A Nation of Empire Michael E. Meeker, 2002 This innovative study of modern Turkey is the result of many years of ethnographic fieldwork and archival research Michael Meeker expertly combines anthropological and historical methods to examine the transition from the Ottoman Empire to the Turkish Republic in a major region of the country the eastern Black Sea coast His most significant finding is that a state oriented provincial oligarchy played a key role in successive programs of reform over the course of more than two hundred years of imperial and national history As Meeker demonstrates leading individuals backed by interpersonal

Ottoman Nationalism in Transition from Empire to Republic, 1908-1931 Abdullah Simsek, 2024-04-17 This book deals with the complex process of national identity formation in the late Ottoman Empire and early Turkish Republic during a crucial period characterized by transformative events that reshaped both the state and society These events included revolutions wars mass migrations ethnic cleansing genocide the empire's disintegration territorial and demographic changes and the emergence of new states In the face of these events a multitude of old and new formulations and imaginings of nation and national identity took shape and interacted with each other This book focuses on highlighting the diversity of concepts and trajectories that existed during the period and how these played out within a complex web of inclusionary and exclusionary processes and the various ways in which the nation was constituted and conceptualized

The Young Turk Legacy and Nation Building Erik J. Zürcher, 2014-05-16 The grand narrative of The Young Turk Legacy and Nation Building is that of the essential continuity of the late Ottoman Empire with the Republic of Turkey that was founded in 1923 Erik J Zürcher shows that Kemal's ideological toolkit which included positivism militarism nationalism and a state centred world view was shared by many other Young Turks Authoritarian rule a one party state a legal framework based on European principles advanced European style bureaucracy financial administration military and educational reforms and state control of Islam can all be found in the late Ottoman Empire as can policies of demographic engineering The book focuses on the attempts of the Young Turks to save their empire through forced modernization as well as on the attempts of their Kemalist successors to build a strong national state The decade of almost continuous warfare ethnic conflict and forced migration between 1911 and 1922 forms the background to these attempts and accordingly occupies a central position in this volume This is a powerful history reflecting and contributing to the latest research from a leading historian of modern Turkey It is essential for all readers interested in the history of the Ottoman Empire and Turkey and for an understanding of a key player in the politics of the Middle East and Europe

Heroin, Organized Crime, and the Making of Modern Turkey Ryan Gingeras, 2018-01-26 Heroin Organized Crime and the Making of Modern Turkey explores the history of organized crime in Turkey and the roles which gangs and gangsters have played in the making of the Turkish

state and Turkish politics Turkey's underworld which has been at the heart of several devastating scandals over the last several decades is strongly tied to the country's long history of opium production and heroin trafficking As an industry at the centre of the Ottoman Empire's long transition into the modern Turkish Republic as important as the silk road had been in earlier centuries the modern rise of the opium and heroin trade helped to solidify and complicate long standing relationships between state officials and criminal syndicates Such relationships produced not only ongoing patterns of corruption but helped fuel and enable repeated acts of state violence Drawing upon new archival sources from the United States and Turkey including declassified documents from the Prime Minister's Archives of the Republic of Turkey and the Central Intelligence Agency Heroin Organized Crime and the Making of Modern Turkey provides a critical window into how a handful of criminal syndicates played supporting roles in the making of national security politics in the contemporary Turkey The rise of the Turkish mafia from its origins in the late Ottoman period to its role in the deep state revealed by the so called Susurluk and Ergenekon scandals is a story that mirrors troubling elements in the republic's establishment and emphasizes the transnational and comparative significance of narcotics and gangs in the country's past

Ottoman/Turkish Visions of the Nation, 1860-1950 D. Gürpınar, 2013-10-17 Seeing the critical phase in the construction of a Turkish historical imagination between 1860 to 1950 disregarding the political disruptions this book demonstrates how history and historical imagery had been instrumental in the nation building process

Foundations of Modernity Isa Blumi, 2017-06-16 Innovatively looking at the complex interactions between indigenous peoples and modern imperialism in Arabia and Balkans Foundations of Modernity challenges previous analytical models that attempt to capture the complexity of human interactions during the 1800-1912 period in ways that instigates the paradigmatic shift of the Eurocentric perspective of modern world history

Nation-Building in Modern Turkey Alexandros Lamprou, 2015-01-28 From 1924 to 1946 the Republic of Turkey was in effect ruled as an authoritarian single party regime During these years the state embarked upon an extensive reform programme of modernisation and nation building Alexandros Lamprou here offers an alternative understanding of social change and state society relations in Turkey shifting the focus from the state as the prime instigator of change to the population's participation in the process of reform Through the study of the People's Houses the community centres opened and operated by the Republican People's Party in most cities and towns of Turkey and using previously unpublished archival material Lamprou analyses how ordinary people experienced negotiated and resisted the reforms in the 1930s and 1940s and how this process contributed to the shaping of social identities This book will be essential reading for students and scholars of nation building socio cultural change and state society relations in modern Turkey

Turkey, Islamists and Democracy Yildiz Atasoy, 2005-07-29 Trailblazing study that radically re-examines political Islam Political Islam in Turkey has been headline news following the Istanbul bombings Much needed study of the economic dimensions of political Islam Turkey Islamists and Democracy is the story of Islam's engagement with the reorganization of the global

economy Yildiz Atasoy examines the development of political Islam in Turkey within the context of the changing balance of domestic and international forces in the world economy and shows how it has taken on a highly sophisticated cosmopolitan edge By examining the incorporation of Islam into the existing relations of the Turkish state from the late Ottoman Empire to the present day the author demonstrates how political Islam interacts with the global restructuring of classes states and political actors Atasoy challenges the view of Islamist politics as an anti Modern anti Western force that is fundamentally opposed to the global economy and instead argues that political Islam is cosmopolitan and embedded in processes which incorporate Western modernity into local cultural practices *Turkey's Engagement with Modernity* C. Kerslake, K.

Öktem, P. Robins, 2010-02-25 Turkey's Engagement with Modernity explores how the country has been shaped in the image of the Kemalist project of nationalist modernity and how it has transformed if erratically into a democratic society where tensions between religion state and society continue unabated **Middle Eastern Societies in the 20th Century** Jerzy

Zdanowski, 2014-10-16 This book provides a comprehensive overview of the last 100 years in the Middle East from the perspective of social history It is apt to date the beginning of the modern Middle East to the industrialization era while it extends its reach into the present Taking its lead from modernization theory this book illustrates past expectations of the present and helps to understand everyday occurrences rather than sensational events It adopts a multi disciplinary perspective and concentrates on the relationship between history and social theory From a historical perspective the categories of social anthropology and social theory are referred to as social mobility urbanization migration cultural change gender identities and the young generation The book addresses the primary issues of importance for the region namely natural and human resources demography and its dynamics family life patriarchy and the emancipation of women class structure and social mobility ethnic and religious minorities migration and its impact on culture and politics refugees problems in historical and contemporary contexts urbanization in the Middle Eastern context the challenges of development and finally the social and political consequences of the Arab Spring **Anti-Veiling Campaigns in Turkey** Sevgi

Adak, 2022-02-24 The veiling and unveiling of women have been controversial issues in Turkey since the late Ottoman period It was with the advent of local campaigns against certain veils in the 1930s however that women's dress turned into an issue of national mobilisation in which gender norms would be redefined In this comprehensive analysis of the anti veiling campaigns in interwar Turkey Sevgi Adak casts light onto the historical context within which the meanings of veiling and unveiling in Turkey were formed By shifting the focus from the high politics of the elite to the implementation of state policies the book situates the anti veiling campaigns as a space where the Kemalist reforms were negotiated compromised and resisted by societal actors Using previously unpublished archival material Adak reveals the intricacies of the Kemalist modernisation process and provides a nuanced reading of the gender order established in the early republic by looking at the various ways women responded to the anti veiling campaigns A major contribution to the literature on the social history of

modern Turkey the book provides a complex analysis of these campaigns which goes beyond a simple binary between liberation and oppression Embers of Empire Paul Miller,Claire Morelon,2018-11-29 The collapse of the Habsburg Monarchy at the end of World War I ushered in a period of radical change for East Central European political structures and national identities Yet this transformed landscape inevitably still bore the traces of its imperial past Breaking with traditional histories that take 1918 as a strict line of demarcation this collection focuses on the complexities that attended the transition from the Habsburg Empire to its successor states In so doing it produces new and more nuanced insights into the persistence and effectiveness of imperial institutions as well as the sources of instability in the newly formed nation states *Shari`a in the Secular State* Russell Powell,2016-06-10 Words in both law and religion can shape power relationships and are often highly disputed Shari a lies within the overlap of these two spheres and provides a unique subject for the study of meaning in that liminal space This book contributes important insights related to Islamic jurisprudence and secularism in the Turkish context and regarding the role of language in contested legal and religious contexts The study begins by providing a historical framework for the ideas and terms covered including concepts of religion in general Shari a in particular and secularism in the Turkish state It goes on to examine empirical research to describe and analyze contemporary Turkish understandings of religion and Shari a The author s research indicates that there is often a disconnect between supporting the adoption of Shari a and supporting the regulation of everyday behavior through civil codes Thus Shari a seems to have taken on new meanings as groups have sought either to appropriate or criticize it It is a quintessential example of fractured and contextual meaning at the center of both religious and legal traditions This book is essential reading for both academics and those interested in law linguistics history political science anthropology sociology religious studies or Near Eastern studies **Atatürk** George W. Gawrych,2023-10-19 Mustafa Kemal Atat rk was one of the most significant political leaders of the twentieth century He rose from obscure origins to become the founder of the new Republic of Turkey out of the ashes of the Ottoman Empire and go on to radically transform Turkish society How should one understand Atat rk and his legacy In this book George Gawrych studies Atat rk s career in detail showing how Atat rk married the traits of the classic military man of action with those of the intellectual theorist and pragmatist as a statesman Gawrych places Atat rk in the context of his times to reveal how he harnessed wider forces to set Turkey on a path of secular nationalism and comprehensive modernization His legacy can be seen everywhere in Turkey today from the role and rights of women in society to the struggle for developing a democracy in the Republic Gawrych addresses the costs of Atat rk s policies including the suppression of minorities and the imposition of a cult of personality and authoritarian rule in the name of Turkification The book presents a nuanced analysis of a complex figure who consciously created a living legacy that still casts a shadow over Turkey s political and intellectual discourse Turkey, Islam, Nationalism, and Modernity Carter V. Findley,2010-09-21 Book Description Publication Date August 30 2011 Turkey Islam Nationalism and Modernity reveals the historical dynamics

propelling two centuries of Ottoman and Turkish history As mounting threats to imperial survival necessitated dynamic responses ethnolinguistic and religious identities inspired alternative strategies for engaging with modernity A radical secularizing current of change competed with a conservative Islamically committed current Crises sharpened the differentiation of the two streams forcing choices between them The radical current began with the formation of reformist governmental elites and expanded with the advent of print capitalism symbolized by the privately owned Ottoman language newspapers The radicals engineered the 1908 Young Turk revolution ruled empire and republic until 1950 made secularism a lasting belief system and still retain powerful positions The conservative current gained impetus from three history making Islamic renewal movements those of Mevlana Halid Said Nursi and Fethullah Gulen Powerful under the empire Islamic conservatives did not regain control of government until the 1980s By then they too had their own influential media Findley's reassessment of political economic social and cultural history reveals the dialectical interaction between radical and conservative currents of change which alternately clashed and converged to shape late Ottoman and republican Turkish history

Refractions of Civil Society in Turkey D. Kuzmanovic, 2016-01-19 Drawing on data from ethnographic fieldwork among civic activists and identifying a range of domestic and international socio political contexts *Refractions of Civil Society in Turkey* explores different perceptions of civil society in Turkey and pursues the general question of why civil society holds such power to move those who evoke it

Turkey Meliha Altunisik, Özlem Tür, 2004-10-28 The authors put issues relevant to Turkey today such as consolidating democracy dealing with economic development issues improving its human rights record and its foreign policy in an historical context allowing comparisons with other late developers in the world and reflecting the complexity of Turkish political and socio economic developments Turkey also argues that the modernization process that started in the nineteenth century with all its elements including secularization and Westernization has taken root

BOOK JACKET Turkey Christine M. Philliou, 2021-03-02 From its earliest days the dominant history of the Turkish Republic was told as a triumphant narrative of national self determination and secular democratic modernization In that officially sanctioned account the years between the fall of the Ottoman Empire and the formation of the Turkish state marked an absolute rupture and the Turkish nation formed an absolute unity In recent years this hermetic division has begun to erode but as the old consensus collapses new histories and accounts of political authority have been slow to take its place In this richly detailed alternative history of Turkey Christine M Philliou focuses on the notion of political opposition and dissent *muhalefet* to weave together the Ottoman and Turkish periods Taking the perennial dissident Refik Halid Karay 1888 1965 as a subject guide and interlocutor she traces the fissures within the Ottoman and the modern Turkish elite that bridged the Ottoman Empire and Republican

Turkey Exploring Karay's political and literary writings across four regimes and two stints in exile along with his direct confrontation with Mustafa Kemal Atatürk at a crucial moment in 1919 Philliou upends the official history of Turkey and offers new dimensions to our understanding of its political authority and culture
