feminists gain control over an archive that otherwise contains or excludes them they recover their own stories and subjective experiences sometimes for activist use they examine images and language that construct women in patriarchal texts they situate the individual within a collective and the collective within an individual they confront the limitations of such situating due to the containment of patriarchy and reclaim new systems of power in response and they resurface a deep history for the alternative strategies of memorializing they employ In navigating these practices the authors also attend to the material conditions of writing histories as well as those shaping and enabling public feminist acts and protests more broadly

The Portrait Bust and French Cultural Politics in the Eighteenth Century Ronit

Milano, 2015-02-24 In The Portrait Bust and French Cultural Politics in the Eighteenth Century Ronit Milano probes the rich and complex aesthetic and intellectual charge of a remarkably concise art form and explores its role as a powerful agent of

epistemological change during one of the most seismic moments in French history The pre Revolutionary portrait bust was inextricably tied to the formation of modern selfhood and to the construction of individual identity during the Enlightenment while positioning both sitters and viewers as part of a collective of individuals who together formed French society In analyzing the contribution of the portrait bust to the construction of interiority and the formulation of new gender roles and political ideals this book touches upon a set of concerns that constitute the very core of our modernity

Women's Dress in the Ancient Greek World Lloyd Llewellyn-Jones, 2001-12-31 The clothing and ornament of Greek women signalled much about the status and the morality assigned to them Yet this revealing aspect of women's history has been little studied In this collection of new studies by an international team ancient visual evidence from vase painting and sculpture is used extensively alongside Greek literature to reconstruct how women of the Greek world were perceived and also in important ways how they lived

Sacred Prostitution in the Ancient Greek World. From Aphrodite to Baubo to Cassandra and Beyond. Morris Silver, 2020-01-01 This book does not intend to demonstrate that Greeks and other ancient Mediterranean peoples men and women married and unmarried sought and participated in sex for its own sake That is it is taken as obvious a given that they were able to separate sex for pleasure from sex for reproduction There never were human beings who concerned themselves only with fertility Neither does this study seek to demonstrate that some ancient Greeks were willing to provide sexual services to partners in return for the receipt of nonsexual benefits Again this is self evident Nor does this study intend to show that the ancient Mediterranean world was familiar with individuals and enterprises that regularly earned incomes by selling sexual services Clearly the ancient world knew prostitution as an occupation and as a form of enterprise In an article published by *Ugarit Forschungen* in 2008 Silver 2006a challenged the view that temple sacred prostitution did not exist in the ancient Near East Contrary to such scholars as Julia Assante 1998 2003 Martha T Roth 2006 and Vinciane Pirenne Delforge 2010 ample evidence indicates that it did For the convenience of readers this article is included as a Supplement to the present volume The original article has been reformatted to correct some typographical errors and to make it blend seamlessly into the present volume but otherwise it is unchanged More recent materials from the ancient Near East are considered mostly in footnotes however The present study seeks to leap beyond this finding by showing that temple prostitution also flourished in the ancient Mediterranean That it did is of course an old view but the old supporting arguments often lack rigor and even clarity and the supporting evidence is fragmentary contradictory and often facially absurd e g Herodotus 1 199 1 5 Work of this kind has been discredited by scholars such as Fay Glinister 2000 and Stephanie Lynn Budin 2008

Making Sense of Motherhood Beth M. Stovell, 2016-02-02 Motherhood provides a crucial place for exploring human life and its meaning Within motherhood lies a deep tension between the pain crisis and association with death in motherhood and the joy transformation and life in motherhood Few metaphors in Scripture or in life stand so firmly between life and death love and loss and joy and deep pain After all motherhood's meaning in part comes

again and again at these crucial crossroads Thus motherhood has powerful implications for our biblical and theological understanding Bringing together Jewish and ecumenical Christian scholars from North America Oceania and South America this edited volume provides biblical and theological perspectives on understanding motherhood The authors reflect upon a selection of biblical texts systematic theologians and Christian spiritual traditions to dialogue with the experience of maternity in its diverse manifestations The purpose of the book is to provide essays that through these biblical and theological lenses engage the question of motherhood today from the experience of pregnancy and birth to raising children to losing children and coping with grief In this way this volume helps to make sense of the complexity of motherhood
