National Front And France Ideology Discourse And Power:

The National Front in France Peter Davies, 2001 *The Government and Politics of France* Andrew Knapp, Vincent Wright, 2006-09-27 The Government and Politics of France has been the leading textbook on French politics for over a generation and continues to provide students with a comprehensive and incisive introduction to the intricacies of French politics and government This edition updates every chapter with the addition of a new chapter on France and Europe Recent events necessitate a new edition particularly the 2002 elections and the growing interpenetration of France and the EU in student programmes as well as in the real world Whether covering the shifting balance within France's two headed executive the paradoxes of the French party politics the power and fragmentation of France's administration the growing assertiveness of French local government or the newly visible world of the judiciary The Government and Politics of France has always sought to confront established paradigms with the complex and untidy reality of French politics at the grass roots *The Far Right and the Environment* Bernhard Forchtner, 2019-09-10 At the beginning of the twenty first century both the crisis of liberal democracy as visible in for example the rise of far right actors in Europe and the United States and environmental crises from declining biodiversity to climate change are increasingly in the public spotlight Whilst both areas have been analysed extensively on their own The Far Right and the Environment Politics Discourse and Communication provides much needed insights into their intersection by illuminating the environmental communication of far right party and non party actors in Europe and the United States Although commonly perceived as a left wing issue today concerns over the natural environment by the far right have a long ideology driven history Thus it is not surprising that some members of the far right offer distinctive ecological visions of communal life though for example climate change scepticism is voiced too Investigating this range of stances within their discourse about the natural environment provides a window into the wider politics of the far right and points to a close connection between the politics of identity and the imagination of nature Connecting the fields of environmental communication and study of the far right contributions to this edited volume therefore offer timely assessments of this often overlooked dimension of far right politics **Mapping the Extreme Right in Contemporary Europe** Andrea Mammone, Emmanuel Godin, Brian Jenkins, 2012-05-16 In recent years the revival of the far right and anti Semitic racist and fascist organizations has posed a significant threat throughout Europe Mapping the Extreme Right in Contemporary Europe provides a broad geographical overview of the dominant strands within the contemporary radical right in both Western and Eastern Europe After providing some local and regional perspectives the book has a series of national case studies of particular countries and regions including Austria Belgium Bosnia Herzegovina Croatia Eastern Europe France Germany Greece Italy Malta Portugal Romania Scandinavia Serbia Spain Switzerland Turkey Ukraine and the United Kingdom A series of thematic chapters examine transnational phenomena such as the use of the Internet the racist music scene cultural transfers and interaction between different groups Drawing together a wide range of contributors this is

Ideologies and the European Union Carlo Invernizzi Accetti, Jonathan White, 2021-05-13 This volume examines what the concept of ideology can add to our understanding of the European Union and the way in which the process of European integration has inflected the ideological battles that define contemporary European politics both nationally and transnationally Contemporary debates on the nature and value of the European Union often touch on the notion of ideology The EU s critics routinely describe it as an ideologically motivated project associating it from the left with a form of neo liberal capitalism or from the right with liberal multiculturalism Its defenders often praise it in explicitly post or anti ideological terms as a regulatory body focused on the production of output legitimacy or as a bulwark against dangerous ideological revivals in the form of nationalism and populism Yet the existing academic literature linking the study of the EU with that of ideologies is surprisingly thin This volume brings together a number of original contributions by leading international scholars and takes an approach that is both historical and conceptual probing the EU s ideological roots while also laying the grounds for a reappraisal of its contemporary ideological make up The chapters in this book were originally published as a special issue of the Journal of European Public Policy

The Extreme Right in France James Shields, 2007-05-07 A comprehensive new historical study of the extreme right in France from the Vichy regime to the present day The Front National has for some years been France s third political party and the most significant extreme right force in Europe its leader Jean Marie Le Pen contested the second round of the 2002 presidential election with 5 5 million votes This wide ranging and authoritative book examines the resurgence of right wing extremism in France from a historical perspective tracing the political lineage of Le Pen and the FN through key figures and movements on the French extreme right since 1940 Part 1 devotes chapters to the Vichy regime the aftermath of the Occupation the Poujadist movement the Algerian War the Nouvelle Droite and extreme right ideology and activism in the 1960s and 1970s Part 2 analyzes the electoral rise of the FN its evolving programme and exploitation of salient issues the geography and sociology of its electorate its exercise of local power and its impact on national political culture in contemporary France The FN it is argued represents both the latest manifestation of a long tradition of right wing radicalism and a complex new phenomenon within the changing social and political dynamics of France today This is an essential book for all readers with an interest in French and European politics and modern history

Religion and the Populist Radical Right: Secular Christianity and Populism in Western Europe Nicholas Morieson, 2021-07-06 In Western Europe populist radical right parties are calling for a return to Christian or Judeo Christian values and identity The growing electoral success of many of these parties may suggest that after decades of secularisation Western Europeans are returning to religion Yet these parties do not tell their supporters to go to church believe in God or practise traditional Christian values Instead they claim that their respective national identities and cultures are the product of a Christian or Judeo Christian tradition which either encompasses or has produced secular

modernity This book poses the question if Western European politics is secular why has religious identity become a core element of populist radical right discourse To answer this question Morieson examines the discursive use of religion by two of the most powerful and influential populist radical right parties The French National Front and the Dutch Party for Freedom Based on this examination he argues that the populist radical right has capitalised on a cultural shift engendered by the increasing visibility of Islam in Europe Western Europeans encounter with Islam has revealed the non universal nature of Western European secularism to Europeans and demonstrated the secularisation of Christianity into Western European culture This in turn has allowed secular French and Dutch citizens to identify themselves as well as their nation and ultimately Western civilisation as Christian or Judeo Christian Seizing on this cultural shift the author contends that the National Front and Party for Freedom have built successful and similar brands of reactionary politics based on the notion that contemporary secularism is a product of Europe s Christian heritage and values and that therefore Muslim immigration is an existential threat to the core values of European politics including the differentiation of politics and religion and of church and state Religion and the Populist Radical Right Secular Christianity and Populism in Western Europe will be of interest to scholars and researchers working on the intersections of Political Science Sociology and Religion It will also appeal to the general audience interested in the relationship between populism in Western Europe and religious identity as it is written in an accessible style

Drawing the Past, Volume 2 Dorian L. Alexander, Michael Goodrum, Philip Smith, 2022-01-04 Contributions by Dorian L Alexander Chris Bishop David Budgen Lewis Call Lillian C Spedes Gonz lez Dominic Davies Sean Eedy Adam Fotos Michael Goodrum Simon Gough David Hitchcock Robert Hutton Iain A MacInnes Ma gorzata Olsza Philip Smith Edward Still and Jing Zhang In Drawing the Past Volume 2 Comics and the Historical Imagination in the World contributors seek to examine the many ways in which history worldwide has been explored and re represented through comics and how history is a complex construction of imagination reality and manipulation Through a close analysis of such works as V for Vendetta Maus and Persepolis this volume contends that comics are a form of mediation between sources both primary and secondary and the reader Historical comics are not drawn from memory but offer a nonliteral interpretation of an object re constructed in the creator's mind Indeed when it comes to history stretching the limits of the

imagination only serves to aid in our understanding of the past and through that understanding shape ourselves and our futures This volume the second in a two volume series is divided into three sections History and Form Historical Trauma and Mythic Histories The first section considers the relationship between history and the comic book form The second section engages academic scholarship on comics that has recurring interest in the representation of war and trauma The final section looks at mythic histories that consciously play with events that did not occur but nonetheless inflect our understanding of history Contributors to the volume also explore questions of diversity and relationality addressing differences between nations and the cultural historical and economic threads that bind them together however loosely and however much those bonds might chafe Together both volumes bring together a range of different approaches to diverse material and feature remarkable scholars from all over the world

Turning On the Mind Tamara Chaplin, 2007-12 In 1951 the eight o'clock nightly news reported on Jean Paul Sartre for the first time By the end of the twentieth century more than 3 500 programs dealing with philosophy and its practitioners including Bachelard Badiou Foucault Lyotard and L vy had aired on French television According to Tamara Chaplin this enduring commitment to bringing the most abstract and least visual of disciplines to the French public challenges our very assumptions about the incompatibility of elite culture and mass media Indeed it belies the conviction that television is inevitably anti intellectual and the quintessential archenemy of the book Chaplin argues that the history of the televising of philosophy is crucial to understanding the struggle over French national identity in the postwar period Linking this history to decolonization modernization and globalization **Turning On the Mind** claims that we can understand neither the markedly public role that philosophy came to play in French society during the late twentieth century nor the renewed interest in ethics and political philosophy in the early twenty first unless we acknowledge the work of television Throughout Chaplin insists that we jettison presumptions about the anti intellectual nature of the visual field engages critical questions about the survival of national cultures in a globalizing world and encourages us to rethink philosophy itself ultimately asserting that the content of the discipline is indivisible from the new media forms in which it has found expression
