Committee on Engineering as an International Enterprise,1991 *New and Forthcoming Books* National Academy Press (U.S.),1992 *Behind the Numbers* National Research Council,Division of Behavioral and Social Sciences and Education,Commission on Behavioral and Social Sciences and Education,Committee on National Statistics,Panel on Foreign Trade Statistics,1992-02-01 America s international economic decisions rest to a large degree on the information available to policymakers Yet the quality of international trade and financial data is in serious doubt This book reveals how our systems for collecting and analyzing trade data have fallen behind the times and presents recommendations for new approaches to accuracy and usefulness of these economic data The volume traces the burgeoning use of international economic data by public and private analysts at a time when the United States is becoming increasingly integrated into the world economy It also points out problems of capturing new transactions comparing data from different

sources limited access to the data and more This is the first volume to review all three types of U S international data merchandise trade international services transactions and capital flows Highlights include Specific steps for U S agencies to take Special analyses on improving the accuracy of merchandise trade data filling data gaps on the fast growing international services transactions and understanding structural changes in world capital markets Comments complaints and suggestions from an original survey of more than 100 key users of trade data This practical volume will be invaluable to policymakers government officials business executives economists statisticians and researchers *Reader's Guide to the Social Sciences* Jonathan Michie,2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense Technology Transfer Systems in the United States and Germany National Academy of Engineering,Fraunhofer Institute for Systems and Innovation Research,1997-10-26 This book explores major similarities and differences in the structure conduct and performance of the national technology transfer systems of Germany and the United States It maps the technology transfer landscape in each country in detail uses case studies to examine the dynamics of technology transfer in four major technology areas and identifies areas and opportunities for further mutual learning between the two national systems *The Myth of the Global Corporation* Paul Doremus,William W. Keller,Louis W. Pauly,1999 A common perception of multinational corporations is that they are creating an overwhelmingly powerful market and are rendering national borders obsolete Using data from the US Japan and Europe this book argues that such a view is incorrect Foreign Participation in U.S. Research and Development National Academy of Engineering,Committee on Foreign Participation in U.S. Research and Development,1996-07-05 During the past decade foreign participation in U S research and development through acquisition of R D intensive businesses links with universities and other arrangements has expanded rapidly This emergence of foreign influence has drawn a mixed response some regard the trend as a positive corollary to the expanding involvement of U S owned companies in national markets abroad Others consider it a net liability for Americans that often benefits foreign companies and their home economies at U S expense There exists a large gap in expert and public understanding of the drivers nature and consequences of foreign participation in the nation s technology enterprise This volume seeks to close this gap and reviews The nature of R D activities and how they contribute to economic development The causes scope and nature of foreign involvement in U S based R D activity and the associated costs risks benefits and opportunities of this trend The merits and liabilities of policies to regulate foreign R D participation **Japan and the Politics of Techno-globalism** Gregory P. Corning,2016-07-08 Techno globalism is the term used by policymakers to describe the process of opening government and Research and Development programs to foreign participation This book focuses on Japan s approach to techno globalism in

particular the policies of the Ministry of International Trade and Industry MITI It also explores the politics underlying the approach to this issue in the triad of leading R D centers Japan the United States and the European Union The author examines various theoretical approaches to the political economy of globalization and he describes systems of innovation in Japan the United States and the European Union emphasizing research linkages among firms national labs and universities

Technology in the National Interest ,1996 Strategic Warfare in Cyberspace Gregory J. Rattray,2001 A comprehensive analysis of strategic information warfare waged via digital means as a distinct concern for the United States and its allies In the information age information systems may serve as both weapons and targets Although the media has paid a good deal of attention to information warfare most treatments so far are overly broad and without analytical foundations In this book Gregory Rattray offers a comprehensive analysis of strategic information warfare waged via digital means as a distinct concern for the United States and its allies Rattray begins by analyzing salient features of information infrastructures and distinguishing strategic information warfare from other types of information based competition such as financial crime and economic espionage He then establishes a conceptual framework for the successful conduct of strategic warfare in general and of strategic information warfare in particular Taking a historical perspective he examines U S efforts to develop air bombardment capabilities in the period between World Wars I and II and compares them to U S efforts in the 1990s to develop the capability to conduct strategic information warfare He concludes with recommendations for strengthening U S strategic information warfare defenses *Intellectual Property and International Issues* United States. Congress. House. Committee on the Judiciary. Subcommittee on Intellectual Property and Judicial Administration,1992 **Techno-Security in an Age of Globalization** Denis Fred Simon,2016-09-16 This text assesses the changing dimensions of national security in a world where business and technology issues have moved to centre stage and traditional military security issues seem to have receded due to the end of the Cold War **Technology, Learning, and Innovation** Linsu Kim,Richard R. Nelson,2000-07-24 In this volume published in 2000 leading scholars analyze in a series of essays and commentaries how newly industrializing countries NICs particularly those in East Asia have transformed themselves from technologically backward and poor to relatively modern and affluent economies over the past thirty years The contributors provide interesting theoretical perspectives and offer insights into the process of technological progress at both the macro and micro levels in these countries The essays review how firms particularly those in electronics and automobiles have dynamically accumulated technological capabilities at the micro level how public policies have shaped the process of technological progress at the national level and what problems some of these countries face today at both levels In addition the volume provides a comparison of East Asian NIC s with their Latin American counterparts The discussion also offers useful lessons for policies in other developing countries **Global Economy, Global Technology, Global Corporations** National Research Council,Policy and Global Affairs,Office of International Affairs,Committee on Japan,1998-05-17 **Japan's**

Growing Technological Capability National Research Council, Policy and Global Affairs, Office of International Affairs, Committee on Japan, 1992-02-01 The perspectives of technologists economists and policymakers are brought together in this volume It includes chapters dealing with approaches to assessment of technology leadership in the United States and Japan an evaluation of future impacts of eroding U S technological preeminence an analysis of the changing nature of technology based global competition and a discussion of policy options for the United States

The Emergence of Private Authority in Global Governance Rodney Bruce Hall, Thomas J. Biersteker, 2002-12-12 The emergence of private authority has become increasingly a feature of the post Cold War world In The Emergence of Private Authority in Global Governance leading scholars explore the sources practices and implications of this erosion of the power of the state They analyse and compare actors as diverse as financial institutions multinational corporations religious terrorists and organised criminals and assess the potential for reversal of the situation The themes of the book relate directly to debates concerning globalization and the role of international law and will be of interest to scholars and students of international relations politics sociology and law
