National Dream The Last Spike:

National Dreams Daniel Francis, 2002-07-01 As Canadians we remember the stories told to us in high school history class as condensed images of the past the glorious Mountie the fearsome Native the Last Spike National Dreams is an incisive study of the most persistent icons and stories in Canadian history and how they inform our sense of national identity the fundamental beliefs that we Canadians hold about ourselves National Dreams is the story of our stories the myths and truths of our collective past that we first learned in school and which we carry throughout our adult lives as tangible evidence of what separates us from other nationalities Francis examines various aspects of this national mythology in which history is as much storytelling as fact Textbooks were an important resource for Francis For me these books are interesting not because they explain what actually happened to us but because they explain what we think happened to us For example Francis documents how the legend of the CPR as a country sustaining national affirming monolith was created by the company itself a group of capitalists celebrating the privately owned railway albeit one which was generously supported with public land and cash and reiterated by most historians ever since Similarly we learn how the Mounties were transformed from historical police force to mythic heroes by a vast army of autobiographers historians novelists and Hollywood filmmakers with little attention paid to the true role of the force in such incidents as the Bolshevik rebellion in which a secret conspiracy by the Government against its people was conducted through the RNWMP Also revealed in National Dreams are the stories surrounding the formation and celebration of Canadian heroes such as Louis Riel and Billy Bishop

The Sporting Scots of Nineteenth-century Canada Gerald Redmond, 1982 This book examines the role of the Scots in the development of Canadian sport The evidence from the wide range of primary and secondary sources cited by the author proves that the Scottish contribution was significant

Pierre Berton Brian McKillop, 2011-06-22 The first ever biography of one of Canada's best known and most colourful personalities by an award winning author From his northern childhood on it was clear that Pierre Berton 1920 2004 was different from his peers Over the course of his eighty four years he would become the most famous Canadian media figure of his time in newspapers magazines radio television and books sometimes all at once Berton dominated bookstore shelves for almost half a century winning Governor General's Awards for Klondike and The Last Spike among many others along with a dozen honorary degrees Throughout it all Berton was larger than life full of verve and ideas he approached everything he did with passion humour and an insatiable curiosity He loved controversy and being the centre of attention and provoked national debate on subjects as wide ranging as religion and marijuana use A major voice of Canadian nationalism at the dawn of globalization he made Canadians take interest in their own history and become proud of it But he had his critics too and some considered him egocentric and mean spirited Now with the same meticulous research and storytelling skill that earned him wide critical acclaim for The Spinster and the Prophet Brian McKillop traces Pierre Berton's remarkable life with special emphasis on his early days and his rise to prominence The result is a comprehensive

into themes and giving a chronology of the authors life Painful Choices David A. Welch, 2011-06-27 Under what conditions should we expect states to do things radically differently all of a sudden In this book David Welch seeks to answer this question constructing a theory of foreign policy change inspired by organization theory cognitive and motivational psychology and prospect theory He then test drives the theory in a series of comparative case studies in the security and trade domains Argentina s decision to go to war over the Falklands Malvinas vs Japan s endless patience with diplomacy in its conflict with Russia over the Northern Territories America s decision to commit large scale military force to Vietnam vs its ultimate decision to withdraw and Canada s two abortive flirtations with free trade with the United States in 1911 and 1948 vs its embrace of free trade in the late 1980s Painful Choices has three main objectives to determine whether the general theory project in the field of international relations can be redeemed given disappointment with previous attempts to reflect on what this reveals about the possibilities and limits of general theory and to inform policy Welch argues that earlier efforts at general theory erred by aiming to explain state behavior which is an intractable problem Instead since inertia is the default expectation in international politics all we need do is to explain changes in behavior Painful Choices shows that this is a tractable problem with clear implications for intelligence analysts and negotiators *Pipe Dreams* Jacques

Office,1974 **The National Dream: the Great Railway, 1871-1881** Pierre Berton,1970 Story leading up to the signing of the contract for the CPR **Survival** Margaret Atwood,2013-03-26 When first published in 1972 Survival was considered the most startling book ever written about Canadian literature Since then it has continued to be read and taught and it continues to shape the way Canadians look at themselves Distinguished provocative and written in effervescent compulsively readable prose Survival is simultaneously a book of criticism a manifesto and a collection of personal and subversive remarks Margaret Atwood begins by asking What have been the central preoccupations of our poetry and fiction Her answer is survival and victims Atwood applies this thesis in twelve brilliant witty and impassioned chapters from Moodie to MacLennan to Blais from Pratt to Purdy to Gibson she lights up familiar books in wholly new perspectives This new edition features a foreword by the author *A World Perspective Through 21st Century Eyes* R. K. Koslowsky,2004 As a community of citizens in the twenty first century we are fortunate to have emerged from the biological evolution of the past million years and the cultural evolution of the past ten thousand years We have enjoyed an abundance of time and freedom to explore the why and how things work and continue to push the limits of the present technological evolution A World Perspective through 21st Century Eyes is not a history textbook or a science history book It is not a treatise on philosophy or theology Rather it is a book on the major themes in the evolution of man and the impact of science thereto It is a book with the major theme addressing the impact of science on society one in which the technical community has not had time to digest and reflect upon during the past fifty years With the time pressures of the day and in the specializations in which we operate there is precious little surplus energy available to us for leisure activity of our choosing I trust that this treatment will sketch a broad outline that the scientific and technological community has had on society over the past five thousand years and potential areas where further impacts will be made in the next one hundred years To this effort I believe the reader will find his or her surplus energy well spent An engineer to which my life s training was aimed is expected to have a complete and thorough knowledge of some subjects This is true for most of us in the technical community therefore it is also true that most of us choose not to write about many topics of which we are not master I feel this separation of subjects and isolation of scientists and technologists does a disservice to others in other disciplines who look for different views in order to maintain a balanced perspective on the myriad of issues confronting them each day Those of us who have grown up in the Western Culture without a technical education may find this discussion exciting in the different way it is broached Just as an engineer appreciates the beauty of the Golden Gate Bridge and the precision of the clock the inspiration from watching the setting sun reading a biblical passage or viewing a Bouguereau painting can motivate and enlighten that same engineer In this way I aim to provide the reader either technical or non technical with an appreciation of the evolving world from the viewpoint of one who has been technically trained I cannot reproduce the sunset paint or sing to inspire but I hope these insights motivate you to pause and consider your area of expertise with the aim for you to contribute that which has inspired and motivated you

North of the Color Line Sarah-Jane Mathieu, 2010-11-29 *North of the Color Line* examines life in Canada for the estimated 5 000 blacks both African Americans and West Indians who immigrated to Canada after the end of Reconstruction in the United States Through the experiences of black railway workers and their union the Order of Sleeping Car Porters Sarah Jane Mathieu connects social political labor immigration and black diaspora history during the Jim Crow

era By World War I sleeping car portering had become the exclusive province of black men White railwaymen protested the presence of the black workers and insisted on a segregated workforce Using the firsthand accounts of former sleeping car porters Mathieu shows that porters often found themselves leading racial uplift organizations galvanizing their communities and becoming the bedrock of civil rights activism Examining the spread of segregation laws and practices in Canada whose citizens often imagined themselves as devoid of racism Mathieu historicizes Canadian racial attitudes and explores how black migrants brought their own sensibilities about race to Canada participating in and changing political discourse there
