discourse on his works Nathaniel Hawthorne celebrated in his own day for sketches that now seem sentimental came only gradually to be fully appreciated for what his friend Herman Melville diagnosed as the power of blackness in his fiction the complex moral grappling with sin and guilt By the 1850s Hawthorne had already been accepted into the American canon and since then his works especially *The Scarlet Letter* have remained ubiquitous in American culture Along with this has come an explosion of Hawthorne criticism from New Criticism New Historicism and Cultural Studies to queer theory feminist scholarship and transatlantic criticism that shows no signs of slowing This book charts Hawthorne's canonization and the ongoing critical discourse drawing on two senses of entanglement First the sense from quantum physics which allows us to see what were once seen as strict dualisms in Hawthorne as more complex relations where the poles of the would be dualities play off of and affect each other second the sense of critics being tangled up in caught up in Hawthorne the man and his work and in previous critics views of him Charting the course of Hawthorne criticism as well as his place in popular culture this book sheds light also on the culture in which his reception has occurred Samuel Chase Coale is Professor of American Literature and Culture at Wheaton College Norton Massachusetts

Hawthorne Brenda Wineapple, 2012-01-11 Handsome reserved almost frighteningly aloof until he was approached then playful cordial Nathaniel Hawthorne was as mercurial and double edged as his writing Deep as Dante Herman Melville said Hawthorne himself declared that he was not one of those supremely hospitable people who serve up their own hearts delicately fried with brain sauce as a tidbit for the public Yet those who knew him best often took the opposite position He always puts

himself in his books said his sister in law Mary Mann he cannot help it His life like his work was extraordinary a play of light and shadow In this major new biography of Hawthorne the first in more than a decade Brenda Wineapple acclaimed biographer of Janet Flanner and Gertrude and Leo Stein Luminous Richard Howard brings him brilliantly alive an exquisite writer who shoveled dung in an attempt to found a new utopia at Brook Farm and then excoriated the community or his attraction to it in caustic satire the confidant of Franklin Pierce fourteenth president of the United States and arguably one of its worst friend to Emerson and Thoreau and Melville who unlike them made fun of Abraham Lincoln and who also unlike them wrote compellingly of women deeply identifying with them he was the first major American writer to create erotic female characters Those vibrant independent women continue to haunt the imagination although Hawthorne often punishes humiliates or kills them as if exorcising that which enthralls Here is the man rooted in Salem Massachusetts of an old pre Revolutionary family reared partly in the wilds of western Maine then schooled along with Longfellow at Bowdoin College Here are his idyllic marriage to the youngest and prettiest of the Peabody sisters and his longtime friendships including with Margaret Fuller the notorious feminist writer and intellectual Here too is Hawthorne at the end of his days revered as a genius but considered as well to be an embarrassing puzzle by the Boston intelligentsia isolated by fiercely held political loyalties that placed him against the Civil War and the currents of his time Brenda Wineapple navigates the high tides and chill undercurrents of Hawthorne s fascinating life and work with clarity nuance and insight The novels and tales the incidental writings travel notes and children s books letters and diaries reverberate in this biography which both charts and protects the dark unknowable core that is quintessentially Hawthorne In him the quest of his generation for an authentically American voice bears disquieting fruit [Encyclopedia of the American Novel](#) Abby H. McGill, 2013-10-11 The antebellum period has long been identified with the belated emergence of a truly national literature And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would

call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works Restoring a political dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal arguments and political struggles that produced an American culture of reprinting and held it in place for two crucial decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s *American Literature and the Culture of Reprinting 1834-1853* delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights **Catharine Maria Sedgwick** Lucinda L.
