Nation And National Identity The European Experience In Perspective:

Nation and National Identity Hanspeter Kriesi,1999 Nation and National Identity Hanspeter Kriesi,2004 The nation state is challenged all over the world today Regional movements the reunification of separate territorial parts the differentiation of formerly homogenous ethnic identities the sequels of war and the country specific historical legacies present many different challenges for national identities and nationhood The contributions in this volume constitute an attempt to put the many facets of the contemporary European experience into perspective BOOK JACKET **Nation and Nationalism in Europe** Ireneusz Pawel Karolewski,2011-06-13 An overview of the contending approaches to the nation and nationalism in a European context European Identity in the Context of National Identity Bettina Westle,Paolo Segatti,2016-04-29 In the age of grand recession nationalism seems to have returned to Europe In every EU country many citizens are unhappy with the perceived intrusion of Europe in their way of life Any idea of a genuine pan European identity seems to be in retreat This book provides an unprecedented insight into the multiple ways through which citizens of 16 countries connect their own national identity to European identity The book s theoretical claim is that European identity as well as national identity should be empirically assessed taking into account its multi dimensionality The volume s contributors suggest that European identity was always unlikely to be a source of political integration and political legitimacy in the way national identities have been in the past and are today Europeans primary identity is national rather than supranational Mutual trust between European peoples exists but is somewhat fragile Yet European identity is intertwined with national identities in manifold ways The imagined communities at the national and European level show strong similarities criteria for being a European are strongly associated with the criteria used to define who national belonging These complex links also manifest themselves in citizen s feelings of interdependence between the nations in the European Union which the volume suggests support the EU in the face of severe crises The IntUne series is edited by Maurizio Cotta University of Siena and Pierangelo Isernia University of Siena The INTUNE Project Integrated and United A Quest for Citizenship in an Ever Closer Europe is one of the most recent and ambitious research attempts to empirically study how citizenship is changing in Europe The book series is organized around the two main axes of the project to report how the issues of identity representation and standards of good governance are constructed and reconstructed at the elite and citizen levels and how mass elite interactions affect the ability of elites to shape identity representation and the scope of governance A first set of four books examines how identity scope of governance and representation have been changing over time respectively at elites media and public level The next two books present cross level analysis of European and national identity on the one hand and problems of national and European representation and scope of governance on the other in doing so comparing data at both the mass and elite level A concluding volume summarizes the main results framing them in a wider theoretical context *Identity and Nation in 21st Century Catalonia* Steven Byrne,2021-08-09 This volume offers an

overview of the ongoing debate regarding nationalism globalisation secessionism and languages in 21st century Catalonia At the heart of the book is a set of interlocking questions relating to socio political issues in sub state nations seeking independence in the 21st century **Citizenship and Collective Identity in Europe** Ireneusz Pawel

Karolewski,2009-12-04 This book is the first monograph to systematically explore the relationship between citizenship and collective identity in the European Union integrating two fields of research citizenship and collective identity Karolewski argues that various types of citizenship correlate with differing collective identities and demonstrates the link between citizenship and collective identity He constructs three generic models of citizenship including the republican the liberal and the caesarean citizenship to which he ascribes types of collective identity Using a multidisciplinary approach the book integrates concepts theories and empirical findings from sociology in the field of citizenship research social psychology in the field of collective identity legal studies in the chapter on the European Charter of Fundamental Rights security studies in the chapter on the politics of insecurity and philosophy in the chapter on pathologies of deliberation to examine the current trends of European citizenship and European identity politics This book will be of interest to students and scholars of European politics political theory political philosophy sociology and social psychology The International Social Survey Programme 1984-2009 Max Haller,Roger Jowell,Tom W Smith,2009-09-11

The social sciences rely more on the comparative method than on experimental data mainly because the latter is difficult to acquire amongst human populations The International Social Survey Programme has played a pioneering role in creating and sustaining methodologically sophisticated mass attitude surveys across the globe Starting in 1984 with five nations it now encompasses forty five nations spread over five continents each administering an identical annual survey to a random sample of their population Analyses of the data or descriptions of the methodology already appear in over 3 000 publications This book contains new contributions from three dozen eminent scholars who analyse and compare the perceptions and attitudes of citizens across all five continents nations and over time Subjects range from inequality and the role of the state ethnic national and global identities the changing relevance of religion beliefs and practices gender roles family values and work orientations household and society Some chapters focus on methodological issues others focus on substantive findings This book sets new standards for cross cultural research The formation of Croatian national identity Alex Bellamy,2013-07-19

This electronic version has been made available under a Creative Commons BY NC ND open access license This book assesses the formation of Croatian national identity in the 1990s It develops a novel framework calling into question both primordial and modernist approaches to nationalism and national identity before applying that framework to Croatia In doing so the book provides a new way of thinking about how national identity is formed and why it is so important An explanation is given of how Croatian national identity was formed in the abstract via a historical narrative that traces centuries of yearning for a national state The book shows how the government opposition parties dissident intellectuals and diaspora groups offered alternative accounts of this

narrative in order to legitimise contemporary political programmes based on different versions of national identity It then looks at how these debates were manifested in social activities as diverse as football religion economics and language This book attempts to make an important contribution to both the way we study nationalism and national identity and our understanding of post Yugoslav politics and society *The Construction of European Identity among Ethnic Minorities* Natalia Waechter,2019-07-17 This book is concerned with European identities among ethnic minorities who live along the eastern border of the European Union Based on findings from quantitative and qualitative empirical research conducted with minority groups in eight nation states on both sides of the new eastern border of the EU it investigates their attitudes and perceptions of the EU based on their constructions of European identity Adopting a comparative approach the author explores different processes of identity construction across several age and ethnic minority groups to develop a theory of European identities in which ethnic identities can be seen as a missing link in explaining relationships between different national regional and supranational identities With new insights regarding the political cultural and instrumental contents of European identity and its emergence this volume will appeal to scholars of sociology and politics with interests in ethnic identity European integration and identity research **Nationalism in Contemporary Europe** Andrzej Marcin Suszycki,2021 This book proposes a conceptualisation of nationalism with a multilevel operational character It offers three different perspectives on nationalism that consider both the discursive structure and the discursive agency of nationalism It also demonstrates a number of intra phenomenal and extra phenomenal constraints on nationalism This book underlines that nationalism in contemporary Europe should not be regarded in terms of methodological homogeneity and conceptual uniformity ideological rigidity or strategic consistency but rather as a contested segmented bounded and contextual phenomenon The Identity of Nations Maria Montserrat Guibernau i Berdún,2007 What is national identity Can we forge a new kind of national identity that responds to the challenges of globalization and other deep seated changes Montserrat Guibernau answers these and other compelling questions about the future of national identity Religion and Politics Johann P. Arnason,2014-04-23 Combining theoretical and empirical research these 12 essays examine the role of religion and its prospects in Europe On the one hand the volume discusses growing Islamic presence in Europe as a reminder of enduring religious pluralism not least in view of the high prominence given to Islamic experience in arguments against over generalised notions of secularisation On the other hand it explores the question of Christian motivated extremism and religious nationalism Against this background the contributors discuss the role of religion in other countries throughout the world including China Japan Russia and the MENA region The Europeanization of Europe: Europe's Cultural Identity in the Context of the Integration Processes Piotr Mazurkiewicz,2025-09-11 A Bolivian working in Warsaw for many years decided to apply for Polish citizenship He was asked only one question at the migration office whether he ate sauerkraut hunters stew and fermented dill cucumbers in brine You know he said later for many years I was not able to swallow it but

recently I forced myself and was able to honestly answer yes Cuisine no doubt is one of the elements of national culture The question however was not just about cuisine but about belonging to a national community that this man found worthy of such a sacrifice Europe is called the continent of culture In the book Piotr Mazurkiewicz engages in a reflection on what constitutes the hard core of this culture which allows us to call ourselves Europeans **Obama's America** Ian

Reifowitz,2012-07-01 Our national identity is defined by what it means to be an American and whom we include and why when we talk about the American people A country s national identity is fluid and Ian Reifowitz argues that President Barack Obama by emphasizing the ideals Americans hold dear hopes to redefine ours in a fundamental way Obama s conception of America emphasizes two principles of national unity First all Americans regardless of their heritage and cultural traditions should identify with America as their country based upon shared democratic values a shared history and a shared fate Second America should embrace all its citizens as active participants in one family Reifowitz explores Obama s belief that strengthening our common bonds will encourage Americans to rectify the injustices and heal the racial divisions that still plague our country We have the opportunity to demonstrate to the world that a society of many races and cultures can truly become one people In facing terrorism violent fundamentalism and other security issues Obama s response centers on a powerful inspiring and truly inclusive American narrative By bolstering America s identity as diverse yet unified he aims both to counter the anxieties and fears that radicalism stokes and give proponents of religious and political freedom a model they can defend The stakes couldn t be any higher in determining America s future **Globalisation of Nationalism** Liah

Greenfeld,2020-08-01 Organised as an experiment testing the hypothesis that behind the hottest political issues of the quarter century after the Cold War lies globalisation of national consciousness this collection of essays unites authors from the four corners of the world They focus on democratisation and its failure in Russia transformations of identity in Eastern and Western Europe Africa North and South America and South East Asia the rise of militant and political Islam and the eruption of China onto the world stage The volume makes the argument that globalisation we are witnessing is for the most part the globalisation of competitive and antagonistic nationalism which spreads to areas where it was not known earlier and into the sphere of religion ostensibly indifferent to it Collectively these essays prove that nationalism remains the organising principle of politics inside nations as well as at transnational and international levels **We Are Now a Nation** Daphne

Winland,2013-06-17 The Yugoslav War of Succession had untold ramifications for those living in the embattled region What often goes overlooked however is the impact that the war had on people from the former Yugoslavia who were living abroad We are Now a Nation considers the effect that the war and the independence of Croatia had on Croatian diaspora homeland relations In doing so it confronts complex questions of ideology nostalgia social suffering nationalism and identity politics as manifested in the relationship between diaspora and homeland Croats Daphne Winland draws upon extensive multi sited ethnographic research in both Toronto and Croatia from 1992 to the present exploring the problematic nature of Croatian

identity The occasion of Croatian independence she suggests resulted in the emergence of a politics of desire and disdain which further complicated efforts to define Croatness Hrvatsvo both at home and abroad The idea of the Croatian homeland has become therefore an ambiguous space of identification a source of either conflict and tension or unity and pride a place to remember to forget or to return to The first book length examination of North American Croatian diaspora responses to war and independence We are Now a Nation highlights the contradictions and paradoxes of contemporary debates about identity politics and place

Nationalism in a Global Era Mitchell Young, Eric Zuelow, Andreas Sturm, 2007-03-07 This volume makes a unique contribution to the literature on nations and nationalism by examining why nations remain a vibrant and strong social cohesive despite the threat of globalization Regardless of predictions forecasting the demise of the nation state in the global era the nation persists as an important source of identity community and collective memory for most of the world's population More than simply a corrective to the many scholarly but premature epitaphs for the nation state this book explains the continued health of nations in the face of looming threats The contributors include leading experts in the field such as Anthony D Smith William Safran Edward Tiryakian as well as younger scholars whom adopt a variety of approaches ranging from theoretical to empirical and historical to sociological in order to uncover both the reasons that nations continue to remain vital and the mechanisms that help perpetuate them The book includes case studies on Ireland Thailand Poland the Baltic States Croatia and Jordan Nationalism in a Global Era will be of great interest to students and researchers of international politics sociology nationalism and ethnicity

Turkey's Nationalist Action Party Arzu Opçin-Kıdal, 2024-09-30 This book offers an in depth analysis of the nationalist ideas and practices of Turkey's Nationalist Action Party MHP from its founder Alparslan Türkeş to its current leader Devlet Bahçeli Applying both diachronic and synchronic approaches to the multidimensionality of nationalism the book analyzes how Türkeş and Bahçeli emphasized or de-emphasized ethnic cultural and civic components of the party's nationalism in response to the threats they perceived in specific historical contexts The author draws on party documents speeches and interviews to examine how recurring themes in Türkeş's and Bahçeli's nationalist ideas and practices have evolved over half a century between 1965 and 2015 In this way the book provides fresh insights into the evolution and complexity of the MHP's nationalism thereby contributing to the theoretical understanding of nationalism's multidimensionality This book also highlights the political significance of the MHP in contemporary Turkey where nationalist and right wing politics have become increasingly influential in recent years Spanning a number of disciplines including political science international relations and Turkish studies this book will be of interest to a broad range of scholars and students as well as those seeking insights into the broader implications of nationalism

Democracy in the Age of Globalization and Mediatization H. Kriesi, D. Bochsler, J. Matthes, S. Lavenex, M. Bühlmann, F. Esser, 2013-01-11 This book provides comprehensive coverage of the models of contemporary democracy its social cultural economic and political prerequisites its empirically existing varieties and its two major challenges

globalization and mediatization The book also covers the global spread of democracy and its spread into supranational democracies *Subjects, Citizens, and Others* Benno Gammerl, 2017-11-01 Bosnian Muslims East African Masai Czech speaking Austrians North American indigenous peoples and Jewish immigrants from across Europe the nineteenth century British and Habsburg Empires were characterized by incredible cultural and racial ethnic diversity Notwithstanding their many differences both empires faced similar administrative questions as a result Who was excluded or admitted What advantages were granted to which groups And how could diversity be reconciled with demands for national autonomy and democratic participation In this pioneering study Benno Gammerl compares Habsburg and British approaches to governing their diverse populations analyzing imperial formations to reveal the legal and political conditions that fostered heterogeneity
