Lloyd, 2025-07-25 The contributors to Political Theology Reimagined center decolonial Black queer feminist and Marxist modes of critical practice to offer a cutting edge vision of the field that foregrounds a political theology animated by both a fascination with and suspicion of the secular

The Politics of Decolonial Investigations Walter D. Mignolo, 2021-07-09 In The Politics of Decolonial Investigations Walter D Mignolo provides a sweeping examination of how coloniality has operated around the world in its myriad forms from the sixteenth century to the twenty first Decolonial border thinking allows Mignolo to outline how the combination of the self fashioned narratives of Western civilization and the hegemony of Eurocentric thought served to eradicate all knowledges in non European languages and praxes of living and being Mignolo also traces the geopolitical origins of racialized and gendered classifications modernity globalization and cosmopolitanism placing them all within the framework of coloniality Drawing on the work of theorists and decolonial practitioners from the Global South and the Global East Mignolo shows how coloniality has provoked the emergence of decolonial politics initiated by delinking from all forms of Western knowledge and subjectivities The urgent task Mignolo stresses is the epistemic reconstitution of categories of thought and praxes of living destituted in the very process of building Western civilization and the idea of modernity The overcoming of the long lasting hegemony of the West and its distorted legacies is already underway in all areas of human existence Mignolo underscores the relevance of the politics of decolonial investigations in and outside the academy to liberate ourselves from canonized knowledge ways of knowing and praxes of living

Harbinger of Modernity Dalia Wassner, 2013-09-25 In Harbinger of Modernity Marcos Aguinis and the Democratization of Argentina Dalia Wassner presents an integrated analysis of the civic work and literary oeuvre of Marcos Aguinis who served as Secretary of Culture during Argentina s transition from dictatorship to democracy Situating his writings in their historical and intellectual context Wassner explores Aguinis s engagement with the dialectic of modernization as a Jewish public intellectual equally dedicated to fostering Argentine democracy and to inscribing himself in the annals of westernization Encompassing intellectual history literary criticism Latin American history and Jewish studies Wassner s work illuminates the intersecting roles of Jews and public intellectuals in bringing democracy to post dictatorship Argentina

[COVID-19's political challenges in Latin America](#) Michelle Fernandez, Carlos Machado, 2021-10-18 This book analyzes how COVID 19 impacted politics and how politics shaped the response to the pandemic in Latin America the region which has become the epicenter of the global health crisis started in China The volume brings together studies carried out in eight countries of the region Argentina Brazil Chile Colombia Ecuador Mexico Nicaragua and Uruguay and show how the

impacts and outcomes varied a lot across the region depending on the political processes under way in each country in the years preceding the pandemic and on the political responses adopted by each government to deal with the health crisis. The volume is divided into four parts each one dedicated to a specific dimension of the relation between politics and COVID 19 in Latin America. The first part is dedicated to denialism and presents three case studies of governments that denied the importance of the health crisis: Brazil, Mexico, and Nicaragua. The second part takes Uruguay and Colombia as two opposite examples of successful and failed state action against COVID 19. The third part analyzes how social movements faced the pandemic in Brazil and Chile. Finally, the fourth part analyzes how public opinion reacted to political responses to COVID 19 in four countries: Argentina, Brazil, Ecuador, and Mexico. COVID 19's Political Challenges in Latin America will be a valuable resource for political scientists, sociologists, and other social scientists interested in understanding how the pandemic affected politics and how politics affected the fight against the biggest health crisis faced by humanity in the last hundred years.

Persistence and Emergencies of Inequalities in Latin America Pablo Vommaro, Pablo Baisotti, 2022-02-21. This book adopts a multidimensional approach to analyze both the historical and emerging factors that contribute to make Latin America and the Caribbean the most unequal region in the world. Social inequality is a historical characteristic of the region, but at the beginning of the 21st century, a handful of progressive governments seemed to be adopting policies that could reduce this historical trend. Many of these efforts, however, were blocked or reversed by the COVID 19 pandemic, which both exposed the persistence of historical trends and contributed to the emergency of new forms of inequality in the region. The different chapters in this contributed volume adopt a multidimensional intersectional perspective to analyze both the persistence and the emergency of social devices of production and reproduction of inequalities in the diverse Latin American and Caribbean temporal spatialities. The issues analyzed in the different chapters revolve around four main axes: a) persistence of generational and intergenerational inequalities; b) structural gender inequality; c) intertwined social inequalities: race, class, and social structure; and d) historical and economic dimension of inequality. *Persistence and Emergencies of Inequalities in Latin America: A Multidimensional Approach* will be of interest to researchers interested in the study of social inequality and social justice in different fields of the human and social sciences, such as sociology, political science, history, economics, anthropology, and education. It will also be a valuable tool for policy makers and social activists engaged in the discussion, advocacy, and implementation of public policies aimed at reducing social inequalities.

Crises and Migration Enrique Coraza de los Santos, Luis Alfredo Arriola Vega, 2022-09-08. This book critically examines the association between the notions of crisis and migration in the context of Latin America and from three different perspectives: first, it analyzes the discourses based on the concept of crisis employed by the media, academic researchers, civil society organizations, and the state to frame human mobility issues; second, it investigates migrants' agency under conditions of crisis; and third, it discusses whether migration crisis is a conjunctural or structural phenomenon in the region. Chapters in this contributed volume investigate the crisis

migration nexus in seven Latin American countries Argentina Brazil Colombia Costa Rica Mexico Nicaragua and Uruguay by discussing different human mobility phenomena such as the migrant caravans that departed from Central America bound to Mexico and the United States the Nicaraguan exodus caused by the political crisis in the country the perception of Venezuelan migrants in Colombia s media the presence of Caribbean migrants in Brazil Uruguay and Argentina Crisis and Migration Critical Perspectives from Latin America will be of interest to a wide range of social scientists interested in migration studies as well as to policy makers and civil society organizations This book offers a fresh look at the way we conceive represent and think about the relationship between crisis and human mobility As the volume s contributions show a critical examination of the notion of crisis is a first step towards a more comprehensive understanding of the plight of present day migrants worldwide

Survival of Ministers and Configuration of Cabinets in Chile and Uruguay Alejandro Olivares L.,2022-02-15 This book develops an analysis of ministerial recruitment in the process of government formation the process of dismissal and survival of cabinet ministers in Chile and Uruguay The two cases are countries that generally score the highest democracy indexes in Latin America but also they are considered as the most stable presidential systems in the Southern Cone of the region allowing readers to compare within and between cases The cases analyzed in this book are small countries with a similar history of democratic breakdowns which in temporal terms enable comparison Additionally given the reasons that triggered those processes both cases are normally studied together For pre coup democracy the cases include the governments of Chile between 1933 and 1973 and Uruguay between 1943 and 1973 This research does not analyze the military coup regime in either country Thus the period is resumed in the democratic transitions for both cases i e 1985 for Uruguay and 1990 for Chile Although literature on ministerial cabinets survival usually focus on parliamentary regimes from the Global North this rather new phenomenon in presidential democracies has quickly gained academic notoriety Research on cabinets and ministers in Latin American presidential systems tends to focus on the periods beginning with the return to democracy after the 1980s This situation means that there is scant knowledge of the period prior to the coups By presenting an in depth study of two presidential systems from the Global South Survival of Ministers and Configuration of Cabinets in Chile and Uruguay will be a useful resource for political and social scientists willing to study cabinet formation and ministerial turnover in Latin America whether is on case study research or in a comparative perspective

Women in Mexican Subnational Legislatures Flavia Freidenberg,Karolina Gilas,Sebastián Garrido de Sierra,Camilo Saavedra Herrera,2022-02-07 This book aims to fill a gap in research on women s political representation by developing a multidimensional assessment of female participation in subnational legislatures in a federal political system like Mexico The Mexican experience in terms of women s political representation at the federal and subnational levels has been very successful as the reforms created a more robust gender electoral regime that promoted an increase in the number of elected female legislators 1987 2021 Still little is known about the impact of the rise in women s presence in Congresses on other

dimensions of political representation such as symbolic or substantive. Although previous studies on women's political representation in Mexico have yielded exciting conclusions based on empirical evidence and strengthened a theory focused on the analysis of presence, it is still insufficient to explain the other dimensions of representation and the relationship between them. Therefore, this book contributes to the comparative scholarship from the perspective of feminist neo-institutionalism, expanding the understanding of the relationship between women's formal and descriptive representation, the content of legislative work in terms of preferences and interests, substantive representation and its symbolic effects on women and politics in general, symbolic representation. *Women in Mexican Subnational Legislatures: From Descriptive to Substantive Representation* will be of interest to political scientists, sociologists and jurists interested in gender and politics. The book fills a theoretical and empirical gap on the effects of gender parity in the programmatic and symbolic scope of power building. The findings on good practices and challenges are discussed within a broader body of comparative research, providing knowledge to academia, policymakers and international cooperation agencies about the remaining obstacles to strengthening Latin American democracies and the need to continue exploring the links between subnational politics and democratization of federal political systems. *Latin America* Juan Manuel Pérez, 2004. This is a general bibliography on Latin America covering a wide variety of subjects from pre-Columbian civilizations to Columbus to Castro to the foreign debt to pollution, etc. This work will not only be of use to the general casual reader on Latin America but also to the more specialized researcher. The book contains over 800 topics with over 8,000 titles identified. **Bulletin** Canadian Association for Latin American and Caribbean Studies, 2005-04. *Regime Transition in Central Asia* Dagikhudo Dagiev, 2013-10-30. Presenting a study of regime transition, political transformation and the challenges that faced the post-Communist republics of Central Asia on independence, this book focuses on the process of transition in Tajikistan and Uzbekistan and the obstacles that these newly independent states are facing in the post-Communist period. The book analyses how in the early stages of their independence the governments of Central Asia declared that they would build democratic states but that in practice they demonstrated that they are more inclined towards authoritarianism. With the declaration of independence, Tajikistan and Uzbekistan like many other former Soviet national republics were faced with the issues of nationalism, ethnicity, identity and territorial delimitation. This book looks at how the discourse of patrimonial nationalism in post-Communist Tajikistan and Uzbekistan has been the elites' strategy to address all these issues to maintain the stateness of their respective countries, to preserve the unity of their nation, to fill the ideological void of post-Communism, to prevent the rise of Islam and to legitimize their authoritarian practice. Arguing against the claim that the Central Asian states have undergone divergent paths of transition, the book discusses how they are in fact all authoritarian, although exhibiting different degrees of authoritarianism. This book provides a useful contribution to studies on Central Asian Politics and International Relations. **Media Industries** Jennifer Holt, Alisa Perren, 2009-03-09. Media Industries: History, Theory and Method is among the first texts to

explore the evolving field of media industry studies and offer an innovative blueprint for future study and analysis capitalizes on the current social and cultural environment of unprecedented technical change convergence and globalization across a range of textual institutional and theoretical perspectives brings together newly commissioned essays by leading scholars in film media communications and cultural studies includes case studies of film television and digital media to vividly illustrate the dynamic transformations taking place across national regional and international contexts **National and**

Transnational Paths of Latin American Jews Judit Bokser Liwerant, 2025-01-27 The book studies Jewish life in Latin America through a dynamic past present timeline It combines the national regional and transnational dimensions by analyzing central crossing axes the national within the diasporic the transnational dialectically traversing both and the national and regional dimensions developing in a global and interconnected Jewish world Delving into the dilemmas and challenges that Modernity posed to Jews this book emphasizes the practical and ideational responses it evoked For Latin American Jews this has involved moving from historical territories to new geographies bringing with them the transmigration of worldviews and ideologies that were later re signified The roots displacements embeddedness and relocation of Jewish life are explored shedding light on the richness and dilemmas of Jewish Modernity and Multiple Modernities Thus it critically analyzes membership criteria social practices and political participation underscoring how visibility and agency in the public sphere were defined in different periods and contexts through the dyad belonging and Otherness Its focus on Zionism and Mexico as a case study contributes to the field with original in depth research With Diaspora globalization and transnationalism as an analytical framework the book offers a unique and compelling insight into social and communal change and the multiple interactions of the contemporary Jewish world sparking the curiosity and engagement of the academic audience and interested public *Contemporary Maya Writers* Gloria E. Chacón, 2006 **West Coast Line** ,2000

When somebody should go to the books stores, search start by shop, shelf by shelf, it is really problematic. This is why we provide the book compilations in this website. It will agreed ease you to look guide **National Identities And Socio Political Changes In Latin America** as you such as.

By searching the title, publisher, or authors of guide you essentially want, you can discover them rapidly.
