The Conservative Government And The European Union

David Richards

National Statecraft And European Integration 19791997 The Conservative Government And The European Union:

National Statecraft and European Integration Jim Buller, 2000-09-13 This book examines Britain's reputation as an awkward partner in the E U Jim Buller focuses on the policy of successive Conservative governments asking why one of the most electorally successful political parties in the twentieth century eventually tore itself apart over Europe Isolating key events Buller analyzes the motivations of the Conservative governments He argues that far from being a semi detached partner British economic policy was increasingly Europeanized during this period

Britain and European Integration since 1945 David Gowland, Arthur Turner, Alex Wright, 2009-10-30 This book provides both a comprehensive introduction and a perceptive examination of Britain's relations with the European Community and the European Union since 1945 combining an historical account with political analysis to illustrate the changing and multifaceted nature of British and European politics Few issues in British politics since 1945 have generated such heated controversy as Britain's approach to the process of European integration associated with the European Union The long running debate on the subject has not only played a major part in the downfall of prime ministers and other leading political figures but has also exposed major fault lines within governments and caused deep and rancorous divisions within and between the major political parties This highly contested issue has given rise to bitter campaigning in the press and between pressure groups and it has bemused confused and divided the public at large Key questions addressed include Why has Europe had such an explosive impact on British politics What impelled British policymakers to join the European Community and to undertake one of the radical if not the most radical changes in modern British history What have been the perceived advantages and disadvantages of British membership of the European Union Why has British membership of the European Union rarely attracted a national consensus Engaging with both academic and public debates about Britain and the European Union this volume is essential reading for all students of British history British politics and European politics

Britain and the European Union David Gowland, 2022-04-07 This engaging and concise new edition offers the student and general reader a compact readable treatment of British membership of the European Union EU from 1973 up until the present day and Brexit with detailed analysis of the period 1945 1972 accounting for Britain's absence from the formation of the EU It provides a highly distilled and accessible analysis and overview of some of the parameters and recurring features of Britain's membership of the European Union touching on all the major facets of membership at this critical time in Britain's relationship with Europe Key features of the new edition examines the constant and changing character of British membership of the EU discusses the problematical and often paradoxical features of EU membership familiarises the reader with both academic and public debates about the subject offers thematic treatment of all aspects of policy and attitudes towards the EU significantly restructured and updated to include the origins of the decision to hold a referendum on UK membership of the EU the campaign explanations for its outcome and the course substance and implications of the UK EU Brexit negotiations This book

will be of key interest to scholars students and the generally interested reader in the areas of European Politics Studies British Politics EU Politics Studies Area Studies and International Relations *European Union History* W. Kaiser,A. Varsori,2010-05-06 An accessible yet thorough look at how historians and social scientists have thought and written about the history of the present day European Union and the main themes of their research and debates Essential reading for historians of Europe and social scientists of the European Union alike Major Nation-States in the European Union J. Richard Piper,2015-09-25 Integrating the study of individual European nation states within the framework of the European Union this unique new text is essentially two books in one a book on the EU and a comparative introduction to European politics This text provides more value to students by combining two texts in one but engages student interest and facilitates learning through a variety of useful features Role playing exercises encourage participation and test students critical thinking skills while an emphasis on the people behind the politics humanizes material and provides lively insights into contemporary European politics and society To ensure student understanding there is extensive material comparing and contrasting EU states to one another and to the United States a thorough glossary at the end of the book and an abundance of examples tables charts and graphs to illustrate and extend the discussions **The Making of Eurosceptic Britain** Chris Gifford,2020-09-10 What has been the political impact of the Eurozone Debt Crisis in the UK To what extent have the bank collapses and bailouts reinforced Britain s Eurosceptic trajectory In this revised and updated second edition Chris Gifford addresses these key questions reflecting on the Labour government s approach to Europe while exploring the extensive mobilisation of Eurosceptic forces in opposition to the Conservative led coalition government The book examines the extent to which Euroscepticism has become dominant within both the Conservative leadership and the bulk of its parliamentary party and how this has affected the relationship of the coalition government with the European Union By placing current attitudes to Europe in relation to the wider history of Britain s post war interaction with its continental neighbours the author shows how British Euroscepticism is structural in nature and a persistent and institutionalised feature of UK Politics

British Public Opinion and Party Policy Towards European Integration, 1973-2016 Stuart Smedley,2025-03-18 This book provides the first detailed historical account of British public opinion and party policy towards European integration from 1973 the year in which the UK joined the European Community to 2016 the year in which the UK voted to leave the European Union It takes a thematic approach towards this subject exploring party policy and public opinion towards significant developments in the European integration process during the period covered These include moves towards deeper and flexible integration economic and monetary union the Single Market enlargement and foreign and defence policy cooperation The author assesses the nature of British public opinion towards these developments some of which Britain s government and main political parties supported and others which they opposed and analyses the extent to which party policies reflected public opinion Institutional Crisis in 21st Century Britain David Richards,2014-04-23 In 21st century Britain a perfect

storm seems to have engulfed many of its institutions This book is the first wholesale consideration of the crisis of legitimacy that has taken root in Britain's key institutions and explores the crisis across them to determine if a set of shared underlying pathologies exist to create this collective crisis European Union Enlargement Jurgen Elvert, Wolfram Kaiser, 2004-08-02

European Union Enlargement provides a comparative analysis of the post war European policies of those states that joined the European Union between 1973 and 1995 The volume draws upon new empirical research in order to investigate the policies that these newcomer states have had towards Europe since 1945 with an emphasis on their experience of membership and its possible Europeanising effect A final comparative chapter draws the national European policies of the newcomers together and outlines what they have brought to the EU The book also tests integration theories against the available evidence demonstrating their limited explanatory value and the economic political and cultural specificity of different national paths towards EU integration The Europeanization of British Politics I. Bache, A. Jordan, 2006-08-03

This is a unique book length accounts of the domestic impact of EU membership Drawing on expert contributions this volume provides a state of the art account of how membership has affected the institutions of central devolved and local governance the activities of organized interests and major areas of public policy **The British political elite and Europe, 1959-1984** Bob Nicholls, 2019-01-06 This book offers an original interpretation of Britain's relationship with Europe over a 25 year period 1959-84 and advances the argument that the current problems over EU membership resulted from much earlier political machinations This evidence based account of the seminal period analyses the applications for EEC membership the 1975 referendum and the role of the press Was the British public misled over the true aims of the European project How significant was the role of the press in changing public opinion from anti to pro Common Market membership Why after over 40 years since Britain became a member of the European community does the issue continue to deeply divide not only the political elite but also the British public These and other pertinent questions are answered in this timely book on a subject that remains topical and highly controversial **How Europe Shapes British Public Policy** Janice Morphet, 2014-10-08 Britain's relationship with the European Union EU is frequently viewed as simple by the media and politicians In ways never really explained the EU has managed to take away Britain's sovereign powers and has the ability to determine much of its legislation The history of how this has occurred is never discussed unlike other countries in Europe How Europe shapes British public policy examines the development of the EU as a sectarian issue in the UK It discusses the effects of disengagement through the political practices of policy making and the implications that this has had for depoliticisation in government and the civil service It considers the effects of EU membership in shaping key policy areas trade and privatisation the single market and the environment and subsidiarity in the development and implementation of devolved and decentralised governance This book gives new and essential insights for students and practitioners of politics governance and international relations *Making Thatcher's Britain* Ben Jackson, Robert Saunders, 2012-08-02 Margaret

Thatcher was one of the most controversial figures of modern times Her governments inspired hatred and veneration in equal measure and her legacy remains fiercely contested Yet assessments of the Thatcher era are often divorced from any larger historical perspective This book draws together leading historians to locate Thatcher and Thatcherism within the political social cultural and economic history of modern Britain It explores the social and economic crises of the 1970s Britain s relationships with Europe the Commonwealth and the United States and the different experiences of Thatcherism in Scotland Wales and Northern Ireland The book assesses the impact of the Thatcher era on class and gender and situates Thatcherism within the Cold War the end of Empire and the rise of an Anglo American New Right Drawing on the latest available sources it opens a wide ranging debate about the Thatcher era and its place in modern British history *Between Europe and America* Andrew Gamble, 2017-03-14 British politics has been crucially shaped by England s role as pioneer of capitalism by the experience of Empire and by the particular form of its union with Scotland Ireland and Wales With the decline of Empire the attempt to bridge Europe and America has become ever more central to Britain s identity political economy and ideology In this major new book Andrew Gamble assesses the major transformations of British politics under Thatcher and Blair and the stark choices for the future at the start of the 21st century Winner of the W J M Mackenzie Prize for best book published in political science in 2003 **Building Europe's Parliament** Berthold Rittberger, 2005-03-24 Why have the national governments of EU member states successively endowed the European Parliament with supervisory budgetary and legislative powers over the past fifty years Building Europe s Parliament sheds new light on this pivotal issue and provides a major contribution to the study of the European Parliament Rittberger develops a theory of delegation to representative institutions in international politics which combines elements of democratic theory and different strands of institutionalist theory To test the plausibility of his theory Rittberger draws on extensive archival material and offers theory guided in depth case studies of three landmark decisions in the history of the European Parliament the creation of the Common Assembly of the ECSC in 1951 and the concomitant acquisition of supervisory powers vis vis the quasi executive High Authority the delegation of budgetary powers following the signing of the Treaty of Luxembourg in 1970 and the delegation of legislative powers resulting from the adoption of the Single European Act signed in 1986 This is followed by the charting of more recent key developments culminating in the adoption of the Constitutional Treaty in 2004 The book provides a welcome addition to the literature on institutional design by reflecting on the conditions under which governments opt for the creation and empowerment of parliamentary institutions in international politics It also makes a valuable contribution to the application of democratic theory to the study of the European Union by demonstrating that political elites shared the view that the new supranational polity which emerged from the debris of World War II suffered from democratic deficit since its inception thus disproving the claim that the lamented democratic deficit is a recent phenomenon **Personal Diplomacy in the EU** Roland Vogt, 2016-10-04 At a time when the economic troubles and bailouts of Greece and other

European economies are casting significant doubt on the future viability of the Eurozone and the EU it is crucial to examine the origins of the political will and leadership that is necessary to move the integration process forward This book makes a significant conceptual and empirical contribution by elucidating the extent to which the integration process hinges not on institutions and norms but on the relations among leaders Vogt conducts a comparative diplomatic history of three critical junctures in the process of European integration the creation of the Common Market 1955 1957 British accession 1969 1973 and the introduction of the Euro 1989 1993 He illustrates how personal diplomacy leadership constellations and the dynamics among leaders enable breakthroughs or inhibit accords He also reveals how the EU's system of top level decision making that privileges institutionalised summitry has operated in the past and suggests in a separate chapter why it has come to atrophy and prove more dysfunctional of late

The SAGE Handbook of Diplomacy Costas M. Constantinou, Pauline Kerr, Paul Sharp, 2016-08-12 The SAGE Handbook of Diplomacy provides a major thematic overview of Diplomacy and its study that is theoretically and historically informed and in sync with the current and future needs of diplomatic practice Original contributions from a brilliant team of global experts are organised into four thematic sections Section One Diplomatic Concepts Theories Section Two Diplomatic Institutions Section Three Diplomatic Relations Section Four Types of Diplomatic Engagement

Thatcher Graham Goodlad, 2015-12-14 Thatcher provides an accessible and scholarly introduction to the personality and career of Britain's first female political leader and the twentieth century's longest serving Prime Minister Providing a balanced narrative and assessment of one of the most significant figures of the post war era this new biography examines the reasons why Margaret Thatcher has been admired by many as an architect of national revival yet loathed by others as the author of widening social and geographical division The book begins by examining the making of Margaret Thatcher her education the beginning of her political career and her rise through the Conservative Party to her appointment as unexpected leader Moving on to her tenure as Prime Minister Graham Goodlad then examines her impact at home and abroad covering her controversial economic policies and hard line with the trade unions leadership through the Falklands conflict and during the last decade of the Cold War and influence on Britain's relationship with a more closely integrated Europe Finally the biography closes with a review of Thatcher's legacy before and after her death in April 2013 and considers how far she shaped the politics and society of the 1980s and those of our own time Thatcher is essential reading for all students of twentieth century history and politics

After Brexit and Other Essays Andrew Gamble, 2021-04-28 After Brexit brings together Gamble's most influential writings on British politics and political economy from the last 40 years reflecting on issues that animate British politics from the decline of the economy and reshaping the welfare state to the transformation of political parties and devolution to Wales Scotland and Northern Ireland

Britain and the Crisis of the European Union David Baker, Pauline Schnapper, 2016-01-03 This book centres on the effects of the political and later economic crisis which seriously affected the European Union and its impact on the seemingly endless UK

debate over Britain's position within the EU
