National Security The Economic And Environmental Dimensions:

National Security Michael Renner,1989 *National Security : Emerging Dimensions and Threats* Navniit Gandhi,2010

There is a visible change in the outlook towards security all over the world probably because of the increasing complexity of global problems and their repercussions for millions of people all over the world Insecurity is not just all pervasive but is reiterating its alarming overtones more forcefully than during the cold war era There are now threats very different from a military attack on a nation s territory The concept of National Security hence needs to be redefined The gamut of its perceptions has undergone a paradigm shift The context against which the policy makers seek to establish national security is undergoing tumultuous changes While not downplaying the relevance of strategic means of maintaining national security this book explores the emerging non strategic threats to national security with the obvious grave consequences on human security This book attempts to address several questions Can the concepts of National Security and Human Security be reconciled meaningfully Can their approaches and objectives be inter twined so that we can live a fuller life Can the nations and citizenry both feel equally secure at the same time Environmental Security Kent Hughes Butts,1993

Security and Environment in the Mediterranean Hans Günter Brauch, Peter H. Liotta, Antonio Marquina, Paul F. Rogers, Mohammad El-Sayed Selim, 2012-12-06. In this volume security specialists, peace researchers, environmental scholars, demographers as well as climate desertification, water, food and urbanisation specialists from the Middle East and North Africa, Europe and North America review security and conflict prevention in the Mediterranean. They also analyse NATO's Mediterranean security dialogue and offer conceptualisations on security and perceptions of security challenges as seen in North and South. The latter half of the book analyses environmental security and conflicts in the Mediterranean and environmental consequences of World War II, the Gulf War, the Balkan wars and the Middle East conflict. It also examines factors of global environmental change, population growth, climate change, desertification, water scarcity, food and urbanisation issues as well as natural disasters. Furthermore, it draws conceptual conclusions for a fourth phase of research on human and environmental security and peace as well as policy conclusions for cooperation and partnership in the Mediterranean in the 21st century.

Maritime Security of India Dr. Suresh R., 2014-02-01. This book focuses on various aspects of maritime security of India. Starting with the changing dimensions of national security, it addresses the issues such as non-traditional threats to security, the threat posed by non-state actors, the causes of insecurity and also the imperatives of tackling the human security challenges. The need for a comprehensive change in India's security policy is well exposed and certain policy prescriptions are also given. The oceans are generally meant for better inaction among nations, especially in the era of accelerated pace of globalization. With regard to the coastal security of India, the role of coastal community is significant. The needs for inculcating awareness among the coastal community on coastal security matters as well as infrastructure development along the coastal area are also emphasized. It is very important to look into the basic problems of coastal people as they face many human security challenges. When we look into the coastal security, a convergence of the national security concerns and human security concerns is visible. The overall development of the coastal area would lead to better human security and better human security would result in enlisting the support of the coastal community to ensure national security programme, especially the coastal security. In short, coastal security is not only

about protecting the coastal terrain and territorial waters from direct attacks by the state actors or non state actors but also safeguarding the interests of all stake holders **Critical Security Studies: Concepts and Cases** Keith Krause,2005
