provide unique professional support before during and after birth I think we had a really good relationship actually It was more of a friend relationship but a friend you could trust in a professional friend you could rely on Provides a refreshingly new approach to key areas of midwifery practice in a way that brings practice to life Illustrates and supports the fundamental changes currently taking place in midwifery around the world Builds on the most up to date evidence based research to suggest guidelines for best practices Explores the impact of parenthood and offers strategies for effectively supporting individuals during this period of transition Includes care stories case studies that highlight positive midwifery care and successful childbirth experiences Offers contrasting stories from around the world illustrating how maternity care in industrialized society differs from that in a non industrial or third world environment Provides up to date research and reference material
