Social Dialectics Anouar Abdel-Malek, 1981 In *Nation and Revolution* Anouar Abdel Malek examines the dynamics of power and social change and shows how the super imposition of new geo politics on the existing order of national states has brought about the primacy of the political in contemporary history Taking issue with those who maintain that the Western proletariat constitutes the main impetus for social change today Abdel Malek argues that the united front historically necessary to break the hold of hegemonism will be based on a new East Wind combining mighty waves of national liberation and social revolution *Beyond Nationalism and the Nation-State* İlker Cörüt, Joost Jongerden, 2021-05-30 This book centers on one fundamental question is it possible to imagine a progressive sense of nation Rooted in historic and contemporary social struggles the chapters in this collection examine what a progressive sense of nation might look like with authors exploring the theory and practice of the nation beyond nationalism The book is written against the background of rising authoritarian nationalist movements globally over the last few decades where many countries have witnessed the dramatic escalation of ethnic nationalist parties impacting and changing mainstream politics and normalizing anti immigration anti democratic and Islamophobic discourse This volume discusses viable alternatives for nationalism which is inherently exclusionary exploring the possibility of a type of nation based politics which does not follow the principles of nationalism With its focus on nationalism politics and social struggles this book will be of great interest to students and scholars of political and social sciences **Marxism and Nationalism** Ephraim Nimni, 1991 Nimni has written an innovative and rigorous book important for his critique and his detailed exposition rich and perceptive Dr Fred Halliday *Fortnight* A fascinating discussion of nation state and language Nimni s book is as Ernesto Laclau says an excellent book which will become a necessary reference point for all those interested in the field Peter Beilharz in *Thesis Eleven* A necessary reference point for all those interested in its field Ernesto Laclau Nimni presents the reader with a lucidly argued and arranged history of the unhappy marriage between Western Marxists and the Nationalities question He effectively places these social and political theories in their historical context in the attempt to understand them on their own terms Perhaps more importantly Nimni points out the usefulness of Marxist theory or perhaps the fallibility of liberal theory for an understanding of the contemporary disintegration of nationalities in Eastern Europe He therefore poses an intelligent implicit criticism of

Fukuyama's smug assertion of the triumph of liberalism in the last twentieth century. Finally Nimni crucially addresses the epistemological and logical framework of Marxism and to his credit discusses the little explored area of the relationship between Marxist and liberal thought. Australian Journal of Politics History Vol 41 No 3 1995. This is a book that will be particularly useful to those interested in the contribution to the study of nationalism by the Australian socialist Otto Bauer. This book is a welcome addition to the literature on socialism and nationalism and particularly for the chapters of Bauer. Canadian Review of Studies in Nationalism XXII No 1 2. *Imperialism with Reference to Syria* Ali Kadri, 2019-03-08. This extended essay investigates the meaning of imperialism in Syria providing a valuable addition to the ongoing debate on the Syrian crisis through the lens of imperialism, modern warfare and geopolitics. It offers a detailed analysis of how the Syrian war has been the product of imperialist ambitions. The author begins by situating the Syrian conflict in the regional historical continuum, positing that the modern imperialist war visited upon Syria is both a production domain intrinsic to capital and an application of the law of value assuming a highly destructive form. Such processes, particularly the measure of war as a component of accumulation by waste and militarism, are peculiar to the imperialism of the United States, which the author argues is the sole imperialist power at play in Syria and globally. With so many international forces vying with one another in this country and some prominent Western scholars equally ascribing imperialism to the US, Russia and China, defining who the imperialist is can help to clear some of the fog in the war of positions as a misplaced or ideologically motivated assessment can provide the wrong party with a justification for prolonging the war. This book will be of interest to academics in the social sciences and Middle Eastern studies but will also appeal to all readers with an interest in patterns of global development, postcolonialism and neoliberal imperialism.

Salman Rushdie and the Third World Timothy Brennan, 1989-07-24. The dialectic between national literary production and the rise of a group of writers with cosmopolitan sympathies is the aim of this book, concentrating on Rushdie's novels and journalism. Postcoloniality and Statehood Priyanka Chandra, 2025-09-12. This book traces the evolution of the postcolonial state and the social contract in Egypt. It problematises two of the most ubiquitous and contentious terms, democratisation and development, within the context of Egypt and the larger Global South. It also subverts western-centric ideas of global politics to examine why certain aspects of Egypt's history and policies have received more attention than others. This volume presents a study of state-society relations, the shift to Infitah, the impact of neoliberalisation from 1970 to 2011, and social responses to it. It argues that the Arab Uprisings of 2011 were not isolated events but a result of a longue durée political-economic history. Through the prism of postcoloniality, it shows how citizenship is constantly renegotiated in view of the ongoing neoliberalisation and the impact of such social transformations on the nature of the postcolonial state. It juxtaposes the role of the state and society against global political and economic landscapes to address the larger question: what is the nature of the postcolonial state? This book will be of interest to a wide array of scholars and researchers from politics and international relations, sociology and social

Quintern,2021-10-20 In our 21st century the works of Karl Marx and Friedrich Engels are still widely taught hotly debated and adapted to different political and sociological contexts and theories Today the spectre of communism haunts not only Europe as assumed by the authors of the Manifesto of the Communist Party in 1848 but the world as a whole After Marxism achieved statehood on the ruins of the Tsarist Empire as the consequence of the Russian Revolution in October 1917 revolutionary independence movements in Asia Africa and the Americas introduced new and varied readings of the socialist classics in the 20th century This collection of articles by contributors from across the globe discusses Marxism based on Marx s and Engels s ideas and uvre from transnational perspectives that connect Germany and Europe for example with Brazil Canada Egypt Ghana India Iran Israel Palestine Russia and Turkey With a critical postcolonial approach the pluriversal debates look at the heritage of Karl Marx and Friedrich Engels in the context of histories of resistance analytical thought theory building a latent Eurocentric outlook and the discursive monument Marxism *The Accumulation of Waste* Ali Kadri,2023-08-21 Phenomenal waste has surfaced as the social form and substance of value In capital s totalizing process which commodifies all that comes in its way wasting classes consume the wasted classes This book addresses the metamorphosis of value into waste and it focuses on wars as industries of perfect waste Whereas wasted man is visibly the prevalent commodity on sale this central element in the commodity relation is rarely mentioned In line with this the book examines how waste as a surrogate value eludes the crises of capital and maintains its resilience **The Arab Writer in English** Geoffrey Nash,2014-11-19 Examines the English writings of four twentieth century Anglo Arab and Arab American writers The Cordon Sanitaire Ali Kadri,2017-08-01 This work compares the development experiences of East Asia and the Arab world It posits that in view of the collapse in socialism and its ideological retreat their development performances are intensely over determined by their modes of integration with world capital For East Asia it s through manufacturing of civilian end use commodities and for the Arab World through militarism The book is a unique attempt approaching the topic from the theoretical angle using an analytical comparative perspective **Intimation of Revolution** Subho Basu,2023-06-15 Intimation of Revolution studies the rise of Bengali nationalism in East Pakistan in the 1950s and 60s by showcasing the interactions between global politics and local social and economic developments It argues that the revolution of 1969 and the national liberation struggle of 1971 were informed by the global sixties that transformed the political landscape of Pakistan and facilitated the birth of Bangladesh Departing from the typical understanding of the Bangladesh as a product of Indo Pakistani diplomatic and military rivalry it narrates how Bengali nationalists resisted the processes of internal colonization by the Pakistani military bureaucratic regime to fashion their own nation It details how this process of resistance and nation formation drew on contemporaneous decolonization movements in Asia Africa and Latin America while also being shaped by the Cold War rivalries between the USA USSR and China *Arab Development Denied* Ali Kadri,2015-03-15 Arab Development Denied examines how over the last three decades the Arab world has undergone a

process of developmental descent or de development As a result of defeat in wars the loss of security and sovereignty and even their own class proclivity the Arab ruling classes have been transformed into fully compradorial classes that have relinquished autonomy over policy The neoliberal policies adopted since the early eighties are not developmental policies but the terms of surrender by which Arab resources human or otherwise are stifled or usurped In this book Ali Kadri attributes the Arab world's developmental failure to imperialist hegemony over oil and the rising role of financialisation which goes hand in hand with the wars of encroachment that strip the Arab world of its sovereignty and resources

Red Matters Arnold Krupat, 2010-08-03 Arnold Krupat one of the most original and respected critics working in Native American studies today offers a clear and compelling set of reasons why red Native American culture history and literature should matter to Americans more than it has to date Although there exists a growing body of criticism demonstrating the importance of Native American literature in its own right and in relation to other ethnic and minority literatures Native materials still have not been accorded the full attention they require Krupat argues that it is simply not possible to understand the ethical and intellectual heritage of the West without engaging America's treatment of its indigenous peoples and their extraordinary and resilient responses Criticism of Native literature in its current development Krupat suggests operates from one of three critical perspectives against colonialism that he calls nationalism indigenism and cosmopolitanism Nationalist critics are foremost concerned with tribal sovereignty indigenist critics focus on non Western modes of knowledge and cosmopolitan critics wish to look elsewhere for

comparative possibilities Krupat persuasively contends that all three critical perspectives can work in a complementary rather than an oppositional fashion A work marked by theoretical sophistication wide learning and social passion Red Matters is a major contribution to the imperative effort of understanding the indigenous presence on the American continents
