Reading and Not Reading The Faerie Queene Catherine Nicholson, 2020-05-26 The four hundred year story of readers struggles with a famously unreadable poem and what they reveal about the history of reading and the future of literary studies I am now in the country and reading in Spenser's fairy queen Pray what is the matter with me The plaint of an anonymous reader in 1712 sounds with endearing frankness a note of consternation that resonates throughout The Faerie Queene's reception history from its first known reader Spenser's friend Gabriel Harvey who urged him to write anything else instead to Virginia Woolf who insisted that if one wants to like the poem the first essential is of course not to read it For more than four centuries critics have sought to counter this strain of readerly resistance but rather than trying to remedy the frustrations and failures of Spenser's readers Catherine Nicholson cherishes them as a sensitive barometer of shifts in the culture of reading itself Indeed tracking the poem's mixed fortunes in the hands of its bored baffled outraged intoxicated obsessive and exhausted readers turns out to be an excellent way of rethinking the past and future prospects of literary study By examining the responses of readers from Queen Elizabeth and the keepers of Renaissance commonplace books to nineteenth century undergraduates Victorian children and modern scholars this book offers a compelling new interpretation of the poem and an important new perspective on what it means to read or not to read a work of literature **American**

McLoughlin, 2003-10-16 This book contextualises and details Herman Melville's artistic career and outlines the relationship between Melville and Ralph Waldo Emerson Michael McLoughlin divides Melville's professional career as a novelist into two major phases corresponding to the growth and shift in his art In the developmental phase from 1845 to 1850 Melville wrote his five Transcendental novels of the sea in which he defended self reliance attacked conformity and learned to employ Transcendental symbols of increasing complexity This phase culminates in Moby Dick with its remarkable matching of Transcendental idealism with tragic drama influenced by Hawthorne After 1851 Melville endeavoured to find new ways to express himself and to re envision human experience philosophically In this period of transition Melville wrote anti Transcendental fiction attacking self reliance as well as conformity and substituting fatalism for Emersonian optimism According to McLoughlin Moby Dick represents an important transitional moment in Herman Melville's art dramatically altering tendencies inherent in the novels from Typee onward in contrast to Melville's blithely exciting and largely optimistic first six novels of the sea Melville's later works beginning with his pivotal epic Moby Dick assume a much darker and increasingly anti Transcendental philosophical position **Biographical Books, 1876-1949** R.R.
