The National JTPA Study Manpower Demonstration Research Corporation,1993 **JTPA, State Oversight:**
Technical assistance guide for state oversight of program quality under the Job Training Partnership Act (JTPA)
,1995 **JTPA, State Oversight** ,1995 Resources in Education ,1993-10 *The National JTPA Study* James J.
Kemple,Fred C. Doolittle,John W. Wallace,1993 **Job Training Policy in the United States** Christopher J.
O'Leary,Robert A. Straits,Stephen A. Wandner,2004 Reviews federally funded training programmes notably its service
providers and the way they operate Considers issues of performance management under the Workforce Investment Act WIA
of 1998 Compares public to private training programmes in the US and to the public training in other industrialized nations
The Workforce Investment Act Douglas J. Besharov,Phoebe H. Cottingham,2011 This volume examines WIA objectives
and the evidence on program performance and impact *Economics of Means-Tested Transfer Programs in the United*
States, Volume II Robert A. Moffitt,2016-11-18 Few government programs in the United States are as controversial as those
designed to help the poor From tax credits to medical assistance the size and structure of the American safety net is an issue
of constant debate These two volumes update the earlier Means Tested Transfer Programs in the United States with a
discussion of the many changes in means tested government programs and the results of new research over the past decade
While some programs that experienced falling outlays in the years prior to the previous volume have remained at low levels
of expenditure many others have grown including Medicaid the Earned Income Tax Credit the Supplemental Nutrition
Assistance Program and subsidized housing programs For each program the contributors describe its origins and goals
summarize its history and current rules and discuss recipients characteristics and the types of benefits they receive This is an
invaluable reference for researchers and policy makers that features detailed analyses of many of the most important
transfer programs in the United States **Evaluating the Net Impact of School-to-work** ,1997 **Governance and**
Performance Carolyn J. Heinrich,Laurence E. LynnJr.,2000-11-06 Drawing on recent advances in the social sciences this
volume shows how rigorous theory based empirical research can help improve the management of public policies and
programs and how better governance can lead to better performance These original essays demonstrate how better data and
improved statistical techniques have allowed researchers to construct more complex models of governance processes and
thereby assess the effects of many variables on policy and program outcomes They present useful research results that
illuminate such issues as automatic grade advancement in public schools management of federally funded job training
programs reducing welfare caseloads and management of welfare to work programs Illustrating a range of theoretical and
methodological possibilities this book shows how more sophisticated research in public management can help improve
government performance Evaluating the Impact of Development Projects on Poverty Judy L. Baker,2000 Despite the
billions of dollars spent on development assistance each year there is still very little known about the actual impact of

projects on the poor There is broad evidence on the benefits of economic growth investments in human capital and the provision of safety nets for the poor But for a specific program or project in a given country is the intervention producing the intended benefits and what was the overall impact on the population Could the program or project be better designed to achieve the intended outcomes Are resources being spent efficiently These are the types of questions that can only be answered through an impact evaluation an approach which measures the outcomes of a program intervention in isolation of other possible factors This handbook seeks to provide project managers and policy analysts with the tools needed for evaluating project impact It is aimed at readers with a general knowledge of statistics For some of the more in depth statistical methods discussed the reader is referred to the technical literature on the topic Chapter 1 presents an overview of concepts and methods Chapter 2 discusses key steps and related issues to consider in implementation Chapter 3 illustrates various analytical techniques through a case study Chapter 4 includes a discussion of lessons learned from a rich set of good practice evaluations of poverty projects which have been reviewed for this handbook

Job Search Activities Sarita Davis-Tyler,1994 Are Participants Good Evaluators? Jeffrey Smith,Alexander Whalley,Nathaniel Wilcox,2021-10-15 Managers of workforce training programs are often unable to afford costly full fledged experimental or nonexperimental evaluations to determine their programs impacts Therefore many rely on the survey responses of program participants to gauge program impacts Smith Whalley and Wilcox present the first attempt to assess such measures despite their already widespread use in program evaluations They develop a multidisciplinary framework for addressing the issue and apply it to three case studies the National Job Training Partnership Act Study the U S National Supported Work Demonstration and the Connecticut Jobs First Program Each of these studies were subjected to experimental evaluations that included a survey based participant evaluation measure The authors apply econometric methods specifically developed to obtain estimates of program impacts among individuals in the studies and then compare these estimates with survey based participant evaluation measures to obtain an assessment of the surveys efficacy The authors also discuss how their findings fit into the broader literatures in economics psychology and survey research
