*Australia in World Affairs 2016-2020* Australian Institute of International Affairs, Baogang He, David Hundt, Danielle Chubb, 2024-06-30 Between 2016 and 2020 Australia's foreign and security policies were significantly impacted by profound changes in geopolitics and geoeconomics particularly as great power competition re-emerged between the United States and China *Australia in World Affairs 2016-2020 A Return to Great Power Rivalry* examines Australia's engagement on the international stage in light of these events The thirteenth volume in the *Australia in World Affairs* series builds on the history of Australia's foreign policy covered in other volumes to identify patterns of continuity and change It catalogues the key developments in this period of world history from an Australian perspective Organised thematically chapters cover Australia's foreign policy response to climate change Australia's strengthened ties to the Indo-Pacific region and its security interests in Southeast Asia Australia's increasing security dependence on the US in an age of great power rivalry is evident throughout

**Selling the War on Terror** Jack Holland, 2013 Considers the principal members of Coalition of the Willing in Afghanistan Iraq the United States Britain Australia Despite significant cultural historical and political overlap the War on Terror was nevertheless rendered possible in these contexts in distinct ways drawing on different discourses narratives of foreign policy identity

**'More than an Ally'?** Maryanne Kelton, 2016-12-05 With the ascendancy of the Coalition government in 1996 there was a marked shift of emphasis directed to deepening Australia's relations with America The Coalition government strategically linked security and economic well-being and this linking was contextualized by threats both internal and external By deepening the relationship of the US alliance in foreign trade and defence policies the Australian government sought to resonate on inherited and conservative perceptions of threat in the domestic environment Maryanne Kelton introduces specific cases to demonstrate both the intensity and complexity of dealing with the US Through these empirical studies the government's approach is examined across trade security and industry sectors The book adds to the current debate as it provides an explanatory framework for understanding the Australian government's choices in its relations with the USA across the broader spectrum of security issues

**Historical Dictionary of Australia** Norman Abjorensen, James C. Docherty, 2014-12-05 Australia's development from the most unpromising of beginnings as a British prison in 1788 to the prosperous liberal democracy of the present is as remarkable as is its success as a country of large-scale immigration Since 1942 it has been a loyal ally of the United States and has demonstrated this loyalty by contributing troops to the war in Vietnam and by being part of the coalition of the willing in the US invasion of Iraq in 2003 and in operations in Afghanistan In recent years it has also been more willing to promote peace and democracy in its Pacific and Asian neighbors This fourth edition of *Historical Dictionary of Australia* covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 500 cross-referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for

students researchers and anyone wanting to know more about Australia      Defence Planning and Uncertainty Stephan Frühling, 2014-04-24 How can countries decide what kind of military forces they need if threats are uncertain and history is full of strategic surprises This is a question that is more pertinent than ever as countries across the Asia Pacific are faced with the military and economic rise of China Uncertainty is inherent in defence planning but different types of uncertainty mean that countries need to approach decisions about military force structure in different ways This book examines four different basic frameworks for defence planning and demonstrates how states can make decisions coherently about the structure and posture of their defence forces despite strategic uncertainty It draws on case studies from the United States Australian and New Zealand each of which developed key concepts for their particular circumstances and risk perception in Asia Success as well as failure in developing coherent defence planning frameworks holds lessons for the United States and other countries as they consider how best to structure their military forces for the uncertain challenges of the future

*Trade Liberalization and APEC* Jiro Okamoto, 2004-02-26 Trade liberalization has swept over developing countries over the past few decades and its results have been argued about for the last few years This important new book presents useful insights into the experience of APEC countries that have gone through numerous liberalizing reforms in recent times Students researchers and readers generally int      Australia in the International Legal System Madelaine Chiam, Alison Duxbury, 2025-08-21 What impact has Australia had on international law and what is its significance in terms of its participation in the transnational legal system This collection of essays delves into the history of Australia s interactions with international law and considers how its people have shaped international law It explores key issues such as the country s imperial and settler past It assesses how Australians have contributed to key institutions such as the ICJ the UN and the British Commonwealth It gives a fascinating insight into international law s impact on a domestic legal system and the complex and multifaceted nature of that relationship Scholars from across the international spectrum whether in the field of law politics or history will welcome this erudite and engaging work      *Australia in International Politics* Stewart Firth, 2020-07-28 The world changed for Australia after the terrorist attacks on the US on September 11 2001 and the Bali bombings of 2002 Security became the dominant theme of Australian foreign policy Australian military forces remained in Afghanistan years later opposing the terrorist threat of the Taliban while hundreds of Australian troops and police worked with public servants to build the state in Asia Pacific countries such as East Timor and Solomon Islands The world changed for Australia too when the global financial crisis of September 2008 threatened another Great Depression Meantime the international community made slow progress on measures to stem climate change potentially Australia s largest security threat In a newly revised and updated edition *Australia in International Politics* shows how the nation is responding to these challenges The book describes how Australian foreign policy has evolved since Federation and how it is made It examines Australia s part in the United Nations humanitarian intervention and peacekeeping It analyses defence policy and nuclear

arms control It explains why Australia survived the global financial crisis and why the G20 has become the leading institution of global economic governance It charts the course of Australia's climate change diplomacy the growth of Australia's foreign aid human rights in foreign relations and the rise of China as a great power Written by one of Australia's most experienced teachers of international relations Australia in International Politics explains Australian foreign policy for readers new to the field one of the best books on Australian foreign policy that I have read in recent years Samuel M Makinda Australian Journal of Political Science

**Australia-China Relations post 1949** Yi Wang, 2016-04-08 This book challenges the common perceptions of Australian dependence upon great power allies in the conduct of its foreign relations through a critical examination of Australia's relations with the People's Republic of China The author focuses on the economic and political dimensions of the policy making process from the founding of the PRC in 1949 to the present era against an analytical framework that takes into account both internal and external factors in the formulation and implementation of Australian foreign policy Informed by political science and international relations the book differs from the conventional literature on Sino Australian relations which has either focused on pure economic analysis or concentrated on chronicling historical events The author weaves theoretical insights from political science and international relations into the historical analysis while seeking to examine the interplay between political and economic factors over time in shaping policy outcomes The book draws not only on primary and secondary sources but also on information and insights obtained from interviews with a vast array of direct participants in the policy process including almost all the former ambassadors from both China and Australia covering the entire period of the diplomatic relationship As a result the book breaks new ground especially from the Hawke era onwards revealing hitherto overlooked details of interest in the policy process

Contested Ideas of Regionalism in Asia Baogang He, 2016-09-13 Deepening regionalism in Asia demands new leadership Strong elites who are committed to a supranational identity are a minimum requirement of successful regionalism Regional leaders are increasingly seen as a new set of leaders in Europe Currently Asian regional leaders largely come from the diplomacy community or trade and economic sectors Yet further regionalization demands a new type of leadership from civil society and citizens In this context it is important to cultivate new regional leadership through the development of regional citizenship This book examines contested ideas of regionalism in Asia with a particular focus on two competing ideas of pan Asianism and Pacificism It also identifies a new trend and contestation the fundamental shift from a civilization understanding of regionalism to a technocratic and functional understanding of regionalism in the form of regulatory regionalism It also examines the other contested imaginations of regionalism in Asia including elitist versus participatory approaches to regionalism and democracy centric versus nationalism centric approaches to regionalism

**Re-Orienting Australia-China Relations** Nicholas Thomas, 2017-03-02 Drawing on contributors from academic and policy communities this volume explores the major aspects of Australia China relations The frequently overlooked connection between Australia and Taiwan is also considered to allow readers to reach a full appreciation of the restraints engendered by the relationship with China as well as its many benefits Moving beyond the traditional state centric analysis the work incorporates new material on sub state relations as well as examining the impact of global economic and social forces on the Australia China friendship In addition to providing a contemporary understanding of the bilateral ties this work also provides a benchmark against which Australia's other relations with the countries of East Asia can be measured

The Cambridge Handbook of Social Sciences in Australia Ian McAllister, Steve Dowrick, Riaz Hassan, 2003-08-07 First published in 2003 The Cambridge Handbook of Social Sciences in Australia is a high quality reference on significant research in Australian social sciences The book is divided into three main sections covering the central areas of the social sciences economics political science and sociology Each section examines the significant research in the field placing it within the context of broader debates about the nature of the social sciences and the ways in which institutional changes have shaped how they are defined taught and researched

*Australia goes to Washington* David Lowe, David Lee, Carl Bridge, 2016-12-08 Since 1940 when an Australian legation was established in Washington DC Australian governments have expected much from their representatives in the American capital This book brings together expert analyses of those who have served as heads of mission and of the challenges they have faced Ranging beyond conventional studies of the Australian United States relationship it provides insights into the dynamics between Australian and US policymakers and into the culture of one of Australia's oldest and most important overseas missions It provides an

appreciation of the importance of the embassy and the head of mission in Washington in mediating the relationship between Australia and the United States and of their role in managing expectations in Canberra and Washington Australia Goes to Washington also sheds new light on personal trials and achievements at the coalface of Australian United States relations

The to Z of Australia James C. Docherty, 2010-04 The A to Z of Australia relates the history of this unique and beautiful land which is home to an amazing range of flora and fauna a climate that ranges from tropical forests to arid deserts and the largest single collection of coral reefs and islands in the world Through *Forces for Good* Graeme Cheeseman, 2004 Forces for good develops and explores the concept of cosmopolitan militaries It examines how governments militaries and institutions have responded politically doctrinally and operationally to claims that militaries have a new role in cosmopolitan law enforcement that allows and perhaps even requires the use of force to protect and defend those who are the victims of gross abuse of human rights The contributors include academics defence practitioners and serving military officers BOOK JACKET Australia's Foreign Aid Dilemma Jack Corbett, 2017-03-16 The Australian aid program faces a fundamental dilemma how in the absence of deep popular support should it generate the political legitimacy required to safeguard its budget and administering institution Australia's Foreign Aid Dilemma tells the story of the actors who have grappled with this question over 40 years It draws on extensive interviews and archival material to uncover how court politics shapes both aid policy and administration The lesson for scholars and practitioners is that any holistic understanding of the development enterprise must account for the complex relationship between the aid program of individual governments and the domestic political and bureaucratic contexts in which it is embedded If the way funding is administered shapes development outcomes then understanding the court politics of aid matters This comprehensive text will be of considerable interest to scholars and students of politics and foreign policy as well as development professionals in Australia and across the world
